Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called *Liver-spot,*) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin,* is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York; and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Sold by all Druggists in Portsmouth and elsewhere. lysndao—oct19

Wonderful, but True!

MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, recommending them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speaks in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, *nor could not* be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

☞ On Sunday and Monday we were blessed with one of the finest as well as most welcome rains of the season. It fell in abundance, and the parched earth quickly absorbed it, for it was the first, in any quantity, we have had for two months, and this lack of moisture, together with the cold weather we have had, has made vegetation backward; but now every plant is refreshed, and vegetation will move rapidly if we have the usual heats.

☞ The strike of the New York ship carpenters, caulkers and joiners still progresses. The workmen intend to hold a picnic at Jones' Wood this week, in aid of the eight-hour labor system. The bosses held a meeting on Friday, at which suggestions were thrown out that if the movement continues, they will use means to introduce workmen into the city from other places.—Resolutions in sympathy with the strikers have been made in Portsmouth and elsewhere: what the ultimate effect of the strike will be we cannot say. At present it is a clog to business, and must distress many families, unless speedily closed in some way.

— In Washington, last Sunday morning, Senator Saulsbury escorted Mrs. Jeff. Davis to the Church of the Ascension, to hear Rev. Dr. Pinkney, who has always sympathized with the rebellion. Quite appropriate.

A RACY DESCRIPTION.—"I flatter myself that I know something about the horse race. I had a passion for racing when a lad, and used to run horses with a neighbor's boy in Tompkins' lane. How vividly do I recall my last race. I rode the Governor's grass-fed mare, a sorrel roan, if I remember correctly, with two white feet in the forehead. She was a little foundered in one eye, but, with the exception of something like a watermellon on each knee, her intellect was not impaired. She was sired by Canal Horse and d——l by every one who drove her. Neighbor's boy rode a cream colored chestnut, with a spring halt to harness. On the home-stretch I was a neck and a half a shoulder blade behind, gently encouraging the old mare to do her level best by the application of the corn cutter to her aged ribs. The limp which she had in her eye prevented her taking a clear view of a heap of cobble stones in the lane, and when she struck them there was a stumble, a clatter of stones, horse shoes and old bones, and the old mare wrecked and no insurance.

I was picked up bleeding and insensible, and made the remainder of the home-stretch on a stretcher, coming in under one blanket. The race was decided in my favor. The judges allowed, although I was a neck behind when the old mare stumbled, yet as I escaped without my neck being broken, I came out a *neck ahead!*"

ILLINOIS.—The name of the State of Illinois originated in this manner:—A party of Frenchmen set out upon an exploring expedition down the river, which they afterwards named, providing themselves with bark canvas, and relying chiefly for their subsistence upon game. They found at the confluence of this river with the Mississippi, an island thickly wooded with black walnut. It was a season of the year when nuts were ripe, and this party of explorers, encamping upon this island, greatly enjoyed the luxury of this fruit. From this circumstance they called the island the Island of Nuts"—or, in French "*Isle aux nois*"—which name was given to the river which they explored, and thence to the territory and State.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. THROAT!

MRS. MANCHESTER,

The Independent

CLAIRVOYANT!

—AND—

ECLECTIC PHYSICIAN!

From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately pronounced her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,

GEO. W. RAY.

Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me the nature of her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person disease better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

WHICH IS THE

Leading Life Insurance Comp'y

IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT

LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,989,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....121.35

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably much less, and expenses very much larger than another, can yet divide *more to its members*, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will *see* at once that it *cannot be done*. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

Morning Chronicle.

— On Sunday afternoon four boys started in a boat from Chicago to visit the crib in the Lake, some two miles from the shore. When about half the distance a fierce gale commenced blowing from the shore, which drove the boat with the young navigators far into the Lake. Since that time no trace of them can be found, and they have probably gone to the bottom.

— H. W. Taylor of Cairo, Illinois, married a poor French girl a number of years since, and although they have not suffered for the necessaries of life, they have had to work hard for what they got. A few weeks ago, however, Mrs. Taylor was quite surprised on learning that an uncle of hers had died in France, leaving her a fortune of $30,000 in gold.

WITH A VARIATION.—Arthur is a real Union boy, but not at all religiously inclined, so that his mother often has great difficulty to get him to pray understandingly. One evening, after much persuasion, he knelt to repeat his usual prayer, but rendered it with a slight variation, as follows:—"Now I lay me down to sleep, shouting the battle-cry of freedom."

GERMAN LABOR ON SOUTHERN PLANTATIONS.—A correspondent, who is accompanying Generals Steedman and Fullerton in their tour throughout the South, relates the following experience of Mr. John Townsend, who attempted to employ German emmigrants on Edisto Island. He says:

"They cost me thirty-five dollars each to bring them to Charleston from New York, I fed them far better than ever I thought of feeding my hands, even gave them coffee and sour krout, when what should they do but demand butter for their bread, and milk for their coffee,—and the next thing the whole crowd left me.' This gentleman donated a hundred thousand dollars in gold to the Confederacy, at the commencement of the war.'"

THE FRAGRANT WEED.—China dates a little over two months old, say:

The tea season is now virtually over, and the total exports from Chinese ports since its commencement stand thus:

	1864-5. lbs.	1865-6. lbs.
To Great Britain.....	112,500,700	109,482,100
To United States.....	10,280,469	29,242,800
Total.....	122,781,169	138,725,800

As we have this year three times as much tea as we had last year—can get it from China cheaper than then—and gold is lower—it is to be hoped that the tea importers will consider the propriety of lowering the price.—*Commercial.*

CLEAR AS MUD.—A writer in the Crescent Monthly, New Orleans, thus piles on the agony in a description of the surrender of Gen. Lee:

"The supreme hour was now come, when, from across Fame's burning ecliptic, where it had traced, in flaming sheen, its luminous path of glory, the proud Aldebaran of the Southern hope, in all the splendors of its express, Hyade's brightness, should sink to rest behind the lurid war clouds, in the fateful western heaven, there to bring out, in death's dark canopy, the immortal lights of immortal deeds, and spirits great and glorious, shining forever down upon a cause in darkness, like the glittering hosts upon a world in night."

QUICK CURES AND LOW PRICES.
over Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of Glands, Nodes and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healthe and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.

the largest Wine Merchants in New England. Their object for this outlay is to
TELL THE PEOPLE
that they have the most extensive variety of
PURE WINES AND SPIRITS
of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—
EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.

EXTRACT OF RYE;
WHAT IS IT?
Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it

Perhaps they are right. Try it and see.
IT IS MADE FROM
RYE,
AND NOTHING ELSE,
and from the best Rye at that.
None of your musty, mouldy, heated stuff, but the
Very Best of Rye
that grows in the Cumberland Valley.
It is enough to do a man's soul good to taste it, and see how different it is from the strong, fiery stuff that people use for Rye Whiskey.
It is Made Different.
It retains, by a peculiar mode of distillation, the very
MEDICINAL QUALITIES
that have made it so popular. If you want to use
A Pure, Genuine Article of Spirit,
to stimulate a Weak stomach, or to give you renewed health and long life, use the

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 26, 30, and 302 Henry street, N. Y.—Office, 42 Cedar street.
This Company organized on a permanent basis, with Courteret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments, all kinds of manures (immensely increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are strongly antiseptic, powerfully deodorizing, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical decomposition, in their place, *harmlessly air;* they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of the great discovery, from eminent men, and hundreds of others, can be seen at the Company's office.
DELAVAN HOUSE, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
DEAR SIR: It is all that is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against bad odors. T. ROESSEL & CO.

WEALTH AND HAPPINESS.—The insufficiency of mere wealth alone to confer happiness is strikingly in the life of Nathan Myres Rotschild, the Jew, who died in London some thirty or forty years ago, one of the most devoted worshipers that ever laid a withered soul on the altar of Mammon. For years he wielded the purse of the world, opening it and closing it kings and emperors as he listed; and, upon certain occasions, was supposed to have more influence in Great Britain than the proudest and wealthiest of its nobles—perhaps more influence than the houses of parliament taken together. He once purchased bills of the government, in a single day, to the amount of $20,000,000, and, with the profits of a single loan, purchased an estate at the cost of $750,000. Yet, with all his colossal wealth he was a miserable man; and, with sorrowful earnestness, once exclaimed to a gentleman who was congratulating him on the gorgeous magnificence of his palatial mansion, and thence inferring that he was happy: "Happy! me happy!"

The late Stephen Girard, when surrounded by immense wealth, and supposed to be taking supreme delight in its accumulation, wrote thus to a friend: "As to myself, I live like a galley slave, constantly occupied, and often passing the night without sleeping. I am wrapped in a labyrinth of affairs, and worn out with care. I do not value fortune. The love of labor is my highest emotion. When I rise in the morning, my only effort is to labor so hard during the day that when night comes I may be enabled to sleep soundly."

HARRIET HOSMER.—Rev. E. B. Fairfield, President of Hillsdale College, Michigan, recently gave a lecture in Providence, R. I., and gave the following sketch of a well-known American artist:

"Harriet Hosmer was a fast Massachusetts girl, making $10,000 or $15,000 a year by her chisel, but never succeeded in living within her income, while she had long since exhausted her patrimony. She drives the fastest horses in the place, and she makes the most beautiful marbles ever looked upon."

— In a neighboring city, the health officers in the discharge of their duty to ferret out nuisances which menaced the public health, called at the house of a maiden lady, whose temper has not been improved by her life of single blessedness, and inquired whether there were any nuisances upon her premises. "Yes," promptly and tartly responded the ancient spinster; "a couple of men, that I wish you'd remove."

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself *strictly* to *official* data derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not *strictly reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

WEDNESDAY, MAY 30, 1866.

THE PRESIDENT'S FRIENDS.—We number ourselves among his OLD friends, who helped put him where he is, who upheld him in his Tennessee Administration, and who wish him success in every just and honest measure now; but who cannot toss up their caps for a dishonest policy or a bad measure, because some great man or high officer avows it to be his. He has some NEW friends, however, who are very enthusiastic, who profess to be quite disinterested, and who are just now somewhat clamorous. As a fair specimen of their recent utterances, we copy the whole of a short editorial from the Boston Commercial, a conservative paper, the worthy successor of the Boston Courier. The article is headed "The President and his Enemies,"—and reads thus:

The Radicals have declared war against the President. They detest him, and rejoice at any calamity that might befall him. They are open and undisguised in their hostility to him. In the custom houses, post offices, and other centres of power and patronage, his enemies* cluster and fatten on the loaves and fishes of office, while they avow their detestation of their chief. (1) The question arises how long the President will suffer himself to be set at naught by his subordinates, leaving the defence of his policy to *outsiders*, who, of course, support him from entirely *disinterested* (2) motives, while those holding his commission and who are pampered by his patronage, either remain mute or boldly avow their hostility to that policy. No one doubts the President's moral courage or his purity of purpose. The people believe in Andy Johnson. (3)

But brave as he is, let him understand that he has for his foe the most rancorous and unscrupulous political organization (4) which ever existed in this country. He cannot, therefore, afford to dally with his enemies. He must put them *hors du combat* at once by a bold use of the power lodged in his hands, or he will find himself ere long unsupported, and a mere head without body or limbs to give effect to his purposes. (5) Hesitation and delay are dangerous. He is not obliged to retain in influential and lucrative positions men who take no pains to conceal their enmity. (6)

The New York Herald, in this connection, says, "the President has declared his policy, he has defined his position, and, satisfied that he is right, he relies upon the support of the people. But the leaders and managers of the party which brought him into power hold Congress, neutralize his Cabinet and control his patronage. He is so environed that he must break through his toils or he is lost; and yet he seems to be standing still. Promises and predictions of wonderful things in unhorsing the radicals are as plentiful as blackberries, but we have had enough of these. In this service the industry and ingenuity of his newspaper allies at Washington have been so severely tried that we are disposed to give them a little rest. (7) In truth, we are getting tired of ringing the changes upon what President Johnson is going to do, and how the radicals are losing ground, and losing faith, and losing their rank and file, and all such idle nonsense." (8)

NOTES.—*His worst enemies are those who offer him the most fulsome flattery, and who have cajoled him into a course which makes trouble for the country now, and which will, if persisted in, sink him into contempt when he passes out of office.

1 We find a very curious offset or answer to this in the same Commercial, being part of a letter from Dover, N. H., which says:

Good and heretofore radical republicans are beginning to approve "my policy," as it is sneeringly termed, and bid Andy Johnson God speed in his work of decapitating those who are willing to "sell their birthright for a mess of pottage." It is having a good effect. Office holders, who are within the appointing power of the President, who have heretofore been loud and blatant, do now "roar you as gently as a sucking dove," and good democrats can now transact the business they may have with them, without being assailed with such terms as "copperhead," "rebel," &c.

2 What *very disinterested* people they must be, hungering and thirsting for power, place and pelf.

3 What *sort* of people are they who now believe in Andrew Johnson? The answer, in a negative way, is given at the close of the article copied above, where the New York Herald says the radicals are *not* losing their rank and file, and it is *nonsense* to make such a pretence. If so, they must be "conservatives," or rebels, who trust in A. J.

4 The very same organization which made Andrew Johnson Vice President! Does the President believe what the Commercial here asserts, that the Republican Union organization, that elected Lincoln & Johnson, and put down the rebellion, are more unscrupulous than the rebel confederacy that made the war? than the Buchanan Taney party that tried the Kansas Lecompton swindle? or than the conservative organization with Vallandigham and Pendleton at the head, and Pierce and McClellan at the tail? If the Union men are to be counted his *foes*, it would become him to ask why they are so? Is he certainly right,—and *every* republican in the House, and two-thirds of the Senate, certainly wrong? Does he, or do his *new* friends remember to have read what one Solomon wrote several years ago, about a man who was wise in his own conceit—wiser than seven men who can render a reason?

5 Very likely.

6 Here the *disinterested* men beg for the *lucrative* offices.

7 His "newspaper allies" in Washington are chiefly concerned to deceive their patron, the President, and get their reward. Of the people they deceive but few.

8 If the reader will look back to figure 3, in the text and notes, he may see how finely one assertion contradicts the other. And in the whole article he cannot fail to see an earnest longing for the loaves and fishes, which reminds us of a saying in St. John's Gospel, 6: 26,—"Ye seek ME, *not* because ye saw the Miracles, but because ye did eat of the Loaves, and were filled." The President's new friends care but little about him or his policy, except so far as he or it may put a piece of bread in their mouths, and bring fish into their net. U. T.

CONGRESS did some important business on Monday. The House, after amending the Internal Revenue bill, passed it by vote of 111 to 11.

The title was amended so as to insert the words, "a bill to reduce internal taxes," before the title to the bill.

The consideration of this bill has engrossed nearly four weeks laborious attention of the House. It is a measure of immense consequence to the country, reducing the internal taxes nearly seventy-five millions per annum, and this, at the close of a war of unprecedented magnitude, is an index to the power and resources of our country, which specially gratifies our own people and is the cause of astonishment and admiration to the financiers of Europe.

Messages from the President covering reports from the Secretary of War relative to the operations of the Freedmen's Bureau, and from the Postmaster General relative to the proposed mail steamship service to Brazil, were received.

The Senate was only in session an hour, but the Republican Senators were in caucus two hours in the morning and over three hours in the afternoon. It is understood that they are so harmonizing their views, that a substitute for the 3d section of the proposed Constitutional amendment will probably be agreed to which will command 35 votes. Senators Morgan and Lane of Kansas are among those who will support this new proposition, which some hope will be accepted by the President, thus ending a difference between the executive and Legislative branches of the Government. Should the Republican caucus agree upon a substitute to the 3d section, it will be reported to the Senate and be adopted as a new base for the arguments in favor of the proposed amendment as amended.

WASHINGTON ITEMS.—The President has nominated to the Senate William Faxon Chief Clerk of the Navy Department, to be Assistant Secretary of the Navy, in place of Mr. Fox, resigned. Mr. Fox has been nominated as additional Secretary of the Navy for six months.

Assistant Commissioner Scott, who accompanied Generals Steedman and Fullerton to the Sea Islands, reports that no flaw could be found in the management there or in South Carolina. The planters came forward and upheld his policy, and were panic-stricken at the idea of the removal of the Bureau. The Commissioner for North Carolina says the number of destitute freedmen is being gradually reduced. The demand for labor is greater than the supply.

ECCENTRICITY.—A wealthy old gentleman in Edinburg, some years since, married his servant, and at his death left her a good house and an annuity of £300. Soon after his death the house was rigidly closed to all visitors, and the widow was a constant attendant upon all book and other sales, where she took her purchases in a blue bag and carried them home. Matters went on thus for twenty years, until within a few weeks the old lady died suddenly in her garden. On the house being entered by warrant from the sheriff, it was found that she had converted the whole house into a vast magazine for the conservation of the purchases of the last twenty years; and such a scene presented itself as we believe seldom before met mortal eyes. The lobby, a handsome one, had been decorated with statuary figures standing, with the pedestals, some eight feet high; but these were totally hidden by piles of books, intermixed with rubbish of every description, heaped up on either side of the lobby—a narrow track alone being left in the centre, through which with great difficulty a passage could be made. Every room in the house was in a similar state. The books were so piled up that it was impossible to enter some of the rooms, and more than five tons weight had to be carried away, merely to clear out a passage.

☞ Scovel, it is said, will run for Congress as an independent candidate in the 1st district of New Jersey. The Democrats in that district will make no nomination.—So we should think. He has gone to his own place.

A CAUTION—We mention the following as a caution against the bad habit which many girls and young ladies are addicted to of placing pins and needles in their mouths while engaged in sewing. Miss Mattie J Bigelow, daughter of George Bigelow, Esq., of Skowhegan, has been in poor health for two years past, and at times raising considerable blood and suffering severe pain in her lungs. Last fall she went West, and stopping on the way with some friends, was so low in health that her life was almost despaired of. She recovered, however, and on arriving in Iowa was very feeble for some time. At length a sore gathered on her left side, from which great difficulty was experienced, until it broke, and a needle came from it. The physician who attended her gave it as his opinion that the needle had passed through both her lungs, thus causing the severe pain and ill health. She is now doing well with a prospect of regaining her health.—*Maine Farmer.*

STRIKES. — The gas-fitters of Chicago have struck for four dollars a days, and several firms have complied with these terms.

The women employed in a shoe- building shop in Rochester, N. Y., have struck against a reduction of wages. It appears that some weeks since having a large number of orders, the employer requested them to work out of hours, to enable him to supply the demand. They did this, hoping to receive additional compensation for it, but were disappointed to learn that, instead of payment, he had determined to reduce their wages nearly forty per cent. They offered to submit to a reduction of ten per cent., which was refused, and they they then left. Their number was one hundred and twenty five.

☞ On Monday evening at Honesdale, Penn., a terrible tornado swept over the town. The immense covered bridge, spanning the Lackawaxen river, was bodily lifted six feet in the air, and fell into the river a mass of ruins. A boy who had just crossed the bridge was carried fifty feet up the river. Several barns, out-houses, &c., were demolished. Trees and sticks of timber filled the air, flying like shingles. The course of the tornado was from west to east then turned and went south and west, and veering again finally took a northeasterly course. No lives lost.

☞ From Mexico it appears that the Liberals, obtaining a victory at Hermorsilo, robbed, murdered, and abused the people of the town, men and women friends, and foes. They were afterwards driven off.

RHODE ISLAND LEGISLATURE.—The General assembly of Rhode Island met at Newport on Tuesday, and Gen. Burnside assumed the gubernatorial chair. Twelve military companies were the escort, and the procession was an imposing one.

— What is the gentlest kind of spur? Whisper.

— The Chicago Republican denies that it is going to change its political doctrines and policy. The wish was farther to the thought, in somebody.

— There are about nine hundred convicts confined in the Illinois State penitentiary, while the accommodation was only intended for four hundred. Consequently two or three are often confined in one cell.

— The king of the market is the J. Monroe Taylor Gold Medal Soap; it cannot help superseding all other soaps, and will eventually be the only soap in use, as its chemical and crasive qualities are so pre-eminent that after one trial you will always use it; it has no equal for all purposes where soap is needed. — Literal definition of a Jury—Twelve men in a box.

— Why is a chicken pie like a gunsmith's store? Because it contains fowl in pieces.

— Poverty of soul—living in an elegant mansion worth $20,000, and never giving a shilling for charitable purposes; and never visiting the needy, as it involves a gift of fifty cents or so.

— General Howard has written a letter to the President, asking that officers of his bureau against whom charges are made, may hereafter have an opportunity to appear before a court-martial before being summarily condemned. A reasonable request, which would be granted by any reasonable man:—we hope it may be so in the present instance.

DENTISTRY!

—AT—

No. 5 Daniel Street.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "SO" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

GENTS:—Having used, and witnessed the beneficial effects of PERRY DAVIS' PAIN KILLER, I take great pleasure in recommending it to the public as the very best Family Medicine with which I am acquainted. In this establishment are employed nearly one hundred persons, and your PAIN KILLER has been used with the most astonishing results. FOR FOUR YEARS not a single severe case of Cholic, Summer Complaint, or Dysentery, but has yielded like magic to the curative powers of the "Killer;" and for Cuts, Bruises, etc., it is in almost daily use, and with like good effects. REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still farther decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodations to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co., Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE HERE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.
Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. IN BOARD OF ALDERMEN, Monday evening, leave was granted to Benjamin Cheever to encumber Daniel street.

Bills from the Council fixing the pay of firemen and engineers, and in amendment of Ordinance No. 104, and communication from foreman of Engine Co. No. 1, were taken from the table and referred to Com. on 2d Reading of Bills.

A message was received from the Council that they had agreed to three amendments of the Aldermen to the Appropriation Bill, and disagreed to the other five.

Voted that the Aldermen adhere to their amendments, and ask for a committee of conference. Ald. Martin, Wilson and Ayers were appointed said committee on the part of the Aldermen.

A message was received from the Council that they had chosen as their committee Messrs. Ackerman, Martin, French, Gardiner and Trafton.

A resolution was passed instructing the City Clerk to notify the Directors of the Eastern R. R., and Concord & Portsmouth R. R., that they must have a flag-man stationed at every place where their trains cross a public highway within the compact part of the city (except at the Creek), who must display his flag at least one minute before an engine passes any such crossing; also to call their attention to the frequent violation of Sec. 48, Chapter 150, Compiled Statutes.

A joint resolution, passed by the Common Council, appropriating $1000 for the celebration of the coming Fourth of July, was laid on the table.

The Committee of Conference having disagreed, a motion to concur with the council in the passage of the Appropriation Bill was lost, Yeas 3, Nays 5. Adjourned to Tuesday evening.

IN COMMON COUNCIL:—A resolution appropriating $1000, for celebration of Fourth of July, provided $500 additional, be raised by the citizens, was passed.

Voted, to adhere to the report of the Committee of Conference in disagreeing with five amendments to the Appropriation bill, made by the Aldermen. Adjourned to Tuesday evening.

Communication.

THE CELEBRATION.—The City Fathers are to furnish (if the two Boards so agree) the sum of $1000, provided the citizens will add an additional $500. Are we willing to back down on so small an amount, when so much satisfaction and profit would be the result? Let us move at once in the matter, and see if an interest cannot be created which will make the coming celebration a lively and satisfactory one. Let the civic and military organizations, the teachers and scholars, take decided action in regard to it and the result must be a glorious Fourth.

For the Chronicle.

MADAME MANCHESTER, the celebrated Clairvoyant Physician, is now stopping for a short time only at the Franklin House, and all who have affections of the eye, ear and throat, or are troubled with any chronic disease, will do well to test her mode of treatment. She has many and strong testimonials to establish her reputation as a successful practitioner.

☞ Lieut. J. M. Bradford, of the Navy, was thrown from his carriage on Tuesday, at the Navy Yard, and severely hurt, but not dangerously injured. One of the shafts separated from the carriage, which frightened the horse and caused the accident.

GOING TO EUROPE.—We learn from the Independent Democrat that Hon. Joseph A. Gilmore, Superintendent of the Concord, Manchester & Lawrence Railroad, has been granted leave of absence of three months by the Directors, in order that he may visit Europe for his health, which has become somewhat impaired. He will sail about the 1st of July, accompanied by his wife. We wish the ex Governor much pleasure of his journey, and a safe return.

—— The City Council of Concord have voted $1000 for the purchase of apparatus to water the streets.

—— A house in Great Falls is unoccupied and going to ruin, because the owner thinks "the spirits" have informed him that if he puts the house in habitable order he will surely die! Poor man: he will surely die whether he repairs the house or lets it rot down. It needs no ghost from the grave to tell him that. And as Dr. Watts finely says:

Why should we start and fear to die—
What timorous worms we mortals are!
Death is the gate to endless joy,
And yet we fear to enter there.

☞ The Tribune says an attempt is to be made by the Administration to control the Legislature of this State, so as to prevent the election of a U. S. Senator. The Free Press says: "We do not believe it. The Administration has enough to do without interfering with State Legislatures, and it probably knows too well the steadfastness of New Hampshire Republicans to attempt anything of the kind." [It has enough to do, no doubt:—but the thing was tried in Connecticut. Why may it not be tried here?]

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin,* is certainly a desideratum. The Eye, Ear, Catarrh,
—AND—

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland describing her symptoms. She immediately examined her case and told that she had a snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms You examined her case and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person discased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to the members, the *largest* of any like institution in the country.
Premiums received in 1864.....$2,089,072
" " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....151.85
The inevitable conclusion from these official facts, is that the
MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Morning Chronicle.

LONG AND SHORT PASSAGES.—Bark Ada Carter, Capt. Haven, from Messina March 8th, arrived at Boston, Friday morning, after a tedious passage of 77 days. The bark Daniel Webster, Capt. Nickerson, sailed from Boston for Messina March 3, (five days after the Ada Carter started for home,) made the voyage out and back, and has been home long enough to discharge, and nearly complete her loading for sea again! The contrast in the two passages is somewhat striking.—*Commercial.*

☞ *Gen.* Fullerton, who is now traveling in the South for the purpose of white-washing the rebels and vilifying the Freedmen's Bureau, qualified himself for this duty by so mismanaging the bureau when it was under his charge in Louisiana, as to give the highest satisfaction to traitors.—*Statesman.*

— Love is as necessary to a woman's heart, as a fashionable bonnet to her head. Indeed, we think rather more so, for nothing less than a large measure of love will content her; whereas, the recent fashion has shown that she can be satisfied with a very little bonnet.

— At Indianapolis the other day, a man by the name of John M. Holly, who was supposed to be a deserter from the rebel army, and as such was given employment in a factory, began to exhibit a bone which he said his father took from the arm of a dead Yankee, and was discharged at once. The workmen of the factory finished the affair by ducking Holly in a canal, and giving him short notice to leave town. He left in a hurry.

HIGHLY IMPORTANT
TO
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 31 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that sick ladies see none but the Doctor himself.
Address Dr. Briscoe, at No. 31 Endicott St. Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 8 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 31 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of *friendly* advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1855,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; also, legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, with full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part, I do not remember to have met with, to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected appli cations SIXTEEN NEW TRIALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Ayer's Sarsaparilla
Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an efficient antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—
Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose Rash, Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.
Syphilis or Venereal Disease is expelled, from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.
Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OR SARSAPARILLA.
Do not discard this invaluable medicine, because you have been deceived upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know what is the virtue of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish *gratis* to all who call for it.
AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disorded Stomach, Pain in the Side and Stomach, Costive Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.
Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—2mMTuso

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURANT'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the Company's Works, Lafayette, Ind., and 302 Henry street, N. Y.—Office, 42 Cedar street.
The Company organized on a permanent basis, with Courant, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its Disinfectants for sick rooms, hospitals, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public buildings, of all kinds, slaughter houses, oil and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter,) and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gases and quiet the most active chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—a distinction of vital importance which they are used. The attention of medical and sanitary men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office
Treasury Department, Albany, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found one article which surpasses all others as a remedy against all bad odors. T. ROSSEL & CO.
NEW YORK, April 9, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: We pronounce it without exception the best we have ever known. Its effect upon every matter is complete and instantaneous.

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.

In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.

He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.

Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

WANTED.—LOSSING'S SUPERBLY ILLUSTRATED HISTORY OF THE WAR. 8 vols. 600 pages each. Over 3000 fine engravings, besides maps, diagrams, etc., costing $50,000. Indorsed by Governors of all the States, leading Generals, prominent literary men, and others. This presents a profitable and permanent business to active, intelligent men or women, clergymen, and others. ANDREW BOYD, General Agent New England States, 265 Washington street, Boston, Mass.

WEDNESDAY, MAY 30, 1866.

THE PRESIDENT'S FRIENDS.—We number ourselves among his OLD friends, who helped put him where he is, who upheld him in his Tennessee Administration, and who wish him success in every just and honest measure now; but who cannot toss up their caps for a dishonest policy or a bad measure, because some great man or high officer avows it to be his. He has some NEW friends, however, who are very enthusiastic, who profess to be quite disinterested, and who are just now somewhat clamorous. As a fair specimen of their recent utterances, we copy the whole of a short editorial from the Boston Commercial, a conservative paper, the worthy successor of the Boston Courier. The article is headed "The President and his Enemies,"—and reads thus:

The Radicals have declared war against the President. They detest him, and rejoice at any calamity that might befall him. They are open and undisguised in their hostility to him. In the custom houses, post offices, and other centres of power and patronage, his enemies* cluster and fatten on the loaves and fishes of office, while they favor their detestation of their chief. (1) The question arises how long the President will suffer himself to be set at naught by his subordinates, leaving the defence of his policy to *outsiders*, who, of course, support him from entirely *disinterested* (2) motives, while those holding his commission and who are pampered by his patronage, either remain mute or boldly avow their hostility to that policy. No one doubts the President's moral courage or his purity of purpose. The people believe in Andy Johnson. (3)

But brave as he is, let him understand that he has for his foe the most rancorous and unscrupulous political organization (4) which ever existed in this country. He cannot, therefore, afford to dally with his enemies. He must put them *hors du combat* at once by a bold use of the power lodged in his hands, or he will find himself ere long unsupported, and a mere head without body or limbs to give effect to his purposes. (5) Hesitation and delay are dangerous. He is not obliged to retain in influential and lucrative positions men who take no pains to conceal their enmity. (6)

The New York Herald, in this connection, says, "the President has declared his policy, he has defined his position, and, satisfied that he is right, he relies upon the support of the people. But the leaders and managers of the party which brought him into power hold Congress, neutralize his Cabinet and control his patronage. He is so environed that he must break through his toils or he is lost; and yet he seems to be standing still. Promises and predictions of wonderful things in unhorsing the radicals are as plentiful as blackberries, but we have had enough of these. In this service the industry and ingenuity of his newspaper allies at Washington have been so severely tried that we are disposed to give them a little rest. (7) In truth, we are getting tired of ringing the changes upon what President Johnson is going to do, and how the radicals are losing ground, and losing faith, and losing their rank and file, and all such idle nonsense." (8)

NOTES.—*His worst enemies are those who offer him the most fulsome flattery, and who have cajoled him into a course which makes trouble for the country now, and which will, if persisted in, sink him into contempt when he passes out of office.

1 We find a very curious offset or answer to this in the same Commercial, being part of a letter from Dover, N. H., which says:

Good and heretofore radical republicans are beginning to approve "my policy," as it is sneeringly termed, and bid Andy Johnson God speed in his work of decapitating those who are willing to "sell their birthright for a mess of pottage." It is having a good effect. Office holders, who are within the appointing power of the President, who have heretofore been loud and blatant, do now "roar you as gently as a sucking dove," and good democrats can now transact the business they may have with them, without being assailed with such terms as "copperhead," "rebel," &c.

2 What *very disinterested* people they must be, hungering and thirsting for power, place and pelf.

3 What *sort* of people are they who now believe in Andrew Johnson? The answer, in a negative way, is given at the close of the article copied above, where the New York Herald says the radicals are *not* losing their rank and file, and it is *nonsense* to make such a pretence. If so, they must be "conservatives," or rebels, who trust in A. J.

4 The very same organization which made Andrew Johnson Vice President! Does the President believe what the Commercial here asserts, that the Republican Union organization, that elected Lincoln & Johnson, and put down the rebellion, are more unscrupulous than the rebel confederacy that made the war? than the Buchanan Taney party that tried the Kansas Lecompton swindle? or than the conservative organization with Vallandigham and Pendleton at the head, and Pierce and McClellan at the tail? If the Union men are to be counted his *foes*, it would become him to ask why they are so? Is he certainly right,—and *every* republican in the House, and two-thirds of the Senate, certainly wrong? Does he, or do his *new* friends remember to have read what one Solomon wrote several years ago, about a man who was wise in his own conceit—wiser than seven men who can render a reason?

5 Very likely.

6 Here the *disinterested* men beg for the *lucrative offices*.

7 His "newspaper allies" in Washington are chiefly concerned to deceive their patron, the President, and get their reward. Of the people they deceive but few.

8 If the reader will look back to figure 3, in the text and notes, he may see how finely one assertion contradicts the other. And in the whole article he cannot fail to see an earnest longing for the loaves and fishes, which reminds us of a saying in St. John's Gospel, 6: 26,—"Ye seek ME, *not* because ye saw the Miracles, but because ye did eat of the Loaves, and were filled." The President's new friends care but little about him or his policy, except so far as he or it may put a piece of bread in their mouths, and bring fish into their net. U. T.

CONGRESS did some important business on Monday. The House, after amending the Internal Revenue bill, passed it by vote of 111 to 11.

The title was amended so as to insert the words, "a bill to reduce internal taxes," before the title to the bill.

The consideration of this bill has engrossed nearly four weeks laborious attention of the House. It is a measure of immense consequence to the country, reducing the internal taxes nearly seventy-five millions per annum, and this, at the close of a war of unprecedented magnitude, is an index to the power and resources of our country, which specially gratifies our own people and is the cause of astonishment and admiration to the financiers of Europe.

Messages from the President covering reports from the Secretary of War relative to the operations of the Freedmen's Bureau, and from the Postmaster General relative to the proposed mail steamship service to Brazil, were received.

The Senate was only in session an hour, but the Republican Senators were in caucus two hours in the morning and over three hours in the afternoon. It is understood that they are so harmonizing their views, that a substitute for the 3d section of the proposed Constitutional amendment will probably be agreed to which will command 35 votes. Senators Morgan and Lane of Kansas are among those who will support this new proposition, which some hope will be accepted by the President, thus ending a difference between the executive and Legislative branches of the Government. Should the Republican caucus agree upon a substitute to the 3d section, it will be reported to the Senate and be adopted as a new base for the arguments in favor of the proposed amendment as amended.

WASHINGTON ITEMS.—The President has nominated to the Senate William Faxon, Chief Clerk of the Navy Department, to be Assistant Secretary of the Navy, in place of Mr. Fox, resigned. Mr. Fox has been nominated as additional Secretary of the Navy for six months.

Assistant Commissioner Scott, who accompanied Generals Steedman and Fullerton to the Sea Islands, reports that no flaw could be found in the management there or in South Carolina. The planters came forward and upheld his policy, and were panic-stricken at the idea of the removal of the Bureau. The Commissioner for North Carolina says the number of destitute freedmen is being gradually reduced. The demand for labor is greater than the supply.

ECCENTRICITY.—A wealthy old gentleman in Edinburg, some years since, married his servant, and at his death left her a good house and an annuity of £300. Soon after his death the house was rigidly closed to all visitors, and the widow was a constant attendant upon all book and other sales, where she took her purchases in a blue bag and carried them home. Matters went on thus for twenty years, until within a few weeks the old lady died suddenly in her garden. On the house being entered by warrant from the sheriff, it was found that she had converted the whole house into a vast magazine for the conservation of the purchases of the last twenty years; and such a scene presented itself as we believe seldom before met mortal eyes. The lobby, a handsome one, had been decorated with statuary figures standing, with the pedestals, some eight feet high; but these were totally hidden by piles of books, intermixed with rubbish of every description, heaped up on either side of the lobby—a narrow track alone being left in the centre, through which with great difficulty a passage could be made. Every room in the house was in a similar state. The books were so piled up that it was impossible to enter some of the rooms, and more than five tons weight had to be carried away, merely to clear out a passage.

☞ Seovel, it is said, will run for Congress as an independent candidate in the 1st district of New Jersey. The Democrats in that district will make no nomination.—So we should think. He has gone to his own place.

A CAUTION.—We mention the following as a caution against the bad habit which many girls and young ladies are addicted to of placing pins and needles in their mouths while engaged in sewing. Miss Mattie J Bigelow, daughter of George Bigelow, Esq., of Skowhegan, has been in poor health for two years past, and at times raising considerable blood and suffering severe pain in her lungs. Last fall she went West, and stopping on the way with some friends, was so low in health that her life was almost despaired of. She recovered, however, and on arriving in Iowa was very feeble for some time. At length a sore gathered on her left side, from which great difficulty was experienced, until it broke, and a needle came from it. The physician who attended her gave it as his opinion that the needle had passed through both her lungs, thus causing the severe pain and ill health. She is now doing well with a prospect of regaining her health.—*Maine Farmer.*

STRIKES.—The gas-fitters of Chicago have struck for four dollars a days, and several firms have complied with these terms.

The women employed in a shoe-building shop in Rochester, N. Y., have struck against a reduction of wages. It appears that some weeks since having a large number of orders, the employer requested them to work out of hours, to enable him to supply the demand. They did this, hoping to receive additional compensation for it, but were disappointed to learn that, instead of payment, he had determined to reduce their wages nearly forty per cent. They offered to submit to a reduction of ten per cent., which was refused, and they they then left. Their number was one hundred and twenty five.

☞ On Monday evening at Honesdale, Penn., a terrible tornado swept over the town. The immense covered bridge, spanning the Lackawaxen river, was bodily lifted six feet in the air, and fell into the river a mass of ruins. A boy who had just crossed the bridge was carried fifty feet up the river. Several barns, out-houses, &c., were demolished. Trees and sticks of timber filled the air, flying like shingles. The course of the tornado was from west to east then turned and went south and west, and veering again finally took a northeasterly course. No lives lost.

☞ From Mexico it appears that the Liberals, obtaining a victory at Hermorsillo, robbed, murdered, and abused the people of the town, men and women friends, and foes. They were afterwards driven off.

RHODE ISLAND LEGISLATURE.—The General assembly of Rhode Island met at Newport on Tuesday, and Gen. Burnside assumed the gubernatorial chair. Twelve military companies were the escort, and the procession was an imposing one.

— What is the gentlest kind of spur? Whisper.

— The Chicago Republican denies that it is going to change its political doctrines and policy. The wish was farther to the thought, in somebody.

— There are about nine hundred convicts confined in the Illinois State penitentiary, while the accommodation was only intended for four hundred. Consequently two or three are often confined in one cell.

— The king of the market is the J. Monroe Taylor Gold Medal Soap; it cannot help superseding all other soaps, and will eventually be the only soap in use, as its chemical and erasive qualities are so pre-eminent that after one trial you will always use it; it has no equal for all purposes where soap is needed. Depot, 112 Liberty Street, New York. 93

— Literal definition of a Jury—Twelve men in a box.

— Why is a chicken pie like a gunsmith's store? Because it contains fowl in pieces.

— Poverty of soul—living in an elegant mansion worth $20,000, and never giving a shilling for charitable purposes; and never visiting the needy, as it involves a gift of fifty cents or so.

— It is declared at the Treasury Department that if the House bill for the equalization of bounties passes the Senate it will put gold up to two hundred.

☞ It is reported that Mrs. Jeff. Davis has been very uneuvil in her way of addressing officers at Fortress Munroe, and that she has frequently used language to them not suited to loyal ears. Very probable,—and very natural.

— General Howard has written a letter to the President, asking that officers of his bureau against whom charges are made, may hereafter have an opportunity to appear before a court-martial before being summarily condemned. A reasonable request, which would be granted by any reasonable man:—we hope it may be so in the present instance.

THAT THERE IS

A MINT OF MONEY

IN THE SALE OF

"POWERS' PERPETUAL BROOM."

It is light, tasty and economical. There is no perceptible difference in weight between this and a common broom, and it is the *only* Patent Broom in which the amount of corn may be varied at pleasure, making a light or thick and heavy broom.

IT IS SWEEPING THE COUNTRY LIKE WILDFIRE, and is *sweeping* from $500 to $1000 per month into the pockets of men of energy and tact

One purchaser writes: "In ten days I have sold 3.0, *averaging one to a family.*"—Another: "My first three weeks' work with the broom *has net'd me* $550."—A third: "In three days I sold 7 townships for the price of my county, and have 27 left."

Then why sit still whistling the tune "I've nothing to do." A small investment, backed by a little energy, will fill your pockets with

Greenbacks.

DENTISTRY!

—AT—

No. 5 Daniel Street.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS never uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.
Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. IN BOARD OF ALDERMEN, Monday evening, leave was granted to Benjamin Cheever to encumber Daniel street.

Bills from the Council fixing the pay of firemen and engineers, and in amendment of Ordinance No. 104, and communication from foreman of Engine Co. No. 1, were taken from the table and referred to Com. on 2d Reading of Bills.

A message was received from the Council that they had agreed to three amendments of the Aldermen to the Appropriation Bill, and disagreed to the other five.

Voted that the Aldermen adhere to their amendments, and ask for a committee of conference. Ald. Martin, Wilson and Ayers were appointed said committee on the part of the Aldermen.

A message was received from the Council that they had chosen as their committee Messrs. Ackerman, Martin, French, Gardiner and Trafton.

A resolution was passed instructing the City Clerk to notify the Directors of the Eastern R. R., and Concord & Portsmouth R. R., that they must have a flag-man stationed at every place where their trains cross a public highway within the compact part of the city (except at the Creek), who must display his flag at least one minute before an engine passes any such crossing; also to call their attention to the frequent violation of Sec. 48, Chapter 150, Compiled Statutes.

A joint resolution, passed by the Common Council, appropriating $1000 for the celebration of the coming Fourth of July, was laid on the table.

The Committee of Conference having disagreed, a motion to concur with the council in the passage of the Appropriation Bill was lost, Yeas 3, Nays 5. Adjourned to Tuesday evening.

IN COMMON COUNCIL:—A resolution appropriating $1000, for celebration of Fourth of July, provided $500 additional, be raised by the citizens, was passed.

Voted, to adhere to the report of the Committee of Conference in disagreeing with five amendments to the Appropriation bill, made by the Aldermen. Adjourned to Tuesday evening.

Communication.

THE CELEBRATION.—The City Fathers are to furnish (if the two Boards so agree) the sum of $1000, provided the citizens will add an additional $500. Are we willing to back down on so small an amount, when so much satisfaction and profit would be the result? Let us move at once in the matter, and see if an interest cannot be created which will make the coming celebration a lively and satisfactory one. Let the civic and military organizations, the teachers and scholars, take decided action in regard to it and the result must be a glorious Fourth.

For the Chronicle.

MADAME MANCHESTER, the celebrated Clairvoyant Physician, is now stopping for a short time only at the Franklin House, and all who have affections of the eye, ear and throat, or are troubled with any chronic disease, will do well to test her mode of treatment. She has many and strong testimonials to establish her reputation as a successful practitioner.

☞ Lieut. J. M. Bradford, of the Navy, was thrown from his carriage on Tuesday, at the Navy Yard, and severely hurt, but not dangerously injured. One of the shafts separated from the carriage, which frightened the horse and caused the accident.

☞ U. S. steamship Piscataqua, at the Navy Yard, was put into dock on Tuesday, from the stocks where she was built.

☞ The Lady's Friend for June, has engravings of the Mother's Blessing and the Music Mistress, with stories for each. Deacon & Peterson, publishers, Philadelphia.

☞ Mr. J. F. Shores, jr., has Hours at Home, for June. Scribner & Co., publishers, New York.

GOING TO EUROPE.—We learn from the Independent Democrat that Hon. Joseph A. Gilmore, Superintendent of the Concord, Manchester & Lawrence Railroad, has been granted leave of absence of three months by the Directors, in order that he may visit Europe for his health, which has become somewhat impaired. He will sail about the 1st of July, accompanied by his wife. We wish the ex Governor much pleasure of his journey, and a safe return.

☞ There are rumors of a Fenian raid on Canada.

GEN. WINFIELD SCOTT, of the United States army, died at West Point, Tuesday, May 27, in the 80th year of his age.

☞ 1500 French troops sailed from Vera Cruz, Mexico, May 19: their term of service had expired.

☞ The great hotel at Saratoga Springs, called Congress Hall, was found on fire at 1 o'clock Tuesday morning, and totally destroyed. Loss $200,000. The house was to be opened June 1st.

NEW HAMPSHIRE ITEMS.

—— Our State Legislature meets at Concord on Wednesday of next week.

—— Rev. T. H. Miller is to preach at Atkinson, Sunday, June 10.

—— The City Council of Concord have voted $1000 for the purchase of apparatus to water the streets.

—— A house in Great Falls is unoccupied and going to ruin, because the owner thinks "the spirits" have informed him that if he puts the house in habitable order he will surely die! Poor man: he will surely die whether he repairs the house or lets it rot down. It needs no ghost from the grave to tell him that. And as Dr. Watts finely says:

Why should we start and fear to die—
What timorous worms we mortals are!
Death is the gate to endless joy,
And yet we fear to enter there.

☞ The Tribune says an attempt is to be made by the Administration to control the Legislature of this State, so as to prevent the election of a U. S. Senator. The Free Press says: "We do not believe it. The Administration has enough to do without interfering with State Legislatures, and it probably knows too well the steadfastness of New Hampshire Republicans to attempt anything of the kind." [It has enough to do, no doubt:—but the thing was tried in Connecticut. Why may it not be tried here?]

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES
These Drops are a scientifically compounded fluid preparation, and better than Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. For the cure of all female complaints, the removal of all obstructions of nature, and the promotion of the regular menses, they are a strong Specific. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Motlipatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin,* is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.
Sold by all Druggists in Portsmouth and elsewhere. lysndaw—oct19

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland describing her symptoms. She immediately examined her case and told that she had a snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription; and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.
MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

CHOLERA! CHOLERA!
Prof. Bonve's Atmospheric Purifier.
This article has been extensively used as a Deodorizing Agent by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying hospitals, Vaults, Drains, Cess pools, &c, cannot be surpassed.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864	$2,089,072
" " " " 1865	3,029,087
Ratio of expenses to premiums rec'd in '64	12.96
" " " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	151.85

The inevitable conclusion from these official facts, is that the
MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Morning Chronicle.

LONG AND SHORT PASSAGES.—Bark Ada Carter, Capt. Haven, from Messina March 8th, arrived at Boston, Friday morning, after a tedious passage of 77 days. The bark Daniel Webster, Capt. Nickerson, sailed from Boston for Messina March 3, (five days after the Ada Carter started for home,) made the voyage out and back, and has been home long enough to discharge, and nearly complete her loading for sea again! The contrast in the two passages is somewhat striking.—*Commercial.*

☞ Gen. Fullerton, who is now traveling in the South for the purpose of white-washing the rebels and vilifying the Freedmen's Bureau, qualified himself for this duty by so mismanaging the bureau when it was under his charge in Louisiana, as to give the highest satisfaction to traitors.—*Statesman.*

— Love is as necessary to a woman's heart, as a fashionable bonnet to her head. Indeed, we think rather more so, for nothing less than a large measure of love will content her; whereas, the recent fashion has shown that she can be satisfied with a very little bonnet.

— At Indianapolis the other day, a man by the name of John M. Holly, who was supposed to be a deserter from the rebel army, and as such was given employment in a factory, began to exhibit a bone which he said his father took from the arm of a dead Yankee, and was discharged at once. The workmen of the factory finished the affair by ducking Holly in a canal, and giving him short notice to leave town. He left in a hurry.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 25 Endicott street.
Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicine securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 25 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 8 A. M. to 9 P. M.
Boston, July 16, 1866. 1Ybly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 25 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1836,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers, or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but many of inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, will full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part, I cannot in conscience withhold, when I apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN NEW CLAIMS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Ayer's Sarsaparilla
Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an efficient antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proved by experiment on many of the worst cases to be found in the following complaints:—
Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.
Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.
Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.
Do not discard this invaluable medicine, because others have been imposed upon by imposing pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, can you form your own conclusions. For more particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agents below named will furnish gratis to all who call for it.
AYER'S CATHARTIC PILLS, for the cure of Costiveness, Indigestion, Dyspepsia, Inflammation, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or dull sensation in the Bowels, Costiveness, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—2mTuSu

DR. KNIGHTS' HAIR DRESSING
DR. KNIGHTS'
HAIR
DRESSING
A VEGETABLE PREPARATION
For beautifying and promoting the luxuriant growth of the hair.
It prevents the hair from falling off or turning gray.
It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.
Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.
It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.
☞ *BUY NO OTHER!*
Price 75 cents per Bottle.
Prepared by
DR. E. R. KNIGHTS, ... CHEMIST,

CHEROKEE PILLS,
Or Female Regulator.
Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness,* and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course through the veins, restoring the *Organs of Generation, removing Impotency and Sterility, restoring Debility, restoring Manhood, and full vigor,* thus proving a perfect "*Elixir of Life,*" removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

CHOLERA
DISARMED!!!
The Chief Causes of Pestilence Destroyed.
DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the Parent Disinfecting Company, Chemical Laboratory, Nos. 288, 290, and 292 Henry street, N. Y.—Office, 42 Cedar street.
The Company organized on a permanent basis, with Courteret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for hospitals, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public buildings, slaughter houses, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants, in the scientific meaning of the words They remove toxicous gases and neutralize chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—the only preparations in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office
DEPARTMENT OF HEALTH, Albany, March 20, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROESSEL & CO.
NEW-YORK, April 9, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is accompt disgustingness.

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all who want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, MAY 31, 1866.

IN THE U. S. SENATE, May 29, the petition of a citizen of Spain for relief from excessive importation dues charged in Baltimore was presented. The Chair decided that a petition of a foreigner could not be received in the Senate.

The reconstruction resolution was taken up.

The 3d section was stricken out by a unanimous vote.

Mr. Howard then offered several amendments, which were ordered to be printed.

The subject was then postponed until the 30th.

The joint resolution relative to inter-State communication was taken up.

An amendment was adopted, that this bill shall not authorize the construction of any new roads without the consent of the States.

The bill was then taken from the Committee of the Whole and reported to the Senate.

An amendment was then agreed to, that Congress have the power to alter or repeal the law at any time.

The bill was then passed—yeas 22, nays 19.

The Senate again delayed a vote on the Colorado bill, its friends resorting to that strategy in the hope of eventually passing it over the veto.

In the House, the bill to continue in force and amend the Freedmen's Bureau Bill, came up as the first business in order in the morning hour.

After debate and some amendment, it was passed, 96 to 32, exactly 3-4ths. It will no doubt pass the Senate. The Boston Herald's Washington correspondent says of it: "The Freedmen's Bureau Bill, which passed the House to-day, simply extends the operations of the Bureau, as it now is in force, for two years."

☞ The Santiago (Chili) correspondent of the London Times says that when the foreign diplomatic body called upon Nunez, to remonstrate with him against firing on Valparaiso, *they* used all manner of arguments, and even the last and most powerful one—they pointed at the guns of the Monadnock and Setlej. But Mendez Nunez told them his orders were such that if any resistance were made *he would sink the English and American fleets* in the bay.

[This naval battle, had it come off, might have caused war between Spain on one side, and England and America on the other.—Spain alone, would have soon gone under; but the French emperor, seeing the *two* great commercial nations thus engaged, would aid all manner of privateers to cut up the commerce of both, or more likely join Spain openly, and with his ships of war, sweep lawful commerce from the sea, and become himself the Big Power. But it did not happen:—and now, English and American merchants have a round claim on Spain, which may trouble the latter power.]

THE NORTH CAROLINA STATE CONVENTION.—A special despatch from Raleigh says a resolution to sell the right of the State in certain railroads to responsible parties, was referred. A resolution appointing a committee to wait on the President, with a view to early restoration, was made a special order. There are said to be 70 strong union men in the Convention, and only 29 of rebel proclivities.

THE LONDON MONEY PANIC.—The London correspondent of the New York Commercial, says that on the 16th inst., although the run on the banks had stopped, the pressure upon all financial and mercantile establishments was still tremendous. Messrs. Peto & Betts had received extraordinary offers of assistance from all their friends, but under existing circumstances they had resolved not to resume. Meanwhile, they were making every effort for the protection of their creditors and the due fulfillment of the various large works on which the ultimate value of the assets will depend.

CATTLE DISEASE IN CONNECTICUT.—A singular disease among cattle has made its appearance in Fairfield county, Conn. The animals sickened suddenly and died within thirty-six hours after they were attacked. Upon, opening it was found that the brains and shoulders of the cattle were mortified, emitting a stench almost unable to be borne. The disease is said to look much like the rinderpest.

TEA.—Dates from China, a little over two months old, say that the tea season was nearly over, and that the total exports for 1865-6 to American and Great Britain were about sixteen millions of pounds more than in 1864-5.

— Milton was asked: "How is it that in some countries a king is allowed to take his place on the throne at fourteen years of age, but may not marry until he is eighteen?" "Because," said the poet, "*it is easier to govern a kingdom than a woman.*"

☞ A Fortress Monroe dispatch of Monday says:

Messrs. O'Connor and Shea have been in consultation with Jeff. Davis most of the time yesterday and to-day. They found him in better health than they anticipated, and still in possession of his keenest faculties and alive to the importance of issues involved in his trial. They gave no information respecting his trial.

We think the stories about his failing health to be false: but it it should fail, what then? This world could do very well without him.

The following is given as Jeff. Davis' bill of fare for his Sunday meals; and it is further stated that his week-day living is full as ample and well selected. It does not look as though he was very badly treated. Those who remember Andersonville, Salisbury and Castle Thunder will think it much better than he deserves, and they will think right:

Breakfast—Veal cutlets, poached eggs (two), wheat and corn bread, butter, sugar, milk and coffee.

Dinner—Broiled chickens, stewed oysters, potatoes, onions, bread, butter, coffee, sugar and milk.

The Boston Herald pertinently says:

"Not one in ten of the honest workingmen of this country can afford such a bill of fare."

And we add, that *all* the workingmen of the country are taxed to-day, not only to pay for his sumptuous fare in prison, but to pay the cost of putting down that rebellion of which he was the head! And we are to be taxed still, to pay the army that we *must* maintain, to keep rebellion down.

☞ A great addition to the mineral resources of New Jersey has been made by the discovery of extensive beds of brown coal in the counties of Middlesex and Monmouth. This article of fuel is comparatively new in the United States, but it has been long known and used in many parts of Germany, where the beds vary from ten to fifty feet in thickness. The brown coal recently discovered in New Jersey compares very favorably with the best German coal of this description, although what has been tried thus far is only the out-cropping of the beds. It is understood that nothing less than a six-foot seam of the brown coal will pay for working, as it will have to be sold at a low price to compete with the coal in ordinary use.

☞ Commissioner Newton says that there will be a great market demand for live stock for some years, and that the great scarcity of all stock used and consumed in the South, especially mules and hogs, will guarantee profitable prices for a long time. No farmer can mistake his interests in giving increased attention to the raising of horses and cattle, especially cows. The practice of killing heifer calves should be abandoned—must be, if we expect to meet the demand which Great Britain and our home markets will always make for butter and cheese.

☞ A Raleigh (N. C.) paper reports that a large band of deserters, bushwhackers, robbers, and disreputable characters generally, have associated themselves into a regularly organized company, under the leadership of a notorious villain named Blalock, on John's river, in the western part of that State, with the avowed determination of resisting all authorities in the arrest or punishment of any of their number for their crimes and violation of the law.

☞ It is asserted on the authority of the Boston Journal, that John G. Whittier declines to be considered as a candidate for Congress from the 5th District.

It is quite certain that when John G. Whittier shall give consent to have his name used as the successor of Mr. Alley, he will best act in accordance with the wishes of a large majority of the republican voters of this district, and our hope is that the District may be honored by his acceptance of the position.—*Amesbury Villager.*

NEW ORLEANS ITEMS, May 29. In the Supreme Court, Messrs. Durant and Hunt, always Union men, argued in favor of the validity of Confederate notes as issued by a belligerent power, and Judge Campbell, late Assistant Confederate Secretary of War, and Mr. Morse, late Confederate Judge, argued against them.

Another crevasse, one hundred feet wide, has broken through below the city, on the right bank, and threatens the Opelousas Railroad. The negroes would not work yesterday. Red river country, the Ouachita and Atchafalaya rivers are one vast ocean.

Louisiana country papers give a sad account of the floods and distress in consequence. The corn, cane and cotton of twelve parishes are devastated. Provisions are being forwarded to the sufferers.

Gen. Baird has succeeded Gen. Canby. Arrived, steamer St. Louis, from Boston.

GEN. SCOTT is to be buried at West Point on Friday, with proper ceremonies. His memory should be held in grateful remembrance on many accounts, especially on account of his great service in keeping the garrison at Fortress Monroe, when Floyed offered to send the men away; and in having soldiers at Washington when Breckinridge the traitor was constrained to pronounce Lincoln & Hamlin elected.

THE CONCORD RAILROAD Corporation held its annual meeting in Concord May 29. The meeting was largely attended, and there was a spirited debate between Col. George, counsel for the corporation, and Col. Tappan, counsel for the late conductors. Gov. Gilmore also took part.

Hon. Edmund Burke introduced resolutions instructing the directors who may be chosen to prosecute the late conductors, against whom legal proceedings have been or may be commenced, &c. The resolutions were laid on the table while the balloting progressed.

For Directors, the vote was as follows:

Whole number,	15,376
Necessary for choice,	7,689

Josiah Stickney,	14,575	Josiah Stickney	—
Francis M. Weld,	10,653	Nath'l G Upham	5,598
Thomas Chase,	8,533	Isaac Spaulding,	5,903
Nathan Parker,	10,655	Chas H Peaslee,	5,507
Phineas Adams,	9,583	Uriel Crocker,	5,613
J Stephens Abbott,	3,886	F C Manning,	5,153
Rich'd H Messer	10,304	John S Eddy,	4,814

The column headed by Mr. Stickney is the "Reform Ticket," and is a new board, with one exception. The right hand column was the old board.

Mr. Burke moved to take up the resolutions. The President declared the motion rejected, without taking a division, although it was disputed, and the meeting adourned, leaving the Report and Mr. Burke's resolutions lying on the table.

WASHINGTON ITEMS, May 30. Special despatches say Mrs. Davis has been called to Fortress Monroe by a letter from Dr. Cooper, stating that her husband was ill.

The Postmaster General will soon send in a reply to the Senate stating that it is impracticable to connect the telegraph with the postal system.

It seems to be generally conceded that the Constitutional amendment as agreed on by the Senatorial caucus will pass the Senate by nearly an unanimous vote.

The President put the guillotine into extensive operation Tuesday and made a large number of removals in the Western States. Most of the appointees are men who have been in the army. But several nominations were rejected by the Senate by the strong vote of three fourths. Among them that of Wade Hampton, postmaster at Pittsburg, Pa.

A dispatch denies on the best authority the reports that the proceeds of the late sales of gold by the Secretary of the Treasury have been applied to purchase Government bonds.

The President has approved the bill authorizing the Secretary of the Treasury to make and carry into effect orders and regulations of quarantine to guard against introduction of cholera.

—— In the Police Court of Concord Monday, Gilman Danforth and Philip Welcome plead guilty of selling liquor, and were fined $50 each, and costs. Mary Bresnehan, for the same offence, plead not guilty, but was bound over to appear at the higher court.

GOLD, Wednesday, 138 1-4. Sent to Europe $3,300,000.

— The Salisbury Mills paid in April an internal revenue tax of $28,259.98 on sales of manufactured woolen goods.

— The new five cent piece is to be of the same size as the three-dollar gold coin. 50 pieces laid in a straight line will make the "metre" or unit of French measure. It will also be so near eight-tenths of an inch that no ordinary measurement will detect the difference. Three of these coins will weigh a half ounce, and be convenient for a postage weight. Specimens have been received at the Treasury Department.

— We are glad to see a disposition on the part of the manufacturers in this country to excel in quality, and of consumers to purchase the best in the market, especially in the articles which enter into the food of man.—We are led to the above remarks since having the pleasure of eating some very nice light biscuit, made from Herrick Allen's Gold Medal Saleratus. Our better half pronounces it the best she ever saw. Try it. Most all the grocers and many druggists sell it. 93

HOW FRAGRANT the air is with the perfumes from a thousand exotic plants, and all nature seems clad in her holiday attire. Yet misery is still in our midst. The roses may bloom, and nature put on her garlands of leaf and bud and flower But man will nevertheless suffer—Dyspepsia, the sure forerunner of death, and the companion of a miserable life, claims him as a subject. Do not wait then, dear reader, till its ravages lay you low in death, for nature has likewise found an antidote—compounded of her roots and barks—and prepared Coe's Dyspepsia Cure. It will immediately cure the worst cases of Dyspepsia in existence. The proprietors warrant it in every case. my28—1w

Citizens' Meeting.

Celebration of the Fourth of July.

A meeting of the citizens will be held at the **City Rooms**, THIS (THURSDAY) EVENING at 7½ o'clock, to take into consideration the subject of celebrating the coming Fourth, to choose a Committee to act in concert with the City Committee, to elect a Committee to solicit subscriptions from the citizens, and to transact any business which may come before the meeting.

For order.

P. S.—It is hoped that the meeting will be fully attended. There is but little time to accomplish the work, and a prompt and decisive action is needed. The City Authorities have appropriated $800 to the cause, providing the citizens will raise $600. Will the public spirited citizens answer the above call, and see that the coming Fourth is celebrated in an appropriate manner.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co, of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.
Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. Local.

☞ The Fourth of July is to be observed here, with appropriate ceremonies. Hon. J. W. Patterson, "New Hampshire's favorite orator," has been invited to deliver the oration; Timothy G. Senter, Esq., of Lynn, a son of Portsmouth, to read the Declaration of Independence, and Edward P. Nowell, Esq., to read a poem on the occasion. It is also reported that arrangements are to be made for an excellent display of fireworks in the evening.

IN BOARD OF ALDERMEN, Tuesday evening, the vote non concurring with the Common Council in the passage of the Appropriation Bill, was reconsidered, and the bill (amounting to $134,038 92) was passed.

A committee of three (Ald. Wilson, Martin and Ayers) with the Mayor, were appointed to "carry out the appropriation for building Ward Room in Ward 3, and for repairing school houses."

A joint resolution transferring $800 for the Celebration of Independence was passed. Ayes—Ald. Hodgdon, Foster, Henderson, Martin and Ham, 5; Nays—Davis, Wilson and Ayers, 3.

Aldermen Henderson, Ham and Martin were appointed as committee on celebration. Said committee were also authorized to furnish a stand for Band for out-door Concerts.

IN COMMON COUNCIL, the joint resolution authorizing expenditure of $800 for celebration of Fourth of July, was passed in concurrence, and Messrs. Stevens, Vaughan and Pender, appointed on the Committee.

Joint Resolution authorizing the Expenditure of money:

Resolved, that the sum of eight hundred dollars be appropriated for the celebration of the Fourth of July next, to be expended under the direction of a Joint Committee of both boards of the City Council, provided that the sum of five hundred dollars in addition be raised by the citizens, and that four hundred dollars of said sum be transferred from the appropriation for Ward Room and School House in Ward 3, and four hundred dollars from the appropriation for purchase and alteration of Academy.

Communication.

Messrs Editors—A meeting of the citizens is to be held at the City Rooms this, (Thursday) evening, May 31st, to take active measures in regard to celebrating the coming Independence Day. The City Authorities have shown their interest in the undertaking, by liberally appropriating eight hundred dollars towards defraying the expenses of the celebration, provided the citizens will subscribe five hundred dollars more. With such a sum of money to work on, a first class celebration can be projected and carried out, which we shall not be ashamed of. What we want, is dozens of energetic citizens, young and old, of both sexes, who will come forward and give the ball a start; once in motion, it will roll on from its own momentum. Four years since five hundred dollars were raised by subscription for a celebration on the Fourth, and there is no doubt that amount can be raised now. We hope that the meeting will be well attended, and a celebration started which will do credit to our city and add new laurels to those acquired in former years, by an appropriate and patriotic observance of the natal day of our country's Independence. H.

POLICE COURT, May 30th.—Judge Bufford presiding. Ellen O'Donnell having disturbed the public and domestic tranquility in a house on Bow street, was fined $1, and costs $3.86.

Oliver Dennett was sent thirty days to the House of Correction, and ordered to pay costs of court $3.86 for being drunk in his own house.

Thomas Morris and Daniel Laughlin, two marines, were fined $6.86 each, for being found drunk in Fleet street, by Officers Sides and Burns. Laughlin protested that he had not touched a drop of ardent spirits for five years. Ale and beer not included in his catalogue of ardent spirits. These two were sent to the Farm. The court then adjourned for lack of business.

LOST AND FOUND.—Last Saturday night two girls, respectively named "Hattie" Carter and Sarah Hutchinson, *alias* Gordon, escaped from the House of Correction, to which they had been sent for the period of four months, for night walking. Information was furnished the police on Sunday morning, and they were arrested in Newburyport on Tuesday night. They were tracked through the fields and woods and by roads to East Kingston, thence to Newton and Newburyport.

☞ Rev. Ivory F. Waterhouse, who has for the past five years been the pastor of the Independent Christian Society of this city, has severed his connection with that society, and last Sabbath preached his farewell discourse. His departure from our midst is greatly regretted by his many friends both in and out of the Society, and Portsmouth parts with an eloquent preacher and an excellent citizen.

☞ The Poll Tax last year in Portsmouth was $4.94; and this years is $4.92.

PETTY THEFT.—While the train was waiting at the E. R. R. station, Tuesday, at 10 o'clock, some miserable sneak abstracted from one of the cars a nice cane and a pair of gold-bowed spectacles, belonging to a gentleman enroute to Portland.

P. S. The cane and spectacles have been recovered.

☞ John Devine, a soldier who had been in the Mexican war, had his right leg amputated above the knee, May 30th, by Doctors Folsom, Laighton, Smart, Coleman, Pearson Weed, and Brown, after being confined to his house nearly two months, from a disease of this leg. Wine jellies and other delicacies would be gratefully received by him at 41 South street, as he is poor.

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that I may convince themselves that the statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her, or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person the eased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864	$2,089,072
" " " 1865	3,029,087
Ratio of expenses to premiums rec'd in '64	12.96
" " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	161.85

The inevitable conclusion from these official acts, is that the
MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that *it cannot be done*. Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from STUBBORN complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—3mMTuso

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the probability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN ADDITIONAL CLAIMS, TWO of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

DR. J. TELLER continues to be constantly and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Skin Bones Ulcerations, Pimples, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicine, and have been used in more than 20,000 cases annually, with immense Success.

YOUNG MEN.—

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married State, should lose no time consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and manhood. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody, with Illustrations and Engravings. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—Sent free for 25 cts. in stamps (to meet expense), by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hospitals, Lectures on how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which he makes a specialty.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and for other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent to any part of the world. All cases warranted. No charge for advice.

N. B.—To students or boys employed. Notice this, address all letters to

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments, all kinds of manures (*immensely* increasing the value of the latter), and wherever noxious and offensive gases exist. These agents are deodorizers of the putrid, antiseptics, and disinfectants in the scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their place *healthful air*; they are DESTROYERS, and not *merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and sanitary men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Office of the Company.

CHOLERA AND GERMAN EMIGRANTS.—The London Times, in the course of an editorial on the cholera, makes the following remarks, which are not without interest here, as we have to receive for good the same class of German emigrants whose transient stay on English soil is so objectionable.

"These unfortunate emigrants are collected, shipped, transhipped, and dispatched, all by contract—that is, on the very terms of cheapness most surely conducive to filth, misery and disease. They are brought across from the Continent to Hull, and conveyed from Hull to Liverpool for carriage to America, simply because, upon the whole, that is the cheapest way of getting them from Germany to New York. The contractor saves so much a head, and we get the cholera. That is the bargain, and we humbly think we have a right to object to it. We suggest that this route should be closed for a season. If a German must leave his country—and God knows he may well be excused for running away from it—let him make his voyage once for all from his own coasts."

— The latest style of bonnet has turned up at Richmond, Ind. It is described as "consisting of two straws tied together with a blue ribbon on the top of the head, and red tassels suspended at each of the ends of the straw. Price $19."

— Since 1862 the boot manufacturing business of Chicago has increased from one small establishment to fifteen, which turn out nine hundred cases per week, consuming three hundred dozen sides of upper leather, sixteen hundred sides of sole leather, and fifty dozen calf skins. About twelve hundred hands are engaged in the business.

— Crude petroleum is being extensively used in Western New York for the destruction of insects on trees. It was found that the acids of refined petroleum were injurious to the trees themselves, but the crude is said to be harmless and has the desired effect in permanently destroying the vermin. Better, however, be cautious in the use of this article.

— Damascus is the oldest city in the world; Tyre and Sidon have crumbled on the shore; Baalbec is a ruin; Palmyra lies buried in the sands of the desert; Ninevah and Babylon have disappeared from the shores of the Tigris and Euphrates. Damascus remains what it was before the days of Abraham.

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

Morning Chronicle

Portsmouth N. H.

FRIDAY, JUNE 1, 1866.

IN THE U. S. SENATE, May 30, the Freedmen's Bureau bill from the House was referred to the Committee on Military Affairs.

The reconstruction resolutions were then taken up.

The question was upon Mr. Howard's amendment, that all persons born in the United States, and subject to the jurisdiction thereof, are citizens of the United States and the State wherein they reside.

Mr. Doolittle moved to except Indians not taxed.

After considerable debate, Mr. Doolittle's amendment was rejected—10 against 30.

Certain verbal amendments to the second section as proposed by Mr. Howard were concurred in.

The substitute for the 3d section was considered.

Mr. Hendricks moved to insert the words "during the term of his office" before the words "have engaged." Rejected, 8 against 34.

Mr. Johnson moved to strike out the words, "or as a member of any State Legislature, or as an Executive or Judicial officer of any State." Rejected—10 against 32.

Mr. Johnson moved to strike out the words "having previously taken," and insert the words "at any time within ten years preceding the 1st of January, 1861, had taken." Rejected—10 against 32.

Mr. Saulsbury moved to insert after the words "each House," in the last line, the words, "the President may, by the exercise of the pardoning power." Rejected—10 to 32.

[The reader will perceive that the motions to amend the proposed amendments were offered by the Democrats, but the caucus discipline displayed itself, and in every vote there were 32 or 33 votes cast solidly together. Had the vote been taken, these 33 would have voted for the proposed amendment, and so would Senators Brown and Yates had they been present. The Democrats and their allies could not have mustered over 14 or perhaps 15 votes. Senator Lane of Kansas said, in the debate, that according to his information the States of Virginia, Arkansas, Tennessee and Louisiana would vote for the proposed Amendment.]

The House resumed the consideration of the bill to provide for restoring the States lately in insurrection to their full political rights.

Mr. Broomall spoke in favor of the report of the Reconstruction Committee, when the subject was postponed until Monday.

The House considered the bill from the Military Committee to reduce and establish the pay of officers and regulate the pay of soldiers of the army of the United States.

Mr. Blaine, from the Select Committee, reported a bill to reimburse States, which furnished troops to the Union army, for advances made and expenses incurred in raising the same.

On his motion it was recommitted, with leave to report next session.

[This action was taken after full conference with the leading friends of the measure, in order to prevent any collision between its supporters and the advocates of the bill equalizing the bounties of soldiers. Mr. Thaddeus Stevens, Mr. Bingham of Ohio, and many other leading Union members urged Mr. Blaine to adopt this course.]

WASHINGTON ITEMS.—The State Department learns that no Austrian troops have been sent to Mexico, and it does not expect that any will be sent.

Generals Steadman and Fullerton, who have been investigating the management of the Freedmen's Bureau in Georgia, will report favorably on Gen. Tillson's administration of affairs.

An investigation is being made into the antecedents of the witnesses at the conspiracy trial, and it will be shown that nearly all of them were scoundrels of the most abandoned character, who crowned their careers of villany by entering the detective service. The result of this investigation will be the more important as the testimony of some of these witnesses is relied on to show that Jeff. Davis was an accomplice in the assassination of Lincoln. So says Perley.

A general court-martial is ordered for the trial of the Freedmen's Bureau officers against whom charges have been preferred.

☞ A special Washington dispatch of May 30 to the Boston Transcript says:

"It was decided in the Republican caucus that immediately after the passage of the Constitutional amendment a resolution sould be offered to the effect that Tennessee having complied with all the provisions of said amendment, her Senators and Representatives should be admitted to their seats in Congress.

Arkansas will also be included.

It was also decided to admit Colorado over the President's veto.

The President's friends announced to day that he accepts the proposition reported from the Senate."

☞ At Toronto, C. W., May 30, news was received from Buffalo of the Fenian movements in progress. The military are on the alert, and every precaution has been made for the emergency.

A later dispatch, May 31, says the Mayor of Buffalo telegraphed the Mayor of Hamilton that six hundred Fenians had left Cleveland for that city. The Great Western Railroad managers have sent all their rolling stock into the interior.

U. S. PUBLIC DEBT.—It appears that the amount of public debt redeemable May 1, 1867, is $787,041,420; May 1, 1868, $407,415,250; May 1, 1869, $126,024,500;

The amount of paper circulation on May 1, 1866, was $830,808,471, including the national currency, $269,408,095; State circulation, $45,000,000; United States notes, 415,165,318; fractional currency, $28,192,017; compound notes, $167,012,141; one and two years' five per cent. notes, $6,030,900. It is estimated that ten millions per year will be necessary for the payment of the guarantied bonds of the Pacific Railroad, the total estimate being $73,280,000. The balance of unpaid claims of the States under the act of July 27, 1861, to indemnify them for war expenses incurred amounts to $12,298,287. The estimate for unadjusted claims of individuals on the file in the Third Auditor's office is $2,051,058. In the Third Auditor's office claims in pay and bounty estimates $18,000,000; on account of recruiting service, $12,998; for moneys deposited by recruits $24,944; in ordnance, miscellaneous and medical branch $117,527. All claims in the Second Auditor's office $18,155,469.

TREASURY DEPARTMENT EMPLOYES.—A statement of the present clerical force in the Treasury Department shows that there are employed there 80 men from Maine (32 of whom have been in the army) and 11 females; from New Hampshire, 56 men (18 soldiers) and 10 females; Vermont, 32 men (9 soldiers) and 9 females; Massachusetts, 99 men (42 soldiers) and 26 females; Rhode Island, 11 men (5 soldiers) and 4 females; Connecticut, 47 men (22 soldiers) and 8 females.

Of the female force employed, at least three-fourths have been bereaved by the loss of near relatives serving during the war in the United States army. Out of 106 watchmen, messengers and laborers in the employ of the department, 83 were partially disabled while fighting to suppress rebellion, and appointments are only made in exception to this rule when the peculiar qualifications of the applicant render his services indispensable to the department.

☞ The Boston Herald's Washington correspondent, who seems to know all about Mrs. Davis' movements and interests, says, under date of May 30:

Mrs. Jeff. Davis has left town to join her husband at Fortress Monroe. Her visit to Washington was simply for the transaction of private business, and had no political significance whatever.

Her departure was hastened by a letter received from her husband's medical adviser, Dr. Cooper, who stated that Mr. Davis had been reduced to such a state of physical prostration that he is unable to walk across the plat of the Fortress without lying down to rest several times.

Mrs. Davis, while very naturally feeling apprehensive as to the result of her husband's trial, is still hopeful and believes that through the magnanimity of the government he will escape the legitimate penalty due the greatest of national crimes.

She will remain with him until the result of the approaching trial is announced.

GOLD WATCHES.—A few days ago a New York paper asserted that only 6500 gold watches had been reported to the Assessors of Internal Revenue Tax throughout the country, while but 1200 of these were valued for assessment at over $100. It now appears, from unquestionable data, that there were 341,464 watches reported, upon which a tax of $385,363 72 was assessed and paid. The following are the proportions of this tax in the New England States:

	Value under $100. Am't collected.	Value over $100 Am't collected.
Maine	$5 591 25	$757 50
New Hampshire	4,789 50	522 00
Vermont	3,145 00	324 00
Massachusetts	40,844 00	9,242 00
Rhode Island	5,939 00	1,001 00
Connecticut	10,183 00	2,569 00

Total am't collected $88,711 25.

Massachusetts returns more gold watches in proportion to her population than any State in the Union. In respects to pianos and other parlor instruments, she ranks also the first in proportion to her population, New York second, and New Jersey third.

☞ Gen. Townsend, by command of Gen. Grant, has issued a general order announcing the death of Gen. Scott, concluded as follows: "As a testimony of respect, the officers of the army will wear the usual badge of mourning for six months, on the left arm and the hilt of the sword. Guns will be fired at each military post at intervals of 30 minutes, from sunrise to 1 o'clock P. M., the day succeeding receipt of this order. The troops will be paraded at 10 A. M., and this order read to them, after which all labor for the day will cease, and the flag be kept at half-mast during the day.'

GOV. FENTON of New York, on his arrival at Jamestown, his home, was serenaded by his fellow-citizens, and made a short speech on National politics. He was conciliatory in tone, and spoke strongly in favor of securing equal rights to all men before the law, of exacting security for the Nation's future by such means as were essential, and believed that all would yet unite upon a safe and satisfactory plan of reconstruction.

BUTTER.—The St. Albans Daily Messenger, May 29, says that butter was sold in that town for 35 cents, but 36 to 38 was the ruling price during the day.

☞ Mr. F. O. J. Smith, owner of the Portland Advertiser, announces Mr. Thomas W. Newman as printer and editor. Mr. S. says the paper "will not depart from the general line of support which it has hitherto given to the restoration policy of President Johnson." And the new editor says:

Bred and nurtured in the democratic school of Andrew Jackson—opposing, yet respecting, the old patriotic party of Henry Clay and Daniel Webster—we are consequently, to-day, the inveterate and stubborn opposer of radicalism in all its forms. * * * We are an advocate of those democratic principles under which the country for years advanced to greatness and glory from the day of the victory of Thomas Jefferson over federalism, and now have more faith in the Democratic party in reverses than ever before.

The new editor has a smart article complaining bitterly of the hardships suffered by "this unfortunate man Jefferson Davis," in which he says:

There is much of humiliation to the real friends of the government in the indulgence of so much uncertainty, and whiffling, and fear of this beaten, punished, *oppressed*, solitary man.

No one can doubt the new editor's politics now. If this dreadful wail is truly Johnsonian,—how does it happen that the President holds Jeff. as a State prisoner? Congress don't hold him.

But let us see, what was there in common among Jackson, Jefferson, Clay and Webster? Not much. And how much does Johnson resemble any of them? Very little. But if we are to have a galaxy of Democratic party stars, why not put in Calhoun and Floyd and Bully Brooks, as well as that unfortunate man Jeff. Davis! How highly honored Webster and Clay would be, to find themselves in such honorable company.

PORTLAND THIRD PARISH.—The Portland Advertiser of Tuesday stated that "a meeting on Monday evening voted, 24 to 13, not to concur in accepting the proposition of Mr. Walton, to preach one sermon a day, &c." But the Advertiser of Thursday says:

Since then we learn that the matter was settled by a parish meeting, and the salary is fixed; and further, that the *parish*, and not the church, have the authority, right or duty, of choosing a minister. Those who voted on Monday evening *against* Mr. Walton were persons who have *not* been attendants at the church for a number of months, and in no sense can have any voice in the premises, having sold their pews. It is feared by many that Mr. Walton will refuse longer to remain under existing circumstances. This, we hope, is unfounded, and that the parish will still cling to their beloved pastor, and be to them, with that same independence he has at all times manifested while maintaining his principles independent of church despotism.

The first mentioned meeting was doubtless a *Church* meeting. The 3d *Parish* is the body that pays the Minister; and if that body chooses him, and he chooses to to stay, he will be sure of his hearers and his salary.

In the regular, peaceful current of affairs, a Congregational Church calls a pastor, and and the Parish concurs. These things had already taken place in regard to Mr. Walton. He accepted, with a *proviso* of one sermon a day, which the Parish *accepted*, but now it seems the *Church negatived*, as above. But if the opposition in the latter body be, as the Advertiser suggests, a company of "comeouters," the parish will not be much disturbed by their action, though the minister may be, if he is very sensitive. But one who has passed through so many ordeals as Mr. W. has, need not care much about a fire so weak as this is.

☞ The Manchester Union of Monday devoted two columns to Hon. J. W. Patterson, in an attempt to refute the position which he took in his recent speech in regard to the Southern States being in a state of suspended animation, &c. The summing up of it all is that a State can commit no crime, that the attempt on the part of eleven States to destroy the National government was an innocent diversion for which they are not to be punished, and which there is no power in the government to punish. Therefore the representatives from these States have as much right in Congress as the representatives from New Hampshire or Massachusetts. On the same principle members of a joint firm might conspire to rob their partners, and no power should punish them. We don't believe the national government was so organized that it must still and have its throat cut by its own subjects, or that having beaten off its assailants' hand are to have a second opportunity for assault without let or hindrance. Security for the future the nation must have, and the people will be satisfied with nothing short of it. The States Right theories of the South exploded with the rebellion.—*Monitor.*

☞ A great sale of California wool, in New York city, Wednesday, was fairly attended by dealers. The best quality bought fair prices, but poor descriptions sold low. The sale was satisfactory, and all offered was sold. Prices ranged from 7 1-2 to 35c cash.

— The greatest dirt-extractor on this continent, in our humble judgment, is the J. Monroe Taylor Gold Medal Soap. It leaves everything it comes in contact with in so nice a state, besides it goes so much further than any other soap, and removes the dirt so much quicker, that it is justly called by many who have used it, the King of Soaps; we have never heard a dissenting voice on that subject where it has been tried. All grocers sell it. 24

☞ At New York, Thursday, U. S. Marshal Murray seized on the steamer General Sedgwick, from Galveston, 8000 rounds of ammunition and 50 revolvers, consigned to the Adjutant General of the Fenian Brotherhood. From the correspondence, which fell into the U. S. Marshal's hands, it appears the property was stolen from one of the Federal camps in Texas.

— On Wednesday night, in New York city, a meeting of the shipwrights resolved to adhere to the original purpose in the strike,—i. o., not only eight hours a day, but several items about apprentices, &c.

— In a recent public speech, the Canadian Minister of Finance stated that he was in favor of making that province a cheap country to live in, and in Montreal a reduction of the customs tarriff is a mooted question.

— On the average every morning, 75,893 children—38,109 boys and 37,784 girls—go to school in Philadelphia. What an interesting procession these wonlnmake if placedie line!

— The rebel General J. B. Hood is at the head of the stock company now forming in New Orleans, with a capital of $250,000, for the purpose of draining and sweeping the streets by machinery.

— In a programme of ovations to be delivered for prizes in New York State, "the Steamship of Moses" was announced instead of "the Statesmanship of Moses"—some what of a difference.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS never uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, mediocrly considered, is a speciality at this office.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign watch, which can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of responsible dealers. All persons selling counterfeits will be prosecuted.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know ought of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, and can not, be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of GEO. L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.
Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. CITIZENS' MEETING.—The meeting of the citizens to take into consideration the matter of celebrating the Fourth of July, was held at the City Rooms, on Thursday evening, at the appointed time. A large and enthusiastic company were in attendance, fully showing that the people are interested and are determined to have a good celebration. The meeting was called to order by Jas. H. Head, Esq., and Charles A. Shannon was elected Chairman, and Charles L. Tidd Secretary. The following gentlemen were elected as a Committee of Arrangements to confer with the City Committee: Edward P. Nowell, James H. Head, Wm. H. Sise, Alfred Stavers, Charles H. Hayes, and Joseph P. Morse. And the following gentlemen were elected as a committee to solicit subscriptions from the citizens: Wm. W. Palfrey, Wm. W. Cotton, E. A. Tilton, Albert Fernald, Chas. W. Carter, Thos. S. Nowell. The meeting adjourned to Friday evening, June 8, at the City Rooms, at 7 1-2 o'clock.

☞ We regret to learn that Mr. Edwin H. Leslie, of this city, while in the act of raising a heavy piece of timber at the Dry Dock, at the Navy Yard, on Saturday last, slipped and fell, the end of the plank striking him in the head, and badly crushing one of his hands. We learn that he is in a fair way of recovery. Will probably not be able to resume his labors for some weeks.

Communication.

Mr. Editor:—I want to say a word or two to the ladies of Portsmouth in regard to a proper celebration of the "Glorious Fourth,"—so near at hand, and our men moving so slowly in the direction of a public demonstration.

Now there are spirited girls enough among our fair sisters to form a company of cavalry which would be perfectly irresistible. No feature of any procession we can possibly get up, would be so charming as a grand cavalcade of ladies and their pas, brothers, or——cavaliers. And even though there should be no other "sign of life" in our streets, they can thus make a display, the beauty of which would create more enthusiasm "in the hearts of our [young] countrymen," and more surely arouse the "Spirit of '76," than all other devices combined.

This thing can be done, ladies, if you will *stir[r]up* the idea and *spur* up your husbands, cousins, or —— somebody else. Don't let any mountain of difficulty, or *difficulty* of *mounting* stop you a *bit*, but take the *reins* into your own *handsome* gauntlets and *drive* the matter through.

Horseback riding has become quite fashionable. Every pleasant day, one meets perhaps a dozen of the fairest daughters of Portsmouth cantering away through the country roads, with the most bewitching air of graceful ease—often in amusing contrast with their awkward escorts.

Some one may say, where will horses enough for a cavalcade be obtained? Now, for a ride in procession through the city streets, almost any good carriage horse would do. There are certainly fifty tolerable saddle horses in the city, private and "to let." Any kind of a horse that will move, will do for the gentlemen on this occasion. MARTINGALE.

Communication.

DONT WATER THE STREETS.—At the present time of danger of epidemic disease, and when measures of general hygiene were were never more important, it is the duty of those interested in the public health to urge a sanitary reform in regard to sprinkling the streets. Accumulated dirt should be removed when necessary, but no watering should be permitted in hot weather. The organic matter in the streets even in the hottest of weather is but little detriment to health until water is added, then decomposition takes place, filling the surrounding atmosphere with deleterious gases, which helps very much to produce cholera or any other poisonous diseases. PHYSICIAN.

ANOTHER HORSE THIEF CAUGHT.—On the night of the 23d of this month, a horse, wagon, harness and buffalo skin were stolen from Joseph and Gordon Bean, in Candia. E. A. J. Sawyer, Deputy Sheriff at Deerfield, took the matter in charge, and started in pursuit. He found the wagon in Ossipee, the buffalo in Wakefield, the horse in Conway, and the thief in Sweden, Me. He is a boy named James Edwin Brown, of Northwood, aged 15 years. He was lodged in our jail yesterday (Friday) by the officer. He is old in crime, having committed several thefts before. He escaped from Mr. Sawyer, at Bow Bond, Strafford, and got into the woods, but was recaptured.

NO MEETING.—The City Council, having held two meetings this week, did not meet last evening. They assemble for business again next Thursday night.

ANOTHER RUNAWAY CAUGHT.—Anne Robinson, a *femme du pave*, who escaped from the House of Correction last week, was captured on Thursday by Officer Johnson, in Newburyport, and returned to the House.

MUCH IMPROVED.—Myrtle street from Woodbury street to the Creek road has been put in thorough order and widened. Supt. Philbrick is entitled to the thanks of those who ride for pleasure, for thus improving the road leading by his mansion.

☞ On Thursday, as a "gondola," *alias* lighter, was coming up river towed by a boat, the gondola suddenly swamped and Mr. Henry Tighe, who was steering, was drawn into the vortex,—but being a good swimmer he kept above water, and was rescued by the boat.

This is one of the secession gems which the Union daily studs its columns with. Here is a parody: "Every man of sense knows that it was impossible for Benedict Arnold to love Americans, and knows that no man ever committed treason under a deeper sense of duty, and knows that he was conscious of no crime." A man who could assent to the latter would be considered a fit candidate for a lunatic asylum; and a man who deliberately inculcates the former, isn't a whit saner.—*Monitor.*

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!
From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they pled the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that the statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.
MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you could not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.
Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

Desirable Residence at the West End,
AT AUCTION.
Will be sold at Auction,
on the premises,
On SATURDAY, June 9, at 12 o'clk noon.
The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, in a thorough manner, by the day, of the best material; contains 10 well-arranged Rooms and 12 Closets. In the yard is a small STABLE. Are sold only because the owner having removed to another house, has no further use for them.
The premises are situated in an excellent neighborhood, where the houses are owned by the occupants;—while far enough from Islington street to be free from dust, a good view of that street is had from the house.
Adjoining is a LOT OF LAND, fronting 89½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?
The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the
MUTUAL BENEFIT
LIFE INSURANCE COMPANY,
to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864	$2,089,072
" " " 1865	3,029,087
Ratio of expenses to premiums rec'd in '64	12.96
" " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	151.85

The inevitable conclusion from these official sets, is that the
MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.
Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.
Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.
QUERY. Will some one inform the public of the mysterious process by which a Company, with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members? Insure them at *less cost?* How is it done? Where does the money come from?
Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.
Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ADDISON STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience on an unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged at a very moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a 3c stamp.
"Highly Important to Females"
FEMALE PILL, A SPECIAL CURE.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has not had greater success in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to board in Boston, or be under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
In all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street. Persons who desire the service of an experienced physician and surgeon should give him a call.
F. S.—Dr. Dow improves and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DRUPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He guarantees, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and suppressions of all kinds, also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 32 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use.
Office arranged with separate apartments, so that affects no one but the Doctor himself.
Address Dr. Briscoe, at No. 32 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.
Patients furnished with rooms and board if desired, and secrecy observed in every case.
Office hours from 9 A. M. to 2 P. M.
Boston, July 18, 1865. TTh8ly
DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 32 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
F. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Ayer's Sarsaparilla
Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How compounding this compound will do it has been proven by experiment on many of the worst cases to be found in the following prevailing complaints—
Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Erysipelas, Salt Rheum or Salt Rheum, Scald Head, Ring Worm, &c.
Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.
Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.
Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.
AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Liver Complaint, Rheumatism, Heartburn arising from Disorded Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.
Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—3mMTuwo

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries; also, Reissues, Extensions, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into a question of validity of inventions, or into the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by sending One Dollar. Assignments recorded at Washington.
The agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that more of the MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber, for twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary Drawings may be sent to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of getting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been issued. I now regard the fact as much unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was reversed in his favor, by the Commissioner of Patents.

NEW HAMPSHIRE ITEMS.

—— The whole sum paid by the various towns of New Hampshire under the head of "war expenditures" will not vary much from $6,250,000, or an average expense of $241 per man for bounty, and $3.23 per man for recruiting expenses.

—— Mr. Amasa Graves, an aged and highly respected citizen of Keene, was instantly killed Monday afternoon, by getting caught in the machinery of a saw-mill, where he had gone to procure a basket of sawdust.

—— The Laconia Democrat chronicles the death of Simon Sanky, "an American citizen of African descent," whose age is supposed to have been 107 years. He died at the county farm, where he had resided about eighteen years, in the enjoyment of good health until near the time of his death.

— A very patient New Yorker has been counting the different styles of hats that appear on Broadway, and reports the number of varieties at 175.

☞ The Boston Post says:
"We were told before the war that there were but few churches at the South."

Who told this? and when and where was it told? We have *never seen* such a statement, and will be much obliged to the Post, or any other paper, to give us a quotation of it, with proper credit, if such a thing can be found. The Census of 1850, the Reports of Presbyterian, Baptist, Methodist, and Episcopal Churches, and the Anti-Slavery publications, all show the contrary. Who could have been so stupidly ignorant as to fly in the face of all these?
U. T.

— Mrs. Mary English, the oldest inhabitant of Lawrence, Mass., died at the residence of her son, on the 16th inst., at the advanced age of 104 years, having been born in Dublin, Ireland, in the year 1762.

— Advices from Havana state that certificates of freedom had been granted to emancipadoes lately by planters on condition of their contracting for a number of years at nominal wages. A great many had accepted the conditions.

Ayer's Sarsaparilla
Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an efficient antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—
Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt-Rheum, Scald Head, Ring Worm, &c
Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.
Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.
Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.
AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.
Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—2mM1tuw

AGENTS WANTED
—FOR OUR—
Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages.
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself strictly to *official* data derived from the reports of Northern and Southern Generals, the report of the Committee on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

SATURDAY, JUNE 2, 1866.

THE U. S. SENATE, Thursday May 31, devoted several hours to the Constitutional Amendment, and finally passed the third section as amended by Republican Caucus by a vote of 32 over 16; Doolittle and Cowan only voting against the section on the Republican side.

Only two amendments were put forward, and they came from Senator Doolittle. The first was to insert the word "voluntarily" so as to provide that none of the class excluded by that provision from the elective franchise, save those who entered into the rebellion voluntarily, could be deprived of voting. Again Mr. Doolittle moved to amend, by adding the words "excepting those who have duly received pardon and amnesty under the constitution and laws," which was disagreed to by a vote of 32 to 10. The debate was almost wholly confined to the opponents of the measure.

The House resumed the consideration of the bill to promote the construction of a railroad from Pittsburg to Cleveland.

The bill was passed, 77 to 41.

The bill authorizing the appointment of examiners of a site for a fresh water basin for iron clads was considered. The resolution was passed. It provides for examination of sites near Portland, Me.

The bill to promote the construction of a railroad from Washington to Point of Rocks was passed—65 against 39.

☞ Burleigh speaks as follows, of the New York city paid Fire Department.

Fires, many and disastrous, are taking place. With the old department the fire was almost always kept within the walls of the building where it originated. Now the fires are wide spread and terrible. Either our department is not efficient or the torch of the incendiary is more than usually successful. Few have any doubt but the Academy of Music was set on fire. And the large and destructive fires that are glowing around us come from the same hand. Great dissatisfaction is expressed on all hands at the condition of things in this department.

It is quite probable that the successful incendiaries are vicious men who belonged to old volunteer organization.

Since writing the above we observe the following item, on Incendiarism in New York:

The three hundred and sevety fires which have occurred in New York within the last four months have aroused the authorities to the duty of looking after their cause. At a meeting of the Fire Commissioners, on Wednesday, it was agreed to offer a reward of $1000 for the detection of parties guilty of incendiarism; and one of the Commissioners stated it to be his opinion, and believed it was shared and expressed by thousands, that the firemen of the old department, who had cut hose and disabled engines in order to bring discredit on the new department, had turned their attention to incendiarism. Threats made that fires are to be more frequent in future than they have been in the past, it was stated at the meeting, demanded the utmost vigilance on the part of the community in preventing and detecting incendiarism; and recommendation to that effect was made.

— It is stated that Chief Justice Chase entertains the most moderate views concerning the pains and penalties to be inflicted upon the Southern people, and is not at all exercised at the prospect of allowing a full Congressional representation to be admitted, whenever it appears that the Union sentiment is manifest at the elections.—*Exchange.*

Well: what of it? When that sentiment is *made manifest*, Mr. Sumner and every other radical will say the same things. It is not yet manifest; but when it comes, we will rise up and meet it.

THE SHIP CARPENTERS' STRIKE.—At a meeting of ship carpenters in New York Tuesday evening, a resolution was passed to the effect that if the bosses appointed a committee to confer with the trade, the latter would be ready to meet them and hear any proposition they had to offer. The workmen spoke in very decided terms as to their determination to obtain the eight hour system, which they declared was the sole question at issue, wages not having had any thing to do with the strike.—*Exchange.*

We think this cannot be a correct report. For if the workmen would shorten their *pay*, exactly as they do their *hours*, no one would complain;—if he did, he would be laughed at. But if A gets $2.50 for ten hours' work, and proposes to work eight hours *only* for $2.50, he really tries to raise his pay from 25 cents to 31 1-4 cents per hour. It is exactly that to B, who pays him.

☞ A Memphis dispatch of May 31st says the steamer City of Memphis exploded her boilers at the foot of Buck Island on Thursday morning. The forward cabin was torn away and the boat set on fire.—She had 28 cabin and 60 deck passengers. About 60 persons were lost or injured. The Memphis was owned by the Atlantic Steamship Company and valued at $99,000. She was uninsured.

— At New York, a number of changes have been made in the Custom House. Among the new appointments was a son of Senator Doolittle.

— Bishop Burgess was buried with solemn ceremonies at Gardiner, Me., May 30. About 30 clergymen were present.

NEW HAMPSHIRE ITEMS.

—— Twelve companies of the State Militia, with six bands of music, are preparing to be at Concord to join in the inauguration ceremonies of Governor Smyth. The military, out of high regard for their Chief Magistrate, have volunteered their services, and no expense to the State will be incurred, while the railroads have generously offered to transport them free of charge. A handsome sum of money has been contributed by the Governor, State Officers and citizens of Concord for providing a collation for the troops on Inauguraion day. All other arrangements connected with the occasion are progressing finely.

—— A chicken was hatched in Concord, Tuesday, which had four wings, four legs, two tails, and one head. It lived one hour.—There was also a big egg at the seat of government, which contained within it a common sized egg with soft shell.

—— The American Telegraph Company have completed their White Mountain line to Lancaster, and opened an office there and at Whitefield.

—— Frost, Thursday night, in many parts of the State.

—— Hon. J. A. Gilmore has been unanimously continued Superintendent of the Concord Railroad, by the new Board, of which Josiah Stickney is President, and Sam'l N. Bell Clerk.

NEW HAMPSHIRE GOLD MINES.—According to a report of Dr. Hayes, State Assayer of Massachusetts, who has recently analyzed specimens of rock from the gold mines of Lyman, N. H., the owners thereof are likely to realize handsomely. The red quartz has peen found to yield, per ton, $897 in gold; the mixed quartz, talcose slate, gozzan, pyrites, &c., yields, upon analysis, $310.42 per ton.—*Traveller*

LATE MAPLE SUGAR.—We published recently a paragraph relative to a late "sugaring off" of maple sugar, which has gone the rounds of the press. Since then Mr. Joseph Moulton of this town has called at our office, (leaving, by the way, several cakes of excellent sugar,) and informs us, that on the 5th day of May, he sugared off 336 lbs. of sugar, and on May 7th 38 lbs., and all from sap gathered as fast as it ran, and which he boiled into syrup and then into sugar, as speedly as he could go through the process. The sugar was clear and of fine flavor. We think Mr. Moulton's large and late yield entitled to notice.—*Lancaster Republican.*

GEN. GRANT VS. GEN. LEE.—The Richmond Times comes up to the defence of General Lee from the recently published strictures of General Grant upon his course since the termination of the rebellion, asserting that the ex-Confederate General "has counselled cheerful obedience, and prompt, honest allegiance to the constitution and laws of the United States, and has done more than any man at the South to reconcile our people to their fate, and encourage our young men to lende lead lives at once industrious, peaceful and contented."

BRAZIL AND PARAGUAY.—The news from the river Platte is important. There was a fearful slaughter on April 10th, of 1200 Paraguayans, who attacked the Brazilian batteries on the island opposite Itapuri. Ten thousand Brazilians crossed the Parana on the 16th, without opposition, drove in the Paraguayan skirmishers, defeated 3000 next morning, and occupied Itapuri. The Paraguayans abandoned their camp on the road to Humaita, and retreated to that fortress, on which all their forces were marching.

Twelve thousand Brazilians had crossed the upper Parana and reached the railway, within thirty miles of the capital of Humaita. It cannot be held, and a speedy end of the war is anticipated.

The Custom House in Santa Charina had blown up; 20 persons were killed.

In Rio Grande De Sell, old silver mines worked by the Jesuits have been re-discovered lately.

FROM THE PACIFIC. — The Spanish squadron left Callao in disgrace, it is said for Montevideo.

Trade on the coast was brightening.—Guatemala, Salvadore and Costa Rica have declined to join the Chilian-Peruvian alliance.

The Vanberbilt and monitor Monadnock sailed from Panama on the 21st for San Francisco. The convict Bradley, who stole $15,000 from the safe of the U. S. Paymaster, had escaped from the chain gang at Panama.

NEW YORK CITY ITEMS.—On Thursday, the striking shipwrights had a picnic at Jones' Wood; 6000 persons were present, and speeches were made sustaining the strike.

Eleven new cases of cholera are reported on the steamer Union and thirty-eight on the Peruvian at lower quarantine. The number of sick received on the hospital ship May 30, from the Union, was 45, and from the Peruvian 39, of whom 14 died.

☞ The plain and frank report of Gen. Whittlesey to Gen. Howard, in reply to the charges of Gens. Steadman and Fullerton, goes over the whole ground covered by those charges, and meets them with entire fairness and frankness,—showing that S. and F. made a very hasty, superficial and erroneous report against the Bureau, its officers and operations.

☞ The annual convention of the Protestant Episcopal Church in New Hampshire, was held this year in Concord, and on Wednesday, Bishop Chase delivered his Annual Address:

A majority of the churches of the diocese were prosperous, especially St. Paul's Concord, St. John's, Portsmouth, St. James', Keene, St. John's, Walpole, St. Peter's, Drewsville, Trinity of Claremont and also of Sanbornton Bridge, and St. Paul's chapel, Concord. The building debt of St. Stephven's, Pittsfield, has been discharged and the house will soon be consecrated. The accommodations of Trinity church, Claremont, have had to be largely increased. St. Paul's, Concord, will have to be enlarged or a new society formed. The Mission Church at Exeter is going on finely, and funds are being collected toward the building of a house. St. John's at Portsmouth is overflowing. At Goffstown a wonderful work is in progress. During the past few months a church of forty members has been formed there, and it was admitted into the Diocese under the name of St. Matthew's. A new church will also be formed soon in Dunbarton, while there is an urgent desire for Episcopal ministrations in Lancaster, Conway, Newport, Laconia and other places. Efforts are being made to raise $100,000 for the further endowment of St. Paul's School, Concord. During the past year the Bishop confirmed 117 persons, ordained two deacons and one priest, and there are now three candidates for Holy Orders.

It was voted to hold the annual convention for 1867, at St. John's Church, Portsmouth.

LIQUOR ITEMS.—Subterfuges and tricks are resorted to in New York to evade the Sunday law against liquor selling. A daguerrean kept open all day, and after the visitor's likeness was taken, he was treated to a glass of liquor in the back room The proceeding was known to the Commissioners, but as they are not clear as to their authority under the law to interfere, nothing was done to stop t.

The concert saloons with pretty waiter girls in New York now supply their customers with lemonade and ice cream, and thus evade the new license law. [This is no evasion.]

There are now no saloons or hotels in Massachusetts, west of the Connecticut river, where drinks can be obtained.

There is not a liquor shop in Beverly, Mass., and no one can be found to take the town liquor agency.

There are 831 divorces in Ohio last year—drunkenness being the cause of 48 only; but it is inferred that the rum-jug had some share in the list set down (199) as having been caused by cruelty.

☞ A fellow representing himself a soldier returned from the Union army, has been living in Salem since March, and worked as a machinist. He called himself Capt. Frank Morton *alias* Frank Mann, *alias* Frank Morton Mann; pretended to be very religious, took part in meetings, and thus obtained the confidence of a respectable young woman, who went out to walk with him on Saturday evening. While walking, he offered her something to smell, which he said be had as a present, but which was probably some stupefying drug; committed a felonious outrage on her person, and has fled. A reward is offered for his arrest.

☞ Hon. Wm. H. French died at Williston, Vt., on Tuesday last. He was an early sincere anti-slavery man, one of the few who in 1840 organized the "Liberty Party" in Vermont, and in 1844 ran as their candidate for Congress. For a number of years he was elected to the Legislature, and at the time of his death was Judge of Probate.

☞ On Thursday, at Portland, the corner stone of the new Catholic Cathedral was laid by Bishop Bacon, assisted by the clergy, with great ceremony, in the presence of a great concourse of spectators.

☞ On Friday morning, 300 Fenians arrived at Buffalo, and 300 more were near, with nine wagons of ammunition and arms, seeking to cross into Canada. U. S. gunboats are watching them.

— One Albert C. Meady in January last robbed Mr. John F. Moulton, between Salem and Swampscott, of $250 in money, a gold watch and chain, &c.; was arrested at Gardiner, Me., some days ago, escaped and was retaken at Belfast, where he assaulted an officer of the jail,—and has finally got into Salem jail for trial.

— At New Orleans, May 30, Morrison's drug store, 12 Magazine street, was burned at midnight. Loss, $80,000; insured $40,000. The adjoining stores were badly injured.

SEEING IS BELIEVING.—If ladies who do not use the fragrant SOZODONT will compare teeth with those who do, they will see in an instant more reasons for adopting it than can be composed into a newspaper paragraph. 15

MYSTERY.—"Mother," said a little fellow four years old, "if a man is a mister, sin't a woman a mystery?" The greatest mystery in the world to us, is that any one will buy any other Saleratus but Herrick Allen's Gold Medal. It cures dyspepsia, strengthens weak stomachs, saves your teeth from decaying, saves one-half the quantity of shortening, besides it takes so little of the Saleratus to do its work. Try it. Most Merchants sell it. Depot 119 Liberty street, New York. 94

— James Egan, a citizen of Lexington district, S. C., who is about 80 years of age, was convicted before a military commission recently of killing a colored boy, and sentenced for life to the penitentiary at Albany, N. Y. His friends got out a writ of habeas corpus, and he was taken before Judge Nelson of the U. S. Supreme Court, who decided that his trial by the military authorities was illegal, and ordered his discharge.

— In St. Louis, May 31, Wyman's Hall, recently occupied as the Metropolitan Theatre, and several adjoining stores, were burned. Loss $150,000; partially insured. The loss by the fire of Wednesday night is over $200,000, mostly insured.

☞ No Gold Board in New York Friday. Street price 140 1-2.

Some of the Advantages of Consulting Dr. Stevens.
Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.
They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.
The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.
DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.
Dentistry, medically considered, is a speciality at this office.
Painful Teeth treated and cured.
Ulcerated Teeth treated and saved to a life of usefulness.
Badly decayed and broken Teeth restored to usefulness and beauty.
Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL FINE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY
ARE FULLY WARRANTED
to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Perry Davis' Vegetable Pain Killer.
The Great Family Medicine of the Age!
Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.
It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

Communication.

THE CELEBRATION.—The city is now being canvassed by the Fourth of July Committee, to solicit subscriptions for the celebration. They have been so successful thus far in raising funds as to make the undertaking a decided thing. We are to have one of the best celebrations given here since 1852, when the Sons returned. The Committee have taken hold of the matter in the right spirit, and no pains will be spared to make the demonstration interesting, and appropriate to the day. Let every one who is called upon to subscribe give something. To carry out the programme contemplated by the Committee of Arrangements, it will require all the funds that can be raised. Keep the ball moving, now that it is fairly under way. H.

☞ The Citizens are requested to meet at the Common Council Room this (Saturday) Evening, at 8 o'clock, to hear the Report of the Committee on Subscriptions, for celebrating the coming Fourth of July, and to transact any other business which may come before the meeting.

C. A. SHANNON,
Chairman last Meeting.

POLICE COURT, June 1st.—John Cram of Biddeford, a mule-spinner, was found in a yard in the vicinity of Bridge street in a state of beastly intoxication. He was taken to the Station House, cared for, and ordered by His Honor Judge Odell to stay thirty days at the Town Farm, for the benefit of his health.

☞ Are you going to hear the Concert to-night at the Temple? The Troupe is a full and strong one, and without doubt will give a good Concert of the Minstrel sort—and there be very many who regard this as the very best of music.

☞ The Portsmouth Philharmonic Society have adjourned over for the Summer. Their next rehearsal is appointed for the first Tuesday in September. The Society is in a flourishing condition, and "the Philharmonic" is one of the musical institutions of of the city.

☞ Minute guns were fired at noon on Friday, at the Navy Yard, on account of the death of Gen. Scott, who was buried that day at West Point.

☞ Rev. Mr. DeNormandie is to preach the Almshouse on Sunday afternoon at 2 o'clock.

☞ The body of a man was found in the water at Newington, Friday, supposed to be that of Alden Gove, of this city, who was drowned five or six weeks ago.

M. HENRY HOUGHTON will lecture on Spiritualism to-morrow (Sunday) afternoon and evening, at Mercantile Hall.

☞ Three Companies of Fenians, about 200, passed through Concord on the Railroad for Canada, Thursday evening, from from Lowell and Boston, a wild, drinking, dashing set, thoughtless, and mostly under 18 years of age; they smashed a door and several windows before they got to Concord. It is reported that 1500 Fenians captured Fort Erie, and that large bodies of men are moving from various points in the U. S. to reinforce them, if they can get across the line. The Fenians have also captured Port Sarnia and Windsor, and are marching toward Suspension Bridge, cutting telegraph lines, &c.

THE PROSPECT AT WASHINGTON.—Col. Forney writes from Washington:

The Republicans who supported Johnson's policy, with two or three exceptions, finding that the Congressional plan will be based upon lasting principles and will effect a permanent cure, are preparing to give it their support. An indication of the strength of the Congressional plan is found in the Intelligencer of this morning, which, for the first time, squarely advocates the admission of such applicants from the South as can take the Congressional "test oath." Thus you will perceive that every day's delay has been fortunate. It has stifled discontent, satisfied conscientious objections, given the Southern radicals a chance for a hearing before Congress, and allowed business men to make their representations in reference to the national debt. It has even opened the door for reconciliation with the President. A number of influential Republicans have appealed to him to give his sanction to whatever may be agreed upon, and if he is wise, he will consent; but whether he does or not, the car of progress will go through, and the first indication will be the acceptance of whatever may be done by the Southern States; for when Congress agrees—as I think it will before the week is out—the Southern States will not consent to remain outside of the Government to gratify a few disappointed politicians.

☞ The last words of Gen. Scott. About twenty-five minutes before his death he addressed his hostler, saying: "James, how is the horse?" "He is well, General." "Take care of him, James," said the dying hero, and these were the last intelligible words he uttered. In less than half an hour all was over.

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January. It a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence at that time we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it had been there five years long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived at most but a few days longer. Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—DEAR MADAM:—While we were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken for to a number of physicians, and none could tell what ailed her or even her symptoms You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed of large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

On SATURDAY, June 9, at 12 o'clk noon.

The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, is a thoroughly modern, by the day, of the best materials; contains 10 well-arranged Rooms and 12 Closets. In the yard is a small STABLE. Are sold only because their owner having removed to another house, has no further use for them.

The premises are situated in an excellent neighborhood, where the houses are owned by the occupants;—while far enough from Islington street to be free from dust, a good view of that street is had from the house.

Adjoining is a LOT OF LAND, fronting 38½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the latest Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of assets to liabilities" or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,079
" " " " 1865.....3,029,087
Ratio of expenses to premiums received in '64.....18.86
" " " " " '65.....12.12
Ratio of assets to liabilities, Jan. 1, 1865.....151.35

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionally LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionally *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed on standing to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

Morning Chronicle.

☞ A Canadian printer, J. R. Dunlop was married in Chicago recently to the daughter of a Milwaukee merchant, the young lady coming out on the occasion in fifteen thousand dollars worth of fancy dry goods and jewelry. She is said to be worth one hundred thousand dollars. Of course Mr. Dunlop will "put on a sub," and walk around town for the rest of his life.—*Exch.*

Not exactly of course; for some men love work;—and besides, the largest fortune may be speedily dissipated or destroyed. If the young lady is worth only $100,000, and puts on $15,000 in one day, she may put on or put off the whole in a week. But if she herself is *worth* something, as well as her money,—the newly married couple might get on very well if her money were gone;—i. e. if the young man is good for any thing.

— At Skowhegan, Me., on Monday last, Mr. Leonard A. Grover was drowned while attempting to take a boat round a pier of the bridge above the dam. The paddle broke and left him to the mercy of the current, which swept him over the dam, and he was drowned before he could reach the shore.

— The Albany Board of Trade recommended that the standard of measurement for all grain and seeds throughout the United States shall be cental (or one hundred pounds) instead of bushels. The proposal will be submitted to the Boards of Trade represented at the Detroit Convention.

—TO—
UNFORTUNATE FEMALES!

DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1866. 1TuSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days can be furnished with **Food and nurses. Charges moderate.**

The Use of this Column

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTANTS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. They are the deodorizers, antiseptics, antiputrescents, and disinfectants, in the scientific meaning of the words They remove noxious gases and odors by chemical principles—leaving in their places *healthful air;* they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these discoveries. Attached are testimonials from those who tried this great discovery, which, with hundreds of others, can be seen at the Company's office

BRADLAVER HOUSE, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROGSELL & Co.

NEW YORK, April 9, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and lasting.

THE SPIDER'S WEB.
BY FITZJAMES O'BRIEN.

Spinning, spinning, ever spinning,
Spins a little spider,
And I watch her weave her net,
Sitting close beside her
And the weaves with subtle art,
Over, in, and under,
Till the complicated mesh
Seems a perfect wonder.

The well she spins is never meant
To catch the poor blue bottle,
Nor the golden armored wasp
To hamper and to throttle.
For the threads my spider weaves,
Are curiously ethereal—
Little sighs, and pouting looks,
And such like odd material.

Ah, the web is meant for me,
Poor unhappy poet,
There's no use in struggling now,
I'm done for, and I know it.
Sunny curls and moonlight walks,
And passages from Byron,
Have bound me down, in chains as strong
As triple-hammered iron.

Cease your spinning—your poor game
Over that you have nicked him,
Cease your spinning, wily one,
I'm a willing victim.
Crown your sacrifice with flowers,
I'll neither lag nor falter,
Put a ribbon round my neck,
And lead me to the altar.

— The new five cent coin adopted by the Secretary of the Treasury is described as follows: Obverse—The Union shield resting on tied arrows, denoting peace; a wreath of laurel crowning the shield, and above, in circular form, the motto "In God we trust." Reverse—A figure five in the centre, encircled in thirteen stars set in rays, with the words "United States of America" above, and the word "cents" below.

— At Memphis, Tenn., the Congressional Committee have examined over one hundred witnesses, and are proceeding vigorously in the investigation of the riot.—A building of sufficient capacity for 500 scholars, erected by the Freedmen's Bureau, was opened the other day with considerable ceremony. Arrangements are being made for a grand celebration by the freedmen of the Federal occupation of the city on the 6th of June.

— The President has made, and the Senate confirmed, the nomination of Edward Fox to be Judge of the United States District Court for the District of Maine, vice Ashur Ware resigned.

— The Richmond (Va.) Whig states that rents have been falling very rapidly in that city. Stores which last year rented from $2500 to $3000, now are easy to be obtained for $600 to $1000.

MONDAY, JUNE 3, 1866.

☞ It seems that the colony of freedmen, sent out to Hayti by the United States Government in 1863, has proved a failure. The colonists, four hundred and fifty-three in number, have been brought back to the United States, and the parties who got up the scheme are now petitioning Congress to reimburse them the amounts expended in bringing the negroes back, etc. Their bill is only eighty thousand dollars!—*Commercial.*

It was a *failure* as we supposed it would be, and ought to be. It is bad policy for any man or people to send away industrious and orderly workers. Benj. Lundy and others, anti-slavery men, tried the experiment of sending free blacks to Hayti, from the U. S., between thirty and forty years ago. The experiment was fairly tried then, and it failed. The Frenchified negroes of Hayti, and those from the U. S., were not suited to each other: and besides, the negro is as fond of his *home*, as any man of any color—much more so than most men.

FENIAN ITEMS.—The Boston papers of Saturday have a column of Fenian news from Canada, and from different cities in the U. S., where Fenians are hurrying towards the Seat of War. Lines of large type informs us that all the military forces of the Canadas have been put under marching orders, that engagements are expected, &c.—and then, *presto change*—comes the rumor that the Fenian Camp at Fort Erie has broken up,—and the War is ended.—A Buffalo dispatch of June 1, says:

Parties arrived from the Fenian camp tonight, say that the Fenians not having received the expected accessions to their strength, and hearing of the approach of the British troops, have broken up their camp, burned their muskets, destroyed their ammunition and left in squads, ostensibly for raids, but it is generally thought really to endeavor to get back to the United States in the shortest time. Gen. Sweeney was confidently expected, but did not come. To-morrow will prove whether this is true or not.

A dispatch on Saturday, from Albany, says Gov. Fenton will issue a proclamation to-day warning citizens of the State against countenancing the Fenian invasion of Canada. Also says that twelve regiments of militia are to be sent to the frontier, drawn from the counties of Niagara, Monroe, Onondaga, Oswego, Jefferson and St. Lawrence.

All the United States troops in General Meade's department are said to be under arms for use in case of an emergency.

It is said eight hundred and fifty thousand rounds of ammunition have been forwarded by the Fenians from New York and 600,000 from Chicago to the frontier within a few weeks. Over 1000 Fenians are also said to have left New York within two days.

A Buffalo dispatch says 1500 British regulars, with artillery, have arrived at the Suspension Bridge, whose aim it was to attack the Fenian forces, who have now vacated their encampment.

A Toronto dispatch says 4000 Canadian troops are within a few hours march of the enemy and plenty more in reserve.

English troops occupied Fort Erie on Saturday, and a battle took place between Fenians and Canadian Volunteers, at a place called Ridgway, 15 miles from Fort Erie, on Friday. The reports of the result are contradictory.

☞ Being in England, Dr. Holbrook recently visited Bunhill Fields Burying Ground, where lie the remains of Bunyan, John Owen, the mothers of Oliver Cromwell and John Wesley, De Foe, Drs. Isaac Watts, Gill, Rippon, Bruder, Goodwin, Priestly and John Fleetwood. He writes the Independent that "the ecclesiastical authorities undertook lately to secularize the ground, and actually make arrangements to erect shops and dwellings on it; but a noise was made about it, and the government interposed its veto, and it is to be kept intact."

☞ A sad story comes to us via New York city, that 200 persons have been gradually poisoned in the Walkill Valley, Orange Co., by the use of flour which had been carelessly mixed with white lead, in the grinding.

FUNERAL CEREMONIES.—The Concord Statesman says:

"It is sad to know that a human being, agreeably to his own request, is ever buried with no religious solemnities."

Some of our younger readers may not know that the Sandemanians (a very strict religious sect,) have no "religious solemnities" at their funerals;—that the Friends, or Quakers, tho' they sometimes carry the corpes to a meeting-house, and sometimes speak at funerals, do not always do so, and their books show that it is not deemed essential;—and that the Puritans, two hundred years ago, were reproached by some churchmen, because they buried their dead without a prayer.

GOLD, Saturday, 141. Sent to Europe $2,473,000.

— The Richmond papers continue to speak in affectionate terms of their "ex-President."

SORROWS come not singly. Hundreds meet with misfortunes at every turn of the great wheel of life. Suffering, sorrow and sickness is the inheritance of man. Dyspepsia has claimed millions as its victims, and for years there has seemed to be no reliable remedy for it. Our readers will rejoice to hear that Coe's Dyspepsia cure will certainly cure it in every instance. All its attendant afflictions, like cramps, colic, indigestion, sickness of stomach, souring and rising of food, sick headache, general debility and want of appetite, are sure to yield to Coe's Dyspepsia Cure. je5—1w

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY
ARE FULLY WARRANTED
to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Perry Davis' Vegetable Pain Killer.
The Great Family Medicine of the Age!
Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.
It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

THE TWENTY-SIXTH ANNUAL REPORT OF THE P. S. & P. R. R.—The 26th Annual Report of the Directors of this road, to be presented to the Stockholders at their meeting, at North Berwick this day, shows the receipts for year ending May 31, to be $486,483 25. Total expense, $250,755 07. The fatal surplus May 31, was $224,874 59.

The surplus is invested as follows;

Improvement acc. 87,000 00; material for use of road, 60,000 00; balances due Company, 45,000 00; notes receivable, 20,000 00; cash, 13,000 00.

The road with its equipments is in good condition, and has been so kept, during the year. About 17,000 new sleepers were put down last summer, and 300 tons of re rolled iron rails laid, with the improved joint.—About the same quantity of iron will be required this season, with 12,000 sleepers, a part of which are now on hand, and the balance contracted for.

The locomotives have been kept in good repair and working order. One new engine, from the Portland Company works, called the "Bonnebeag," has been recently purchased and put upon the road.

The Company are preparing to build a new machine shop, engine house, turn table, and work shops at the westerly end of the bridge, leading out of Portland, on land purchased last year, about three quarters of a mile from the Portland depot.

The question of paying the stockholders semi-annually three dollars per share in gold or silver coin of the currency of the United States, remains unadjusted, as here tofore reported, and the dividends have been received in currency, under protest.

The Boston and Maine Railroad offered last year a compromise paying 4 per cent. in currency, for a release from the contract, dated April 1st, 1847, made between the Portland, Saco & Portsmouth Railroad on the first part, and the Boston and Maine road, and the Eastern Railroad, of the second part, for payment of dividends to the stockholders of Said Portland, Saco & Portsmouth Railroad Company in gold and silver coin of the currency of the United States.

This proposition of the Boston & Maine road was accepted by a stock vote at the Annual Meeting last June. The Directors of the Boston & Maine road were notified of the acceptance, and were requested to pay the amount of thirty-one thousand five hundred and seventy-eight dollars and ninety-four cents to the Treasurer of the Portland, Saco & Portsmouth Railroad, that on payment the proper discharge should be given them. Though their attention has been several times called to this matter they have thus far neglected to comply with their agreement. President Cogswell states that his Directors have taken no action on the matter.

"We walked out into the fields and saw no laborers but the planters themselves, their sons, or, in a few instances, white assistants. All were in the fields, plowing, hoeing, harrowing or planting—men, women and children. They are mostly educated gentlemen." The crops generally were in fine order.

POLYGAMISTS REFUSED THE RIGHTS OF CITIZENSHIP.—We learn from the Vedette, Salt Lake City, Utah, that the following decision was recently made by Judge Drake, of the United States District Court, held at Provo City:

Upon an application made to the Court for naturalization papers, he refused to issue them to any man practicing polygamy either prior or subsequent to the passage of the act of Congress on that subject. It was held that a man who defied the anti-polygamy act of Congress, or any other law of the country, and persistently refused to obey the law of the United States, was in no way entitled to citizenship or any of the benefits accruing therefrom.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and irregularities of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.** Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin,* is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a specialty, has discovered a remedy for those discolorations, which is at once prompt, infallible and harmless.

The Eye, Ear, Catarrh,

THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had driven it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have improved, and all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. These have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
MARY L. MARTIN.

Desirable Residence at the West End,
AT AUCTION,
Will be sold at Auction,
on the premises,
On SATURDAY, June 9, at 12 o'clk noon.

The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, in a thorough manner, by the day, of the best materials: contains 10 well-arranged Rooms and 12 Closets. In the yard is a small STABLE. Are sold only because the owner having removed to another house, has no further use for them.

The lots are situated in an excellent neighborhood, where the houses are owned by the occupants;—while far enough from Islington street to be free from dust, a good view of that street is had from the house.

Adjoining is a LOT OF LAND, fronting 33½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

AT AUCTION:
Will be sold at Auction, on the premises,
On SATURDAY, June 16, at 12 o'clk M.,

The three-story BRICK DWELLING HOUSE No. 55 State street, recently occupied by MISSES LUNT. This house has recently been put in good condition. It has slated roof; a good furnace heats the first and second story rooms, and gas is introduced into the same rooms. It has seven Chambers exclusive of the Attic, and in the yard facing on Sheafe street a good brick STABLE. May be examined at any time.

For particulars inquire of

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the ratio of surplus to its liabilities, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.36
" " " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....151.85

The irresistable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

Queary. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses much larger than others, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed on intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

From the Portsmouth Journal
FOURTH OF JULY.

Such provision has been made for celebrating the approaching anniversary of American Independence, that with the expected response from our citizens, there is little doubt that it will be done. Hon. J. W. Patterson is expected to be invited to be the orator of the day. The Declaration of Independence will be read perhaps by Rev. Mr. Patterson, or some other good citizen; and also a Poem may be expected from E. P. Nowell. There will be other day attractions—and fireworks in the evening, to show that the injunction of the elder John Adams has not been forgotten.

Mineral Water Establishment.—That new carriage, a double decker, just passed, drawn by a handsome span of black Canadians, is a pretty affair. It is labelled "Mineral Water" above, and "Pop Beer" below—and the whole establishment passes on as though there was some of the "pop" mingled throughout. The master "Pop" however, which puts all around him in activity, is Richard Hilton, who is carrying on the business on an extensive scale at his new manufactory in Cabot street. Passing there a few days since, we just *popped* in. We found in operation a soda apparatus—three doubled-mortar looking vessels, each of 50 gallons capacity, in which the work of generating and condensing mineral water is performed. The machinery in full operation can prepare and fill about 5000 bottles in a day. His Pop Beer is also made to any extent at the same place. There being no other establishment of the kind in this county, if in the State, he has a demand for the product of the establishment at Dover, and the neighboring towns. This is the way an enterprising man can "pop" into a fortune.

Celestial Phenomenon.—On Friday, June 1, at meridian, a beautiful circle with the tints of the rainbow was formed around the bright shining sun. The ring was perfect, and about thirty degrees in diameter, and was visible half an hour. It was rare and beautiful sight. The booming of the funeral guns at the Navy Yard, while the eyes of so many were cast upward to the grand display above, could not but bring up the beautiful idea in connection with the death of Scott, of "the doors of heaven being left ajar."

Abundant Rain.—The showers of this week have given to the thirsty earth in our vicinity three and a quarter inches of rain. This is about 3000 barrels to every acre of land. The fall of rain in Boston in the week has been about ⅔ of an inch less than in Portsmouth.

Frost—June 1.—We understood that there was frost on low ground on Friday morning, sufficient in some localities in this vicinity to kill bean vines.

CITY ORDINANCES.

CITY OF PORTSMOUTH.
ORDINANCE No. 112.

An Ordinance relating to the Superintendent of the Almshouse and City Farm.

Be it ordained by the City Council of the City of Portsmouth, as follows:

Section 1. There shall be chosen annually in January, by the Board of Mayor and Aldermen, a suitable person who shall be appointed Keeper of the Almshouse, Superintendent of the City Farm and Master of the House of Correction, who shall give such bonds as they may direct for the faithful performance of his duties.

Sec. 2. He shall have the control of the internal arrangements of the Almshouse and House of Correction, City Farm, in all particulars necessary for the profitable conduct of the same, with power to purchase stock, produce and agricultural implements, provisions and supplies for the use of the inmates of the House and out-door pensioners; and to sell or otherwise dispose of the surplus stock and produce—subject however to the general direction and control of the Board of Overseers.

Sec. 3. It shall be his duty to keep a plain and accurate account of all his doings, entering in a Day Book all the articles sold from the Farm, the person to whom, the quantities and price received; also all monies received by him as fines or expenses from persons sentenced to the House of Correction. This account shall be open at all times to the inspection of the Mayor, or either of the Overseers, and the Superintendent shall make weekly returns of the same to the Board of Overseers at their stated meetings.

Sec. 4. He shall keep an account with the City Farm, charging thereto all expenses incurred for the purchase of stock, manure, seeds or agricultural implements, and for labor, together with a fair estimate of the labor performed by the inmates of the Almshouse and House of Correction, and crediting it with all money received for the sale of produce or stock, and the value of articles used in the establishment, or reserved on hand for future use; which account shall be rendered to the Board of Overseers, on or before the 15th of November, annually.

Approved March 8, 1866.

A true copy, attest,
MARCELLUS BUFFORD, City Clerk.

ORDINANCE No. 113.

An Ordinance regulating the pay and duties of the Night Watch.

Be it ordained by the City Council of the City of Portsmouth, as follows:

Section 1. There shall be appointed by the Mayor and Aldermen, or more than eight Watchmen, who shall be appointed Police Officers and Constables, according to the State Laws, and who shall have a yearly salary of six hundred and fifty dollars each.

Sec. 2. One of the above mentioned Watchmen shall be designated, when chosen, as "Captain of the Watch"—and his duties assigned him by the Marshal. One of the remainder, one-half shall go on duty at seven o'clock each evening and continue until four o'clock in the morning. The other half shall go on at eight o'clock in the evening and continue until relieved by the Assistant Marshals or day Police.

Sec. 3. When any member of the Watch shall fail to perform the duties required of him, he shall forfeit a proportional amount of his salary.

Sec. 4. This Ordinance shall be considered to take effect from the 1st of January, 1866.

Sec. 5. Ordinance No. 66 and any portion of Ordinance No. 101, inconsistent with the foregoing provisions are hereby repealed.

Approved March 29, 1866.

ORDINANCE No. 114.

An Ordinance relating to Hotels, Taverns, Billiard Rooms, Saloons, &c.

Be it ordained by the City Council of the City of Portsmouth, as follows:

Section 1. That no person shall keep open any bar-room or place in any hotel, tavern, eating house, lodging or eating house, or any cellar, restaurant, billiard saloon or billiard hall, shop, bowling alley, or other building, in said city, for the reception of company, and for selling, exposing for sale, or giving away any intoxicating liquor, wines, ales, ciders, fruits, nuts, cigars or oysters, between the hours of eleven o'clock in the afternoon and four-and-a-half o'clock in the forenoon.

Sec. 2. Any person, upon conviction of violating this ordinance, shall be punished by a fine not less than ten dollars nor more than twenty dollars.

Sec. 3. This ordinance shall take effect from and after its passage.

Passed April 26, 1866.

ORDINANCE No. 117.

An ordinance to amend an ordinance to prevent unlawful and injurious practices in this city.

Section 1. Three or more persons shall not stand or remain in a group, or in any street or public way, in such a manner as to obstruct a free passage thereon or therein, for a longer time than five minutes after a request made by any person to move on, under a penalty severally, on conviction, of not less than one dollar nor more than ten dollars. And three or more persons standing or remaining in a group, or near each other or any sidewalk, or crosswalk, or in any street or public way, in such a manner as to obstruct a free passage thereon or therein, and refusing or neglecting to move on immediately, after a request so to do, made by the Mayor, the Marshal or any Constable or Police Officer, shall each and severally, on conviction, be punished by a fine of not less than three dollars nor more than ten dollars.

Approved April 26, 1866

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is needed by the many who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, a boon of immense service to the large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Erysipelas, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this Extract or Sarsaparilla.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used Ayer's—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

Ayer's Cathartic Pills, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & Co., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—3mMTuo

CHOLERA
DISARMED!!!

The Chief Causes of Pestilence Destroyed.

Dr. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 398, 400, and 402 Henry street, N. Y. Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its Disinfecting Fluids for sick rooms, nurseries, water closets, privies, cesspools, dead pools, sewers gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, wherever foul and offensive smells and noxious effluvia, all kinds of manures (*immensely* increasing the value of the latter), and wherever poison or putrefaction is to be expelled. These powerful deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They destroy the germs, the seeds, the chemical principles—leaving in their places *beneficial air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—are not injurious to vessels in which they are used. The attention of medical and scientific men is directed to these discoveries of Dr. Courarret, and to the value of this great discovery, which, with hundreds of others, can be seen at the Company's office

Delavan House, Albany, March 30, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have in your Fluid an article which surpasses all others as a remedy against all bad odors. T. Roessel & Co.

New York, April 9, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

C. A. Stetson, Astor House.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES
ver Twenty Thousand Patients Cured Annually
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, pubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that make life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. DR. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as the female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

TOO FAST.—It appears by the letter of Gen. Whittlesey, Superintendent of the Freedmen's Bureau in North Carolina, that the late report of Gens. Steedman and Fullerton needs to be investigated quite as much as the field they were sent to examine. They visited, he says, only *six* out of the *forty-one* districts under the charge of the Bureau; they made no inquiries into its *finances* or respecting the government property in its possession; they make no mention of more than ten thousand cases between freedmen, or between freedmen and whites, that have been adjusted; they say nothing about the work of 121 schools, 152 teachers, and 10,606 scholars; and they condescend to give no credit to the officers who have found employment for many thousands of destitute refugees and homes for many hundreds of orphans, and medical attendance and comforts for more than 20,000 persons. If even, therefore, they were the most favorably disposed commissioners that could have been sent out, and their report was good so far as it went, it would manifestly be exceedingly defective, unreliable and inconclusive, particularly as a basis of grave charges against either the officers or the general system of the Bureau. They made a *hurried*, one-sided report, such as one as might be made of the State of New Hampshire by a man who goes from Portland to Boston, by the railroad. Nevertheless, the charges raised by two high officers of the Government ought to be thoroughly sifted. It is due not only to the officials concerned, but to the welfare of the freedmen and of the whole country. For these reasons we hail the movement toward investigation begun by Mr. Eliot, in his resolution adopted by the House. Let us have all the facts of the case.

CANADA AND THE FENIANS.—We remember very well the talk in our streets in 1812 about taking the Canadas from the British, and holding them as a pledge. We remember, too, how our Generals *proclaimed* their conquest in advance,—and how we did *not* take Canada after all, tho' we had some severe battles near the line. The Fenians, therefore, should they fail, will only follow in the footsteps of their illustrious predecessors.

Late dispatches make it appear that the left wing of the Fenian army, which made its first lodgment at Fort Erie, and moved to Ridgeway, ten miles west, re-crossed to the American side early Sunday morning, losing several hundred as prisoners to the United States naval forces on Lake Erie, and some pickets, who fell into the hands of the Canadians.

The fight near Ridgeway was a brief affair, but while it lasted seems to have been fought with vigor by Gen. O'Neil's men, who by a charge sent the volunteers opposed to them flying in haste. Gen. Peacock with his British regulars, does not appear to have been in the fight. The loss in killed and wounded on both sides was small.

The retrograde movement of the left wing seems to have been followed by a movement of the right wing of the Fenian army which has been concentrating at St. Albans. According to dispatches from British sources, this portion of the invading army threatens Montreal, as bodies of Fenians, it is said, are concentrating in Cornwall, in Upper Canada, 32 miles S. W. of that city.

A proclamation signed by T. W. Sweeney, Major General Commanding Armies of Ireland, was published in New York city, Monday morning. It simply recites the grievances of Ireland and says Canada is the true point of attack for redress; assures the people of Canada that the war is not made upon them, but upon the government ruling over them; and closes with an appeal to the Irishmen, Frenchmen and Americans in the Provinces to rise and aid the effort.

The Fenians are gathering at two or three points near Canada; and the British forces in the Canadas are also in motion.

GOLD, Monday, 140 1-2 to 143 1-2. The gold market has been excited under the influence of the news from Europe. London news to May 25 says the financial news is of a gloomy character, giving evidence that the effects of the recent panic are still at work and producing more disasters in monetary circles. Additional failures are announced, and cotton has declined a penny during the week, while U. S. Five-Twenties had receded to 64 a 64 1-4.

— The Cleveland (Ohio) Herald asserts that the lake steamboats now use fish for fuel. Huge sixty pound sturgeons (which sell at 15 cents per pound) are flung headforemost into the furnace. The oil assists the combustion of the wood, twenty sturgeon being equal to a cord of wood in the production of heat.

— The wife of Wm. Cullen Bryant is dangerously ill at her husband's residence in Roslyn, N. J.

Correspondence of the Chronicle.

BOSTON, June 2.

Messrs. Editors:—The "Sons of Portsmouth" resident in Boston are highly pleased to learn that the "Fourth" is to be celebrated on an extensive scale at "the dearest spot on earth." The truth is that we passionately love the scenes of beauteous "Strawberry Bank," and are glad an unusual incentive presents itself to visit the home of our boyhood, that we may renew our hallowed attachment to its shady streets, its quaint architecture, and its delightful rural aspect. We may not come in a body, as at the grand "reception" in 1853; but each at the instance of his own warm impulse, knowing that our

——"friends of yore
Will greet us gladly as before."

Hundreds of the "Sons" will flock to dear old Portsmouth, to witness your forthcoming public observance of our immortal national holiday, anticipating a grand and jubilant time; because when you at home take hold of the matter in good earnest, you never fail to get up a glorious celebration of Independence.

The new hotel, styled the "Monument House," now in process of erection at Charlestown, will be a truly "Metropolitan affair." Its dimensions are 140x140 feet, six stories high in front and seven in the rear, will contain 300 rooms, and have accommodations for 450 guests. Moses A. Dow, Esq., publisher of the Waverly Magazine, is the enterprising builder; and it is understood that on the completion of this mammoth establishment next spring, Mr. Job Jenness, of Ocean House fame, may become its landlord.

The Anniversary Meetings, which have just closed, have been very well attended; not so largely, however, as in some previous years, owing partly to exhorbitant railroad and hotel rates. But while the attendance has been numerically smaller, yet an unusually large number of clergymen have been present, including several from foreign lands.

The Saturday Evening Gazette, the pioneer of Sunday newspapers in this country, is flourishing beyond all precedent,—deservedly so, for the reason that its contents are eminently rich, racy and readable. "Ben." Shillaber is a "bright particular star" of its large editorial galaxy.

Business in most departments has not been so dull in Boston as it now is, since the financial crisis of 1857. SAUL.

THE GREAT WINE FRAUDS.—It is a great fraud when any one wishes to use pure wine, grape juice and nothing else, to sell or give me vile mixture instead.—And there is another kind of wine fraud, viz: to cheat the U. S. government out of the duty on imported wines. The latter kind is what we speak of now, viz: the Great Wine Frauds at the Boston Custom House.

Ex-Collector Goodrich, in a late pamphlet, has defended himself from the charge of collusion and dishonesty, and in so doing, he shows that a family and firm of eminent wine merchants and importers in Boston have been using false invoices and swearing to the truth of the toughest custom house lies for near twenty years, which transactions commenced in July, 1845, just after Congress changed the duty from forty cents per gallon specific to forty per cent. *ad valorem*.

He proves the frauds by the firm's correspondence with European wine merchants. Boston firm writes—"But, in order to be prepared for any accident, you had better invoice this shipment at as low a rate as your conscience will allow you to swear to it, because it must be accompanied by a consular certificate." Instructions were given in the letter for R. to make invoices as consignments, although the wines had been actually purchased. In reply to a letter from W. & Co., R. writes on October 14, 1846, that he had made a "*fictitious invoice*" "*according to your instructions*," by which the cost of the wine was fixed at $5.58 per basket, instead of $9 and $10, the price actually paid, less charges! In November, 1857, W. wrote to R.: "In your future shipmennts, we think it best that you should send only the invoice for the Custom House, and make no reference in your letters to any other price, but simply say in your letters that you inclose to us the invoice of the wine, with consular certificates, &c., shipped on your account according to existing agreement." Mr. Goodrich says "from that time to 1865, no other invoice than the fictitious one made for use at the Custom House, was sent. For nearly nineteen years the system of fraud thus inaugurated ran smoothly.

When the thing leaked out, Government seemed to have a claim of $2,200,000; but a statute of limitation cut off all but five years,—and cut the claim down to about $500,000. After a long bargaining and pleading in Boston and Washington, it was settled at the latter place May 6, 1865,—that $100,000 should be paid, as a *compromise*,—and this sum was paid to Mr. Goodrich in Boston, May 8, 1865.

— It is estimated that Mrs. Jeff. Davis would like to have Jeff. removed to a more fashionable place than Fort Monroe; perhaps Saratoga, Newport, or some other noted watering place.

LEAD POISON.—A few days ago, a little item came over the wires, stating that in a rural district in New York, 200 persons had been poisoned by lead mingled with flour. we could not imagine how it was done so extensively. But it is all plain now, and some of the particulars are worth publishing.

About two months ago the people of Middleton, in Walkill Valley, Orange county, New York, were attacked with a disease which baffled the physicians, and appeared to exhibit positive symptoms of lead poisoning, yet the sufferers denied they had eaten anything contaminated with lead.

The physicians were puzzled to determine the cause of the disease, but the symptom which was regarded as conclusive that lead was the cause, was the blue line at the margin of the teeth, in almost every case.

It was found the lead was conveyed into the stomachs of the sufferers by bread made of flour and meal, and as a great part of those staples were manufactured at the mill of a Mr. Marsh, at Philipsburg, an investigation was made, and the facts were elicited, greatly to the suprise of every one, the miller himself included.

Mr. Marsh had gained an enviable notoriety for the superior quality of his flour, and the farmers for miles around were in the habit of bringing their wheat and corn to his mill to be made into flour and meal. Aside from this he exported largely, so that his mill, which has four run of stone, was kept constantly going—night and day. One set of stones was set apart for "custom" work. This was an old set, constantly needing repairs, and large cavities *frequently* manifested themselves, which, instead of being filled up with the cement generally used for that purpose, were filled with common lead. Some of these holes were as large as a hen's egg, one as large as the palm of a man's hand. If, when filled, the lead projected above the surface of the stone, it was hammered down level, and the mill set in very rapid motion. The attrition caused by velocity detached particles of lead from the stone and mingled them almost imperceptibly with the flour. Each moment increased the amount, so that to every pound of flour there was enough lead imparted to make a small buckshot.

The lead when fermented and subjected to the baking process, was transformed into carbonate of lead—the deadliest of all lead poisons. Bread of this kind was little better than bread spread with white lead for butter.

Were it not for the fact that the lead was taken in such large quantities as to produce a counter state of action, hundreds would have died before the cause was discovered.

Samples of the flour were analyzed, lead was discovered in large quantities, and in many cases could be seen by the naked eye. As soon as these facts became known, a general panic was the result, the mill ceased running, and those who had obtained flour of Mr. Marsh returned it to him, but the poison had been sown at an alarming rate through a radius of from twenty to thirty miles.

In the town and vicinity of Middleton 218 cases of this malady happened, besides about 100 more at Goshen, a few miles off. "A great many children have died. Scores of men who a few weeks ago were in the full enjoyment of health and strength are ruined for life, and totter to and fro, their faces having the appearance of dry parchment; their eyes sunken and encircled by a dark ring; their lips blue, their muscles contracted and their limbs distorted; for them to move is intense pain; relapse follows relapse, till in time they succumb to the effects of this fearful malady."

☞ There is a book written by Mr. Leitch Ritchie, called the Romance of History. There is a school of historians who like the romantic incidents of history, and give great weight sometimes to its trifles. The story of Joseph Kommissaroff who has just saved the Czar Alexander from assassination will long live in their pages. He went out, a journeyman hatter, to take a walk on his birth day, and at night he went home to his young, peasant wife and little daughter, a nobleman, and immortal. This beats Lord Byron's waking up in the morning to find himself famous. It is quick and easy making one's fortune, if only you hit on the nick of time, especially if you can stumble in the way of an assassin and an Emperor.—*Providence Journal.*

☞ With the exception of the Departments of Texas and Arkansas, the Commissionerships of the Freedmen's Bureau have been placed in charge of the several district military commandants. This change has been made at the request of Gen. Howard; and in the detailing of military commanders throughout the South, in accordance with this new arrangement, Gen. Grant has so far expressed his approval of Gen. Howard's officers as to give entire military charge in their respective States to former Assistant Commissioners.

— Col. O'Neil, "Commander-in-Chief of the Irish Republic in Canada," is the same officer who captured the guerrilla John Morgan, during his Ohio raid, and he has the guerrilla's sword in his possession. This sword was given to Morgan by some British symthizers with the late rebellion, and it is now being used against the British authorities of Canada.

HOW CAMBRIDGE WAS ESTIMATED AMONG THE WHITE HILLS.—Prof. Felton relates a very amusing story of an excursion which he made to the White Mountains. The party consisted of himself, Prof. Agassiz the naturalist, Peirce the mathematician, and four or five other scientific friends. As they wound their way up a steep ascent, the gentlemen left the carriage, and, walking along through the fields by the roadside, examined such objects as they found interesting. One took out a hammer, and pegged away upon some mineralogical specimen; another collected rare plants and flowers. When they returned to the coach they were all laden with the treasures which they had acquired, and with which they were delighted. One had a handful of stones, and the others had either wild flowers, moths, beetles, or caterpillars pinned in great quantities upon their coat-lappels. Mr. Felton, alone, sat in the coach perusing a favorite Greek author, whose style proved more attractive to him than the uncongenial exercise of butterfly hunting.

"Who are those fellows?" asked the coachman, on their third *sortie* from the coach in quest of new objects of interest. "They are a party of naturalists," said the professor, wishing not to be interrupted. "Ah!" replied he, with a wiseacre look, "that accounts for it, poor fellows!"

A few days afterwards the party was increased by the arrival, at the Mountain House, of a gentleman and lady, the former of whom told Felton that he had been driven there by the same coachman who had brought up his party, and a very pretty character he gives you. "Last Thursday," said he, "I drove up a set of the queerest-acting fellows I ever saw — they were dressed like gentlemen, and were all of them thirty-five or forty years of age; but they kept jumping out of the coach, and, like children five or six years of age, run about the fields chasing after butterflies and insects, which they stuck all over their clothes. Their *keeper* told me they *was naturals*; and judging by their conduct, I should say they was."—*Artist Life in Italy.*

WHY DO SUMMER ROSES FADE?—This vexed question is disposed of by "Bricks," in the Mississippi Clarion, who suggests that they have got in the habit of it, and having made a reputation for fading, don't care to spoil a lot of very sentimental songs by conducting themselves differently.

DENTISTRY:
—AT—
No. 5 Daniel Street.
Some of the Advantages of Consulting Dr. Stevens.
Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.
They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.
The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.
DR. STEVENS never uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.
Dentistry, medically considered, is a speciality at this office.
Painful Teeth treated and cured.
Ulcerated Teeth treated and saved to a life of usefulness.
Badly decayed and broken Teeth restored to usefulness and beauty.
Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.
☞ DR. T. F. WEED still remains with DR. STEVENS as Assistant. my28

REDUCTION IN PRICE
OF THE
AMERICAN WATCHES.
MADE AT WALTHAM, MASS.
In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed
With Gold at Par,
so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of
More than 200,000 Watches,
have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.
We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:
1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &, Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.
The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,
ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED
to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.
CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Perry Davis' Vegetable Pain Killer.
The Great Family Medicine of the Age!
Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.
It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

THE GOODWIN BOY ON A RAID.—It will be recollected that Edwin H. Goodwin, alias "Ep-E-Doo-Dab," who has served out several minor sentences in our county jails, and who confessed to being one of the parties who robbed A. F. Craig on Portsmouth Bridge, and escaped punishment therefor by turning State Evidence, was tried at the late term of the Circuit Court for breaking and entering the Sutler's store at Fort Constitution, found guilty, and sentenced to the Exeter Jail for the short term of three months—this mild sentence being brought about by "crocodile tears," much to the annoyance of the Police Department of the city. The "innocent child," for whom so much sympathy was aroused, in certain quarters, broke jail at Exeter last Thursday. He followed the railroad to near Newmarket Junction, thence took the woods to Wadley's Falls, where he entered a house and stole an overcoat, and shortly after sold it for $2.50, was pinned, gave up the money, played baby, and sympathy again proved triumphant. He next turns up in Biddeford, Me., is arrested per order of Marshal Kent by Officer Works of that city, plays his old game again, and strange as it may seem, is once more set free—the officer being positive that he had the wrong person. He then was tracked to Portland, when he took the back track, and was seen on Sunday between here and Wells, by two gentlemen of this city, who informed Mr. Kent, whereupon he and officer Johnson disguised, went out and met the gentleman of "untainted integrity," and secured him, almost without his knowledge. He was taken to Exeter Jail Monday, and had been there but a few minutes when he attacked the keeper with a knife, the latter barely escaping injury. He is now chained to his cell, and will in all human probability be an inmate of Concord State Prison very shortly after the next term of the Supreme Judicial Court in October, on two charges already preferred against him by Marshal Kent.

ACCIDENTAL INSURANCE.—The most popular insurance of the time is the *Accidental Insurance.* Its advantages cannot be over-estimated. In Boston, New York, Philadelphia and the great West, it is the leading insurance of the day. Men of all classes, high and low, rich and poor, are taking policies varying from $1000 to $10,000. Considerable has been done in Portsmouth, and much more would be, if our people generally only looked into it and saw the advantages it offers. A merchant or clerk, for five dollars, can be insured for one thousand dollars, against accidents of every description, whether travelling by any mode of conveyance, or otherwise. In case of injury, he receives $5 a week compensation for six months, should he be disabled as long as that. Or by paying ten dollars, he is insured for $2000, and $10 a week compensation, and so on. Should the injury prove fatal within three months, his family receive the whole amount of insurance.

The New York Accidental appears to be one of the best Companies on record: within the past year they have insured over a million of dollars in New Hampshire alone, which shows the confidence the people have in this particular Company. John S. Harvey & Son, 47 Congress street, are agents for Portsmouth and vicinity. They have already many insured. Call on them and secure a policy, before you meet with an accident. Policies issued by this Company cover travelling by *any mode* of conveyance, whether for pleasure or business, on land or by water,—or accidents by any means. Policies issued from one day to five years.

For the Chronicle.

JUNE BALL.—The last ball of the season was held in Irving Hall on Friday evening last. The weather being clear and cool, a large party assembled to enjoy a social evening's amusement, and welcome in the summer. At about 9 o'clock, Turner's Quadrille Band struck up one of their choice marches, when all formed in line and marched into the well lighted Ball room. The managers spared no pains to make everything pass off in a pleasant and agreeable manner, and to render comfort and enjoyment to the happy party; the hours flew rapidly by, and all seemed pleased with the proceedings. At nearly three in the morning the Band played the Grand March, when we all broke ranks and took up our line of march for home. SPECTATOR.

☞ The U. S. Senate has just confirmed the nomination of Joseph B. Adams as Postmaster of this city.

☞ The people of Portsmouth are well aware of the fact that we had fine showers of rain all day Monday; and we notice it to let the distant reader know that the "drouth has broke."

☞ "My Vineyard at Lakeview,"—by a Western Grape Grower,—is the title of a neat volume of about 150 pages, just published by Orange Judd & Co., New York city, and for sale in Portsmouth by James F. Shores jr. The book is interesting as a story to be read, and at the same time it is sufficiently plain and full in its directions, to enable any intelligent reader to plant vines and raise grapes. Price of the book $1.25.

A PREDICTION OF THE POPE.—At a recent celebration of a miracle in Rome, the Pope said, in the course of a speech, that the present year would be one of triumph and of brilliant victory over the enemies of the temporal power. "I shall," he remarked, "behold the triumph, and in, 1868, I shall render up my soul to God." This singular prophecy is said to have produced a powerful effect on the audience, some of whom were moved to tears.

— A reception was given to Gen. T. W. Sherman at St. Paul on Monday of last week. About three hundred invited guests were present. Gen. Sherman, in reply to a complimentary toast, took occasion to defend his expedition to the southern coast. He said Port Royal had been denounced as a failure,—but if they were the last words he ever uttered, he would say it was not a failure. No expedition, with the same resources, in the late war, produced one-half its results.

— The ladies, individually and collectively, without a single exception, pronounce Herrick Allen's Gold Medal Soap to be the best and most wholesome article in the market. They say it makes nicer, whiter and lighter Biscuit and Cake, and requiring less shortening, than any other saleratus, and is much better to use with cream tartar than soda. Try it. Most of the Grocers and many of the Druggists sell it, and at wholesale by wholesale Grocers. 95

A SECRET FOR THE PUBLIC.—We have heard of some Dentists who don't approve of Sozodont. What is their real objection to it? Simply this, it preserves the teeth; and sordid interests whisper that the decay of the teeth is their bread and butter. Eminent members of the profession in all parts of the country endorse and recommend it. 16

SEEING IS BELIEVING.—If ladies who do not use the fragrant SOZODONT will compare teeth with those who do, they will see in an instant more reasons for adopting it than can be composed into a newspaper paragraph. 15

MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case, and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill.
MARY RAY.
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms. You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
my8ins GEORGE E. MARTIN,
MARY L. MARTIN.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* they furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64...12.96
" " " " " '65...12.16
Ratio of assets to liabilities, Jan. 1, 1865....151.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than another, can yet divide *more* to its members, and *cost them at less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

CHEROKEE CURE,

THE GREAT

INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists, or will be sent, by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Prostatic Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely needed, since almost all suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Blotches, Pimples, Pustules, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Symptoms of Venereal Disease are cleared from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the disease it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly. They are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in Medicine everywhere. my1—3mMTuSu

CHOLERA

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURANET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at Highland, Orange Co., Nos. 298, 300, and 302 Henry street, N. Y.—Office, 42 Cedar street.

The Company organized on a permanent basis, with Couranet, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish the Disinfecting Fluids for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public assemblies, also for slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfect the atmosphere of all still greater evils. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* and *pleasant* ones. They are DESTROYERS, and *merely transmitters* of poisonous gases—not injurious to utensils in which they are used. The attention of medical men is especially invited to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

NEW YORK, APRIL 6, 1866.

To the President of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have used many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROSSELL & CO.

NEW YORK, APRIL 6, 1866.

To the President of the New York Disinfecting Co:

Dear Sir: We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

C. A. STETSON, Astor House.

— The editor of Hall's Journal of Health says that if he were attacked with undisputed cholera, he would do four things: "First, lie down; second, eat ice, if thirsty; third, bind a piece of woolen flannel tightly around the abdomen; fourth, take calomel."

— Secretary Harlan's letter to the serenaders, reminds the Detroit Post of two boys who once dug for a wood-chuck, without knowing the animal was at home. After digging away without achieving any result, one of the lads thrust his arm down the hole, when the wood chuck seized his finger and bit it to the bone, eliciting a yell that would have done honor to an Indian warrior. "What's the matter, Joe?" said Jim. "Thunder and lightning!" returned Joe, flourishing his mutilated member vigorously, "*he's there!*"

— A child born at Pittsfield, last week, has eleven grandparents living: has one grandfather, two grandmothers, two great grandfathers, four great grandmothers, one great great grandfather, and one great great grandmother.

— A youngster who cut a belt in one of the Taunton mills in order to stop it so that he could have time to visit the circus, has had twenty days imprisonment for his pains.

— The noblest question in the world is, What good can I do in it?

Great National Work,
THE
STANDARD HISTORY of the WAR,
Complete in one very large Volume of over 1,000 pages,
Splendidly Illustrated with over 150 Fine Portraits of Generals, Battle Scenes, Maps and Diagrams.
In the selection of matter for this great work the author has confined himself strictly to *official data* derived from the reports of Northern and Southern Generals, the reports of the Committees on the Conduct of the War, National and Rebel Archives, etc.
He has carefully avoided the introduction of any matter not strictly *reliable* and *official*, and has succeeded in producing what is universally demanded, a *fair* and *impartial* History of the War. The great superiority of this work over all others is everywhere acknowledged. It is marked by a degree of thoroughness and accuracy attempted by no contemporary.
Disabled officers and soldiers, teachers, energetic young men, and all in want of profitable employment, should send at once for circulars, and see why it sells faster and gives better satisfaction than any other History published. Address, JONES BROTHERS & CO., 14 Phœnix Building, Boston.

WEDNESDAY, JUNE 6, 1866.

THE STATE.—The Great and General Court of New Hampshire will assemble at the new State Capitol in Concord to-day, June 6th. On Thursday, will occur the inauguration ceremonies of His Excellency Governor Smyth, who will then be a second time induced into an office whose responsible duties he has discharged during the past year with the highest rectitude and fidelity. The escort duty will be performed by the new State Militia of New Hampshire, who have volunteered their services in large numbers, and who will be accompanied with bands of music. Several of the ex-Governors, with other past officers of the State, together with other distinguished guests from abroad, will be present upon the occasion. Adding these attractive features to the fact of a general desire to visit the new capitol at Concord, we may reasonably infer that there will be a large attendance upon the approaching Gubernatorial inauguration ceremonies.

IN CONGRESS, on Monday, the session of the Senate was brief, and mainly taken up with the discussion of the constitutional amendment. Messrs. Hendricks, Doolittle and Edmunds were the orators of the occasion, but did not speak at length. It is thought the vote on the passage will be reached about Thursday. Among the Senators still in preparation for speeches on this question, are Messrs. Davis, Poland and Doolittle.

Mr. Van Winkle submitted an amendment that every person not mention or described in sec. 3 of this article, who shall have been engaged in insurrection or rebellion against the United States, and against whom no prosecution for treason has been instituted within —— years, shall, at the expiration of that time, upon taking an oath to support the Constitution of the United States, be exempt from any pains, penalties and liabilities for such participation in the rebellion.

Disagreed to by the following vote:

Yeas—Messrs. Cowan, Davis, Doolittle, Guthrie, Hendricks, Riddle, Van Winkle, Willey—8.

Nays—Messrs. Chandler, Clark, Conness, Cragin, Edmunds, Fessenden, Foster, Grimes, Harris, Henderson, Howard, Howe, Kirkwood, Lane of Indiana, Morgan, Nye, Poland, Pomeroy, Ramsey, Sherman, Stewart, Sumner, Wade, Williams, Wilson and Yates—26.

Mr. Doolittle offered the following as a substitute for the second section:

After the census to be taken in the year 1870, and each succeeding census, representatives shall be apportioned among the several States which may be included within this Union, according to the number in each State of male electors over 21 years of age, qualified by the laws thereof to choose members of the most numerous branch of the Legislature, and direct taxes shall be apportioned among the several States according to the value of the real and personal taxable property, situate in each State, not belonging to the State or to the United States.

The House discussed the Reconstruction bill reported by the Committee of Fifteen. Mr. Wilson made a most telling speech, and took unqualified ground in favor of negro suffrage and against any assumption of State rights.

The House took up the resolution, calling on the President to inform the House whether any of the government employees in the South have in any way countenanced or assisted in the rendition of public honors to any of the rebel traitors either living or dead, and also whether the privilege of honoring the graves of Union soldiers has been in any instance denied by the rebel authorities with the acquiescence of the officers of this government. The resolution was agreed to—yeas 73, nays 30.

☞ At New Orleans, June 4, the ship Artizan, loading for Boston with 7000 bales of cotton, was struck by lightning and partially destroyed. The vessel afterwards sunk. The estimated value of the cargo was $400,000.

The details of the overflow of Alexandria are heart rending—the people were driven to rafts for protection. An immense amount of property was destroyed. No relief is possible till the flood subsides.

The floods in Texas have devastated all bottom lands, and injured the crops extensively. The crevasse below N. O. is stopped.

— The enforcement of the Sunday Liquor Law in New York has become quite universal, and its good effects are clearly seen. The arrests are very few, the saloons are kept closed, and the number of violations of the law very small. However, the police are active in suppressing the traffic. Last Sunday, owing partly to the storm, was the quietest which the city enjoyed for a long time.

☞ The conclusion laid down long ago by Dr. Franklin, that the day should be divided into three parts—eight hours for labor, eight for study, recreation, and social intercourse, and eight for sleep: is about the same as the Free Mason's idea.

From the Chicago Sunday School Teacher.

A QUEER OLD LADY.

BY JOHN TODD, D. D

How different people appear at different times, as when we are sick or well, rejoicing or mourning, laughing or weeping. A few days since, I met an old lady, who nodded very familiarly to me, and yet, I hesitated to call her by name lest I should miscall it. She looked old, and yet young; soft and smiling, and yet wore a stern front. She was fair in the face, yet her hands were iron. It seemed as if the winds would blow her away, and yet she moved with the strength of an elephant.

"Why sir," said she, "you seem to stare at me, though you have seen me a thousand times before."

"That may be, madam; but I never saw you so loaded down with all sorts of things. I am curious to know about them. Would it be rude if I should ask you a few questions?"

"Not at all. Ask away."

"Well, what are you going to do with those small, thin, ladies' shoes?"

"Why, make the ladies wear them, to be sure."

"Not in this cold, wet season! Why, I can hardly keep my feet warm in these thick double soled boots. I must have overshoes. How can they wear such thin, cold-catching shoes?"

"Oh, sir, I have only to bring them to them, and the dear creatures put them on, and never hesitate a moment. They know me!"

"And those little half-dresses, hanging on your arm?"

"They are to put on little children in cold weather, or to walk out in—naked at the knees, naked at the neck, and hardly covering half the body. You cant' think how eager parents are for these dresses."

"What have you in this little tin box?"

"Lozenges, sir; troches, hoar-hound candy—things that always go with thin shoes and thin dresses. And this bright, red box, sir, contains what is called 'conscience salve' which I always keep on hand to rub on the conscience when any one feels that he has done wrong in obeying me. It's in great demand, sir, and a certain cure."

"What have you in that bundle, madam?"

"This? Why, a few knick-knacks, which I sometimes distribute in Sabbath schools, in the shape of dialogues, speeches, &c., things to make people laugh, and to prevent the school from feeling too serious or thinking too much about religion. You must understand, sir, that I have continually to attend church, to regulate things there, and see that the bonnets are right, the rings are bright, and the dresses are complete; yet religion itself I hate as poison! And here is the box of the finest—what shall I call it? It is a sort of wit and smartness, which I deal out to preachers, with which they spice their sermons, and become popular. I sell them by the gross. They are growing in demand, and they are a real saving of conscience and heart-ache. Warranted to keep in any climate, a kind of sensation powder."

"Pray, madam, what are those screws for?"

"Why, to pinch the feet, and make them look small, without regard to corns and bunions. They can't wear those little, dear little shoes, except you have the pinchers to go with them."

"And that great heap of books in your arms?"

"Those! They are the latest, most exciting, and the weakest, most silly novels. But I hand them out, and shake my head with a smile, and crowds read them."

"Well, madam, I'm very inquisitive, I know, but I do not want to know what you have in that great bag thrown over your shoulder."

"A great variety of valuables—such things as 'late suppers'—in great demand, and which send people to the grave early, and thus make room for more. Then there are 'late hours,' and 'late rising,' and all manner of hair-dressing, and expensive dressing—things that ladies must have, even if their husbands fail. Here are diamond pins and rings—just the thing to stir up envy and create extravagance. Here are gold watches, cigars, meerschaum pipes, gold-headed canes, eye-glasses, and all manner of things to suit all manner of people. And I laugh and coax, and frown and command, till I get them to wear and use them, and do just what I please. Now, I have stopped to talk with you a few moments; don't you see what a crowd have gathered around me—low necks, thin shoes, muslin dresses, tight boots; some on crutches, some coughing, some breathing short, all crowding to get near me; and when I move, you will see how they all run and rush, and crowd after me. Oh, sir, I am the great power of the world. I rule kings and queens, beggars and philosophers. Don't you see?"

"Truly, madam, truly. And now may I ask your name?"

"Name! FASHION, sir; my name is MRS. PREVAILING FASHION! I thought everybody knew me!"

☞ Rev. Mr. Walton, of the Third Parish in Portland, informed his hearers on Sunday last that he could no longer act as their pastor, as the Church (by their recent vote) had decided that they did not wish him to remain. The Portland papers say that three fourths of the Parish desired his stay. His heresy consisted in *doubting* whether the misery of the wicked is to be endless, or whether they will be annihilated. For this doubt the Councils declined to instal him, tho' Church and Parish chose him. But now the Church has split on a very small rock, viz., the question between one sermon a day or two. This was the question on which the *vote* was taken; but we presume the *real* reason why the church so voted was the fear of being placed under the ban of the Associations or Conferences to which they belong, if they countenance a heretic. The pastor says he felt bound by their action: and his course therein shows his delicacy of feeling. He is said to be an able, earnest, fervent man; and his removal is regretted by the Portland papers.

THE PRIZE SERIES.—VICTORY.

"O prisoners in your house of pain,
Dumb, toiling millions, bought and sold,
Look! stretched o'er Southern vale and plain,
The Lord's delivering hand behold!"

Boston: published by R. A. Ballou. 12mo., pp. 304.

We have read this new book through, with no little satisfaction. Indeed, it is much easier to read on than it is to stop. The author undertook to weave the progress of American thought, during the late war, into a story; and the effort is crowned with success. The hero of the tale, Warren Watts, was an enlisted Volunteer Patriot in the United States Army,—a prisoner in the first battle at Bull Run; he became sick in the Libby Prison, and in the delirium of fever was removed to a hospital, where his soldier nurse gladly resigned him into the hands of the heroine, Bell Winston, a Richmond girl, the daughter of a Virginian sire, and of a deceased New England mother, who had been charmed by visions of Southern life, but sadly disappointed in its reality.

Besides these principal characters, we are introduced to Col. Winston, Bell's father, who is largely indebted to Madbury, a rich and noted slave-trader, and who is willing that Bell should become his wife, but does not succeed in getting her consent to the match. Madbury figures largely in the drama; and so do the negroes, free and slave, in the various kidnappings, sales, escapes and rescues. Warran has a sister Mary in New England; and Bell has an Aunt Mary in Newberne, Mrs. Denton.—These characters, and a good number more preserve their identity throughout.

Warren Watts, twice a prisoner, and once severely wounded, rises by merit and action to be a Captain and then a Colonel, enters Richmond, finds Bell in Pompey's hut,—has a short walk and a long talk with her,—and at the end is going to Newberne to bring her to New England.

The Warp of the story, of which we give here only a few threads, is nicely filled with such incidents, as not only *might* happen, but as actually *have happened* in our civil war. And the whole book is so readable and at the same time so instructive, that we fully endorse the Committee's unanimous decision, to award the first premium to the unknown author. It will be read with the same kind of interest that held the readers to Uncle Tom's Cabin, and caused many persons to take their first steps toward the relief of the oppressed. We hope this new book will induce as many or more, to take another step in the same direction, and march up to line of justice and equity.

U. S.

☞ The latest news from Europe looks somewhat warlike; failures in England continue, and financial matters are bluish.

— The J. Monroe Taylor Gold Medal Soap is so far ahead of any and all other soaps in the market, the other manufacturers who are attempting to imitate him, need not hope to succeed. It is the only soap that has the confidence of the consumer. It is a treasure beyond value, and we heartily wish the manufacturer success, and, from its large sale, we should think he was enjoying all we wished him. 96.

— To preserve your health, cleanse your blood when it becomes vitiated and foul.—Many are the symptoms which sound the note of alarm. Fail not to heed them. Indigestion, nausea, lassitude, headache, wandering pains, bilious and eruptive affections, are so many signals to tell you of disease in the blood. Remove it, and they disappear. How? Take AYER'S COMPOUND EXTRACT OF SARSAPARILLA. It is effectual for its purpose; purifies the blood, expels disease and restores the deranged functions of the body to their healthy action.—*Corydon (Ind.) Argus.*

FISHING LICENSE.—The British Minister at Washington has sent a note to the U. S. Department, saying, "I have the honor to inform you that the government of Canada have authorized R. Porter, Esq., Magistrate commanding the government vessel La Canadianie, employed in protecting the fisheries of Canada, to issue fishing licenses on payment of fifty cents per ton of measurement of the vessels proposed to be used in the fishing. The licenses will remain in force during the season, and will confer upon the holders, as far as the Canadian fisheries are concerned, all the rights enjoyed by the fishermen of the United States under the Reciprocity treaty. This measure is of a provisional nature."

THE SWEET POTATO CROP.—A correspondent at Vineland, N. J., contradicts the report that the sweet potato crop in that vicinity had been badly injured by the frost. He says the frost did very little damage, and that not five per cent. of the sweet potato plants were damaged, and those only in a few places.

To the Public.

Having thoughtlessly and wrongfully caused to be published in "*The Criminal Life*" of the 9th inst accusations against two young ladies of this town—R. SANBORN and N. LEWIS—I do now as an act of justice to them, and as a voluntary token of my penitence for the wrong done to Miss Sanborn and Miss Lewis,—state to the public that there was not, and is not, the slightest foundation for said accusation, and that I know nothing to the prejudice of either of the young ladies above named; and I deeply regret that I have done an act calculated to wound their feelings and the feelings of their families and friends.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Nothing producing effects contrary to nature's chosen laws will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weak nesses. Price $1.50 per bottle.

Sold by Druggists everywhere.

DENTISTRY!

—AT—

No. 5 Daniel Street.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Perry Davis' Vegetable Pain Killer.

The Great Family Medicine of the Age!

Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. je1-dawlm

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

☞ An additional incentive to the citizen's of Portsmouth to get up a good Celebration for "The Fourth," should be found in the fact that this will probably be the *only* public festive day for the season. It had been proposed to hold the County Fair here next Fall, but the members from the rural districts have decided to hold it in Exeter—on the 12th, 13th and 14th of September.

☞ The first Public Concert by the Portsmouth Cornet Band will be given Thursday evening, June 7th, weather permitting. It will be seen by their programme in another column, that we are to have a first class concert. We are glad to know that our citizens are at last moving in this matter. We ought to have had them every season.

☞ The Prices Current last week quoted butter at 30 to 35 cents per pound; but while our dealers at the stores sold at about these figures for prime quality, we are told that some small manufacturers from the rural districts, did not find out that the price had gone down, but in their trades about town, received from 40 to 45 cents at the doors of customers.

☞ Quite a number of our citizens were at the Concord Depot yesterday, P. M., to "see off" the members elect of the General Court, which assembles at Concord to day. And many more of the "Third House" accompanied them to Concord.

☞ Gen. Gilman Marston, M. C., arrived from Washington, at Exeter, on Saturday last. At the funeral of the lamented Gen. Scott he was relieved of his watch by pickpockets.

Communication.

PROGRESS.—I was pleased to find in my last week's ramble a disposition on the part of Superintendent Philbrick, of the City Farm, to carry out the plans of the late Superintendent, in finishing up the small portion of Myrtle street, which remained unfinished by him, and has put the street in good traveling order. I was also gratified that the City Council bore in mind, in their appropriations, Mr. Norton's recommendation to have a new orchard set out at the Farm, for which he prepared the ground last Fall. TRAVELLER.

FACTS FOR THE PEOPLE.—Every age and generation has its great men and great events. Greece and Rome, their orators; England, France and America, their generals, philosophers and statesmen, around the memory of which, in after years, those of less magnitude revolve as their solar. And women, also, that are noble, great and good, as mothers, poets, philanthropists, teachers and physicians. Of the latter class, Madame Manchester, of our city, stands pre-eminent.

Madame M. came to this State about five years ago. None other of her sex having preceded her in the profession, therefore great prejudice was entertained against her abilities and qualifications as a physician; but she has stood the test well, with great credit to the profession and to her sex. She has also proved herself to be a woman of education, courtesy, benevolence, and highly talented in the general business of life, where she is ever found prompt, reliable and efficient. Not one among us has ever had the success to so great a degree of curing diseases as Madame M. She has but few equals and no superior, neither in her public life nor her private reputation. Her mode of practice seems to differ from the general rule, while she cleanses the blood from all impurities with vegetable medicines of her own preparing; the patient is thus reliably cured, on a basis that all diseases, directly or indirectly, arise from humor or deranged state of the blood and bile. The locality and appointments about her, give every evidence of a great share of public confidence and patronage, with profit and general acceptance.—*Portland Transcript.*

IN CANADA, the British authorities are strengthening their military, and watching the Fenians. Large bodies of the latter are close to the Canada line at several points. U. S. forces are also gathering near the line. The Fenians intended an attack at some point Monday night.

The British Minister made the request of Secretary Seward that the Fenians captured by the U. S. steamer Michigan be turned over to the Canadian authorities.—The request was denied. No conclusion has been reached as to the disposition to be made of them, but it is not improbable that they will be tried for violating the neutrality laws.

Tuesday's dispatches from Buffalo state another Fenian was to be shot at Fort Erie that morning. A large quantity of arms was seized yesterday.

Special dispatches from Antwerp, New York, state that the Fenians are moving from Malone and are said to have artillery.

A Montreal special says all is quiet at 7 P. M., Monday, on the Plattsburg border and vicinity. A meeting was held in Montreal to organize home guards. A large number of Fenians spies are in Montreal. The mayor has compelled the police to take the oath of allegiance. A number refused, and were dismissed.

It is now thought that the Fenians will make a stand, if any where, at or near Cornwall, and there may be a collision any moment. The Canadian forces are very strong there.

A Montreal dispatch of Tuesday says 100 Fenian prisoners are in jail.

CLAIRVOYANT!

ECLECTIC PHYSICIAN!

From 613 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January in a very singular manner. We called in one of the best physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a Snake in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have improved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer you visited to me with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and also said there was a number of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E MARTIN,
my8ins MARY L. MARTIN.

CHOLERA! CHOLERA!
Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizing Agent by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Sick Chambers, Drains, Cess-pools, &c., cannot be surpassed.

Desirable Residence at the West End,
AT AUCTION.

Will be sold at Auction,
on the premises,
On SATURDAY, June 9, at 12 o'clk noon,

The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, in a thorough manner, by the day, of the best materials; contains 10 well-arranged Rooms and 13 closets. In the yard is a small STABLE. Are sold only because the owner having removed to another house, has no further use for them.

The premises are situated in an excellent neighborhood, where the houses are owned by the occupants—while far enough from Islington street to be free from dust, a good view of that street is had from the house.

Adjoining is a LOT OF LAND, fronting 39½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?

Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....151.85

The inevitable conclusion from these official acts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,

78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal advice and opinions rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, and ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other agency are patents secured the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All' accustomed to a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure to them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on inventors' behalf applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. Perry, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by R. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Cures all diseases caused by solitude, viz:—*Spermatorrhœa, Seminal Weakness, Night-Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of self-indulgence.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " $2, " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make more profit in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely sealed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an efficient antidote for the diseases Sarsaparilla is used to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and for such this compound will prove a boon they must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do all that has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, or Kings Evil, Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Scaly Skin, Worm, &c.

Syphilis, or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OR SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER's—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family PHYSIC.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. myl—6mMTuso

Daily Morning Chronicle

VOL. XXVIII. PORTSMOUTH, N. H. THURSDAY, JUNE 7, 1866. No. 134.

The Chronicle.

TWO SERMONS ON ONE?—The Portland Advertiser says that Rev. Mr. Walker, of the State Street Church in that city, says that a two years' trial of the practice of having but one sermon a day on the Sabbath, and devoting the afternoon to the Sabbath school, has fully satisfied him and his congregation that the system is the best for the pastor and the pews. His only objection to the system, and one which is leading him to think of going back again, is the fact that other churches cling to the old system. If all would adopt the new system, and give it a year's trial, he is confident that not one would ever return to the old plan of two set sermons.

For the last four or five years, Rev. Lucius Alden, of New Castle, has delivered a Sermon on Sunday afternoon, only, and conducted a good school every Sunday morning, in the Congregational Meeting House. The arrangement has been satisfactory to all concerned, so far as we have heard. The school is a large one for that place, and the morning service is attended by the choir and a portion of the congregation;—the exercises being so arranged and varied as to interest and instruct both youth and age. Morning Chronicle.

Portsmouth N. H.

THURSDAY, JUNE 7, 1866.

JEFF. DAVIS don't seem to be in much danger. The Washington special of the Boston Herald says that on Tuesday, the question of the release of Jeff. Davis on bail was before the Cabinet, and Messrs. O'Conor and Shea are awaiting the decision. It seems to be well understood that the question will be left where it legally belongs, with the Court at Richmond. Judge Underwood, while here Monday, failed to obtain the views of the Government on this point.

[If this be true, it is very curious,—that the same "government," i. e. president and Cabinet, who can tell exactly what Congress ought to do, can't tell exactly what to do or say themselves.]

At Richmond, it appears the Counsel of Jeff. D. are told that he is not in custody of the Court, and therefore they cannot say exactly when he will be tried.

FENIAN AFFAIRS.—The most important news in this line on Wednesday morning, came from Washington, where a Cabinet Council discussed the subject of a Presidential Proclamation about the Fenians and Neutrality, but finally settled in the following order from the Attorney General, to all the District Attorneys and Marshals of the United States.

By the directions of the President you are hereby instructed to cause the arrest of all prominent leaders or conspirators, persons called "Fenians," whom you may have probable cause to believe have been or may be guilty of violations of the neutrality laws of the United States.

This does not agree very well with the assurances which high Fenians professed to have of presidential favor in their projected invasion: but it does agree nicely with the policy of facing both ways, or saying one thing and doing another and an opposite thing.

The Fenians, in all parts of the U. S. are giving their money to the cause, and crowding, as fast as the railroads can carry them, toward the Canada line. And on the other hand, the British Colonial Authorities and Military Officers are mustering their forces for defence.

At St. Albans, Vt. a dispatch, says, large amounts of arms for the use of the Canadian government are allowed to pass without molestation, but all other arms are seized

A dispatch from Buffalo June 5, midnight says, by order of the Government at Washington the Fenian prisoners were released to-night on their own recognizances, and the officers in $500 bail to appear at Canandaigua when required, and subscribe to a pledge that they will not again take up arms in American waters.

☞ Gold in Montreal is said to be "200 per cent. premium." [Does this mean 3 for 1?] There is a money panic and a run on Savings Banks,—all for fear of the Fenians.

THE NEW HAMPSHIRE LEGISLATURE assembled on Wednesday. In the Republican Union Caucus, Austin F. Pike was nominated for Speaker of the House, and of course was re-elected. Chas. B. Shackford was nominated for Clerk; Wm. B. Patten, Assistant Clerk. For President of the Senate, Daniel Barnard; Clerk, H. S. Cummings.

In the House Mr. Pike was elected Speaker, by 206 votes; Page, dem. 107, scat. 3.

In Senate, Mr. Barnard was chosen by 7 votes; Morse, dem. had 3.

IN THE U. S. SENATE, June 5, the reconstruction resolution was taken up.

Mr. Poland spoke; also Messrs. Stewart and Howe:—but no action was taken.

The House considered the bill to reduce and establish the pay of officers and regulate the pay of soldiers of the army After a debate the bill passed—yeas, 83; nays, 39. The pay of enlisted men is the best arrangement we have ever seen: instead of *bounty* in advance, (*alias* a temptation to desert) the man who serves a year gets $1 a month *extra*; two years $2; third $3.—and so on. If he reenlists within 90 days after his time is out, the increase goes on.

The amendment to the Constitution proposed by Mr. Bingham was indefinately postponed on his motion. This looks exactly like business; and as if this business draws toward a close.

The bill authorizing the purchase of League Island was taken up, but not acted on. The Speaker stated that it would continue before the House until disposed of.

SANTA ANNA TO TAKE THE DIRECTION OF AFFAIRS IN MEXICO.—A paper published in St. Thomas states that one of Juarez' ministers has written a letter to the liberal leaders informing them that:

"Juarez, at a council of his ministers, had determined to transfer the direction of affairs to Gen. Santa Anna, who would undertake the political restoration of the country. Santa Anna, it was expected, would call a national convention in order to ascertain the will of the majority of the people regarding the form of government most acceptable to the country."

MARSH, THE MILLER, who made the poisonous flour, has been visited by a reporter for the New York Tribune, who found him ready to answer his enquiries.

Mr. Marsh is a man of about fifty years of age, born in England, and came to this country twelve years ago, with a wife, two sons, and one daughter, having in his purse when he landed exactly eighteen shillings and sixpence sterling. Two years afterwards he arrived at this place and entered this mill, where, by unceasing industry and attention to business, he soon became a favorite.

He has been a miller over 31 years, and although he has heard of lead being used for cementing grist stones, has never known it to injure any one before. He did not use it to any great extent in his mill until the month of February, when the old set of stones became so worn as to require large quantities of lead to fill the cavities which frequently manifested themselves. The proper cement for this purpose is alum, or a compound of alum, sulphur and silver sand; but it does not last as long as lead, and, consequently, is not much used.

He has taken out the fatal stone, and thrown it overboard. None of the miller's family have been affected by eating bread made from flour said to have been taken at random from the mill. They would not, of course, take the flour of a customer,—but from the general stock.

As soon as it was positively known that the lead was the cause, the set of stones containing it were at once stopped, and every effort was made by Mr. Marsh to call in all the flour which had been ground on that stone. This amounted to 64 barrels, which were sent to Capt. Corwin, the Middleton agent of Mr. Marsh, with instructions to dispose of it to starch manufacturers in the city of New York. Mr. Marsh is unable to state positively that the flour has been used for that purpose, as it was sold at about $4.50 per barrel. It is possible it may have been re-packed, and may be at this time being sold for XXX Family Flour, and it may be well for the Board of Health to make diligent inquiry into the facts of the case. There are now several cases of lead-poisoning in New York, and the afflicted persons are known to have partaken of *this* flour. It is highly important that these sixty-four barrels should be traced from the mill either to the starch-factory or the storehouse, and great care should be taken that it does not fall into the hands of unscrupulous parties who would sell it for eating purposes.

Against the miller there are suits now pending to the amount of $12,000, and more are coming in almost daily. The old miller is almost frantic, for between the talk of the country for miles around and suffering of hundreds of human beings, a strong pull is likely to be made on his purse. He says: "I am ruined for life; it is preying on my mind, and I cannot eat or sleep. I am innocent of willfully doing a wrong, and many of the sufferers are my best friends. The work of years is undone, and I scarce know what to do or how to appease the anger of the people."

His business is almost broken up, and only one set of stones are running; yet, he says, many of his old customers are coming back, although the majority distrust him.

Had Marsh put in new stones, and not used the old ones until they required such extensive repairs, probably this terrible malady would have been averted; yet a new stone was lying by the door, which had on its face a hole, to fill which with lead would require about half a pound. The face of this cavity was fully as large as a hen's egg, and Mr. Marsh assured me that after it had been in use for a time there would be many just like that one, and that millers in general throughout the country were in the habit of using lead as a cement for grist stones. If this be true, measures should be at once taken to prohibit its use about all mills.

A family named Brundage, some of the members of which worked in the mill, have been seriously affected, and Mr. Brundage claims $750 damages. If we understood correctly, he was the person who urged the use of lead.

There is no question but that Mr. Marsh was entirely ignorant of the poisonous properties of lead.

This should be a warning to millers and a caution to the buyers and consumers of flour, and physicians and Boards of Health should examine all the flour mills of the country, and by so doing prevent the recurrence of such cases as we have recorded.

INTERESTING TO COAL CONSUMERS.—The Philadelphia Bulletin says the shipments of coal from the different mining regions of Pennsylvania, for the current year, amount thus far to 4,145,140 tons, being an increase of 1,278,977 tons over last year, at the same date. The coal shipped last week was worth about two millions of dollars, and that of the year, thus far, about twenty-five millions. The abundant supply ought to bring prices down; but as there is a probability of an increase of the tolls on the principal transporting lines on the 1st of July, consumers had better lay in their supplies this month.

COWARDLY CONDUCT.—Cattle-stabbing in Durham, Me., continues; and the Lewiston Journal hints that this cowardly process is managed by the copperheads, in order to annoy the Union men of the town. Should any of the depredators be caught, prompt justice would assuredly be executed on them.

☞ At a recent meeting of the Washington Artillery Relief Association, in New Orleans, the names of four out of the five Vice Presidents chosen were Battles, Squires Knight and Hero—an appropriate list for a military organization.

☞ A great New England Methodist Convention is in session in Boston this week.

Correspondence of the Chronicle.

FLORENCE, MASS., June 4.

With the pioneers of civilization at the present day are always to be found the attaches of the press, and as their steps are to serve as landmarks for those who follow, so they may be found setting up beacons and buoys for the main army of pleasure-seekers, as well as for those who seek the reclamation of the wilderness. Thus they inaugurate the season of travel; and the opening of summer resorts, at seaside or mountain, by lake or island, are duly heralded in the public prints.

Spending a day in New Haven, admiring its elm-shaded streets, paying obeisance to old Yale, wondering at its busy machine shops, and charmed by its beauty as a whole, your correspondent left it with regret, to seek new fields up the Valley of the Connecticut. The observer will find much to interest on the line of the New Haven, Hartford and Springfield railroad.—flourishing towns, pretty bits of landscape, meadow and mountain, brook and river, and withal a nicely equipped road.

One misses the military element so predominant in railway travel a year ago, and tales of individual prowess no longer are noisily spouted forth to astonish the multitude in the public conveyance; battles have given way to burglaries; forgeries have superseded forays; and the man who slew his thousands is eclipsed by the man who has stolen his hundreds of thousands. Passengers suspiciously eye the fellow traveller who occupies a seat with them, with a hope of discovering his moral character. If he is well dressed, that will go a great way toward condemning him as a pickpocket; and if he be clad poorly, he is shrunk from as a moral leper—so make your own choice of traveling costume.

A visit to the top of Mount Holyoke a day or two since was productive of much pleasure, showing one of those fairy pictures which we are allowed to enjoy through the beneficence of that greatest of all artists—Nature. Beautiful as the same scene had lain before me in the glory of its gorgeous autumnal coloring, a more charming landscape it was with its dress of tender green. The broad flat intervale, checked off into plats of green and brown; the noble Connecticut, winding its mazy course through the valley, glistening in the bright sunshine, and disappearing in the gorge between Mt. Tom and Mt. Holyoke; the old wood, redolent with blossoms and flowers, and resonant with the trill and twitter of birds, was a pastoral sermon that should bring joy and peace to the mind wearied by turmoil and care.

This little village grows apace. New houses are springing up, and large additions are being made to the works of the Florence Sewing Machine Co.'s works, for which favorite sewing machine Mr. Cobb is the agent in your city. ION.

SEVERE HAIL STORM.—The Concord Monitor, in speaking of the severe hail storm which passed over Fisherville, East Concord, Chichester, and the Plains, Saturday evening at about 7 o'clock, says:

The track of the storm was from a mile and a half to two miles wide, and that it lasted for nearly fifteen minutes. Trees were completely stripped of foliage, blossoms, and in many cases almost denuded of bark. Grass was wiped out as if by the passage of an army of cavalry. All the glass exposed was destroyed and on the windward side of the houses the storm drove in and ruined curtains, carpets, plastering and paper. Planted fields of corn and potatoes were washed out and many farmers are replanting them. Cattle that were exposed were injured so that it was feared they would be lost, and those in the barns were nearly frightened to death. Several barns were blown down and the fences were strewn over the fields.

The barn of Mr. William Frost was blown down and one cow and two sheep were killed. A barn belonging to S. H. Dumas was also blown down. Mr. Haines measured some of the hailstones eighteen hours after the storm was over, and found some of two and a half inches in circumference. A drift of the hailstones an hour after the shower, measured fourteen inches deep.

Charles Eastman, Esq., states that on Sunday morning, as he was going to Pittsfield in company with Rev. Dr. Eames, he found heaps of hailstones beside the road that were two feet deep, and stones the size of a pigeon's egg.

A correspondent at Concord, writing Monday afternoon, says:

A gentleman has just passed my house with a bushel of hailstones that fell day before yesterday, two miles east of here, and they are now larger than common walnuts. Under a single tree the hailstones fell to the depth of thirteen inches.

NEW HAMPSHIRE ITEMS.

—— A new company of New Hampshire Volunteer State Militia (Infantry) located at Hooksett, is called the "Hooksett Light Infantry." George L. Head is Captain.

—— Patrick Cline, a traveling umbrella mender, who has only one eye, is under arrest in Manchester, for stealing clothes from houses where he has been in to ply his trade. Moral: send your umbrellas to the regular repair shop,—and discountenance the tramper.

☞ Hall's Journal of Health, for June, contains a good essay on Cholera, and fourteen seasonable health tracts.

☞ Among the enterprising young firms in New York we are pleased to notice that of Messrs. Paine, Berry & Co., on Franklin street. Although confining themselves to a specialty—men's woolens and cloakings—their sales last year were over $3,000,000, and this year are far in advance for the proportionate time that has expired. Besides their host of salesmen and clerks, they have a telegraph office in their salesroom, so that the merchant from any part of the country can at once communicate with his house at home. Mr. A. G. Paine, the senior partner in this thriving house, was formerly of the firm of Allen & Paine in this city, a firm that knew the value of printing ink as an auxilliary to trade and were not afraid to use it liberally. Although they are now separated, we are pleased to know of their continued prosperity. Success to them.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES, MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co, of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Perry Davis' Vegetable Pain Killer.

The Great Family Medicine of the Age!

Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

FOURTH OF JULY.—At a meeting held on Tuesday evening last, the following Committees were chosen to perfect arrangements for the forthcoming celebration of Independence:

On Invitations—Wm. H. Siso, J. E. Haw, Alfred Stavers, E. P. Nowell.

On Firemen's Display—John Pindar, Chas. Rook.

On Fireworks—Alfred Stavers, A. P. Stevens, C. L. Tidd.

On Balloon—W. W. Henderson.

On Extra R R. Trains—E. P. Nowell.

On Programme of Procession—C. A. Shannon, C. H. Hayes, D. G. Vaughan, J. H. Jackson.

On Music—A. P. Stevens, Chas. Rook.

On Street Decorations—J. H. Moses, J. H. Jackson, Aaron Young.

On Subscription Fund—W. W. Henderson.

The several Committees appointed on Tuesday evening, together with those previously elected, are requested to meet at the Common Council Room to-morrow (Friday) evening, at 8 o'clock.

☞ There can be no more profitable way of spending public money, than in repairing and grading the streets of our city, as has been done in that line the past two years, to the satisfaction of every one. The finely turned grade lately completed at the eastern end of State street, does credit to the Commissioner Mr. Haines. His work is thorough, and bids fair to stand the wear of time and weather.

☞ At a Parish meeting of St. John's (Episcopal) Church in this city, June 5, a vote was passed to remove the old pews from the church and substitute new ones on a modern plan. They will probably be built and arranged after the style of the Universalist Church in this city.

☞ The machinery for raising water for the Street Sprinkler, from the river, has been located on Pier Wharf, and the business will go into operation as soon as nature has resigned her operations in that line.

☞ An English merchant ship, seldom seen in our harbor, lies at the foot of State street. Her clumsy, behind-the-times appearance stands out in marked contrast with the Yankee ship Simla, moored at the same wharf.

MACKEREL.—Messrs. Marston, Randall & Co., fish dealers, of New York and Boston, and who have a branch establishment in this city,—bought, Tuesday, in the Lower Harbor, sixteen thousand mackerel, for shipment to New York. Their business here is being largely extended.

☞ One or two cases of small pox have made their appearance among the fishing fleet, now lying in the Lower Harbor. One man has been conveyed to the Pest House, and is not expected to live.

☞ A Portsmouth correspondent of the Boston Journal says:

The U. S. steamer Resaca is shortly to arrive here, to receive her spars and armament, having been sent from this station to Washington Navy Yard to receive her engines. It is expected that she will prove a fast vessel. She is to be commanded by Commander Joseph M. Bradford, who was Fleet Captain in Charleston harbor at the capture of that city.

A short time since the Messrs. Tredick of this city ordered the ship Simla from New York to Portsmouth for repairs, the Hon. Secretary of the Navy consenting to the use of the dry dock at the Navy Yard for the purpose. Soon after her arrival here, a delegation of strikers came on from New York to urge upon our mechanics to give up a good job and decline to work on the ship, in order that the men of Gotham might control labor away down East. Our mechanics had too much good sense to listen to any such request, and the ship is being repaired by some of the mechanics who built her.

A large gang of workmen are engaged on her.

GOLD, Wednesday, 144. Favorable advices from Europe caused the slight decline of gold. American securities are a little better in London. Gold sent to Europe Wednesday $3,647,958.

DESTROYING THE CANKER WORMS.—A correspondent writing from Brookline, Mass., gives the following description of what has proved an effectual remedy against the canker worms. The Boston Journal has known it tried by other parties with similar success:

"Each tree was surrounded by a pine board box resting on the ground, about eight inches high and six inches from the tree, the intervening space being tightly packed with tan. On the upper and outer edge is a simple V gutter with a projecting strip over it for a roof. This is filled with coal tar and crude petroleum, to be kept in a liquid state. This row of trees has escaped entirely, whilst the most carefully tarred trees about here have more or less worms, and many are badly eaten.

This contrivance has the merit of great simplicity, durability and cheapness. All the attention requisite is to keep the ditch free from bridges formed by the dead bodies of the beseigers, and to guard the liquid from becoming after a while evaporated to gummines, which does not happen in a long time.

Perhaps not the least advantage of this projection is that, painted a cheap dark brown, it is hardly perceptable at a short distance, and is no disfigurement to garden or orchard."

— Gold Medal Saleratus is making a great sensation among consumers, as they find their health depends upon its use. It will strengthen weak stomachs, cures dyspepsia, save one-half in the quantity of shortening, make one-eighth more Bread, Cakes or Biscuit from the barrel of flour, and withal is perfectly healthy. Try it. The Grocers and Druggists sell it. Depot 112 Liberty street, New York. 96

To the Public.

Having thoughtlessly and wrongfully caused to be published in "*The Criminal Life*" of the 9th inst accusations against two young ladies of this town—N. SANBORN and MIS LEWIS—I do now as an act of justice to them, and as a voluntary token of my penience for the wrong done to Miss Sanborn and Miss Lewis—state to the public that there was not, and is not, the slightest foundation for said accusation, and that I know nothing to the prejudice of either of the young ladies above named; and I deeply regret that I have done an act calculated to wound their feelings and the feelings of their friends.

The Eye, Ear, Catarrh,
—AND—
THROAT!
MRS. MANCHESTER,
The Independent
CLAIRVOYANT!
—AND—
ECLECTIC PHYSICIAN!

From 618 Broadway, New York, has arrived in PORTSMOUTH and taken rooms at the FRANKLIN HOUSE, for a short time only.

A Clear Case of Clairvoyant Sight.

DEAR MADAM:—Permit me to tender you my sincere thanks for the cure you have effected on my child. My daughter, ten years old, was taken sick last January, in a very singular manner. We called in six of the best Physicians in the city; they said the case was a very singular one—they never saw one like it—and came to the conclusion they could not tell what the disease was. Some friends advised that we should call on a Clairvoyant; there being none in Providence that we could rely on, we wrote to Mrs MANCHESTER, in Portland, describing her symptoms. She immediately examined her case and told that she had a tumor in her stomach, told where she had drank it, and that it had been growing, and from the best of her judgement she should think it ten or twelve inches long. I gave the child her prescription; and in a few hours the child ejected the snake alive from the stomach; it was measured and found to be eleven and a half inches long. We have it preserved, that all may see for themselves that this statement is really so. I am confident that the child could not have lived, had it not been for Mrs Manchester, and we feel as though she never could be repaid for her skill. MARY RAY,
GEO. W. RAY.
Providence, R. I., Nov. 10, 1865.

BANGOR, May 15th, 1865.

MRS MANCHESTER—Dear Madam: When you were in Bangor last Summer, I called to see you with a child of mine that had been sick for four years. I had taken her to a number of physicians, and none could tell what ailed her or even her symptoms You examined her case, and told me exactly her symptoms from the commencement of her sickness, which were very peculiar; also told me there was something alive in her, and said you could tell where it was, of them, and told me that she drank them from a rain-water cistern. You said that you would not warrant a cure, but would try and do the best you could for her. She commenced taking your medicine in August last, and from that time till December, the child passed off large quantities of what we call *Tadpoles*, from rain water, and I think, and am certain that the child must have died had it not been for you. And I advise everybody to see Mrs Manchester, for I know that she has the power of knowing the condition of a person diseased better than any Physician that I have ever heard of. Please have this published, and let the world know that there is one who practices what they profess to.

Very truly and gratefully yours,
GEORGE E. MARTIN,
my8ins MARY L. MARTIN.

CHOLERA! CHOLERA!
Prof. Bouve's Atmospheric Purifier.

This article has been extensively used as a Deodorizer and Purifier by the governments of Egypt, Turkey and France, during the late Cholera epidemic, and is the most perfect disinfectant extant. It effectually destroys all noxious gases and effluvia arising from decaying animal or vegetable matter, and for purifying Hospitals, Vaults, Drains, Cess-pools, &c., cannot be surpassed.

DENTISTRY!
—AT—
No. 5 Daniel Street.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS never uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

☞ DR. T. F. WEED still remains with DR. STEVENS as Assistant. my28

Desirable Residence at the West End,
AT AUCTION.
Will be sold at Auction,
on the premises,
On SATURDAY, June 9, at 12 o'clk noon,

The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, in a thorough manner, by the day, of the best materials; contains 10 well-arranged Rooms and 11 Closets. In the yard is a small STABLE. Are sold only because the owner having removed to another house, has no further use for them.

The premises are situated in an excellent neighborhood, where the houses are owned by the occupants;—while far enough from Islington street to be free from dust, a good view of that street is had from the house.

Adjoining is a LOT OF LAND, fronting 89½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,029,072
" " 1865.....2,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....121.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the UNITED STATES.

Because its "Managing Expenses" are LESS, and it has a *LARGER SURPLUS* to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably much less, expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver spot) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexions, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the delicate color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 19 Bond street, New York, and for sale by all druggists; price 87½ per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,

78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign Countries. Specifications, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters relating to the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, and the transaction of the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The following facts, given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services more moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, give him a knowledge of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more competent and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made *twelve rejected applications* SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

DR. KNIGHTS' HAIR DRESSING

DR. KNIGHT'S HAIR DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, mellowed to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

☞ *BUY NO OTHER!*

Price 75 cents per Bottle.

Prepared by
DR. E. R. KNIGHTS, ... CHEMIST,
MELROSE, MASS.

Sold by
GEO. HILL, and by druggists and merchants throughout the country.

CHEROKEE CURE,

THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by pollution, viz:—*Spermatorrhœa, Seminal Weakness, Night Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Wet Dreams, Diffidence, Shortness of Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretions.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-two page pamphlet sent in a sealed envelope, free to any address.

Price $3 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Strictures of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females*. The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $3, Three Bottles, $5.
" Injection, " " $3. " " $5.

The Cherokee "*Cure*," "*Remedy*," and "*Injection*" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds,—in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us *in perfect confidence*, in order to send our medicines, or private pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Ayer's Sarsparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative powers as to defy the ordinary effects of medicine. For diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from the scrofulous complaint, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following well-known cases:

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St. Anthony's Fire, Ring Worm, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in perfect health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER's—then, and not till then, will you know the virtue of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disorded Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in Medicine everywhere. my1—tuMTuno

CHOLERA DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. CORAREE'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at the Chemical Laboratory, Nos. 598, 600, and 602 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Coarraret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for the sick chamber, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public buildings of all kinds, slaughter houses, offal and fat-boiling establishments; all kinds of manures (*immensely increasing the value of the latter*), and wherever an odor offensive exists. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the terms; they do not overpower an odor by chemical principles—leaving in their place *healthful air*; they are DESTROYERS, and *not merely substitutes*; they destroy the cause of injurious miasmas in which they are used. The attention of medical and sanitary men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

DELAVAN HOUSE, Albany, April 30, 1866.

To the Proprietors of the New York Disinfecting Co.:

Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. ROSSEL & CO.

AN EVENTFUL CAREER.—The adventures of Capt. James S. Dillingham of Chelsea, says the Boston Journal, afford material for a novel. In 1860, while first mate of the Nabob, of Boston, he was instrumental in bringing that vessel into port, over ten thousand miles, under jurymast. In 1861 he entered the navy as Acting Master, and after a year's service resigned, accepted the command of the clipper ship Snow Squall, and sailed for the West Indies. On his return he was was overhauled by the Confederate barque Tuscaloosa, and though under her guns managed by skillfull seamanship to escape, and though fired upon and chased eluded capture.

He again left New York in the Snow Squall, and on his passage through the Straits of Lemair was blown ashore, and put into Fort Stanley, where the ship was condemned, but determined to make the best of his misfortune he stripped his ship and sold the material, transferred his cargo to another vessel and the voyage terminated much more successfullythan could have been expected. He took passage home on the barque Moudamin, for Baltimore, and a few days out from Rio Janeiro the barque was captured and burnt by the Florida, Capt. D. losing his charts, etc. After a stay of ten days aboard the pirate he was put on board a Portuguese brig, and reached Baltimore.

The owners of the Snow Squall, and also the underwriters, were entirely satisfied with his tact and enterprise. The former placed the new ship Red Jacket in his charge, and in June last he left for San Francisco. He then started for Honolulu, where he took in a cargo of oil and bone and started for New Bedford. When a few days out the ship began to leak and continued to leak badly, so badly that the pumps were incessantly at work and the hands were only relieved by a windmill which Captain Dillingham erected. Unwilling to abandon his ship, he concealed the actual condition of affairs from his crew, and by his own example and cheerfulness induced his men to hope for the best, and on Friday last he brought his ship into New Bedford, to the surprise of all who have visited the vessel. It would have cost a large sum to have repaired her on the Pacific coast, and the energy and perseverance of Captain Dillingham certainly entitle him to a high rank in our merchant service.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, JUNE 8, 1866.

N. H. LEGISLATURE.—On Wednesday June 6, Mr. Barnard, president of the Senate, and Mr. Pike, Speaker of the House, delivered appropriate addresses to their respective houses.

In the House it was voted to supply each member with a copy of the Concord Monitor, Reporter, and Manchester Union, daily.

The members drew their seats, and other routine business was transacted.

Gov. Smyth's inauguration was brilliantly attended on Thursday, by military and civic ceremonies. In the afternoon he delivered his address to the Legislature, in which he discusses the subjects of Debt and Finance with the clearness of an able, practical man. He takes the cheerful view of our debt, is *not* in favor of assuming the *town* debts, or any part of them at present,—and is decidedly *opposed* to Sec. McCulloch's plan of exempting $3000,000,000 of U. S. bonds from taxation. He wishes the Legislature to express opinion on this subject. He favors Agricultural Professors at Dartmouth College, rather than a separate school; and recommends reform in school commissions, water privileges and railroads.

☞ President Johnson has just issued a Proclamation against the Fenians, as follows:

Whereas, it has become known to me that certain evil disposed persons have, within the territory and jurisdiction of the United States, begun and set on foot, and have provided and prepared, and are still engaged in providing and preparing means for such a military expedition and enterprise, which expedition and enterprise is to carried on from the territory and jurisdiction of the United States against the colonies, districts and people of British North America, within the dominions of the United Kingdom of Great Britain and Ireland, with which colonies, districts and people and kingdom the United States are at peace;

And whereas, the proceedings aforesaid constitute a high misdemeanor forbidden by the United States, as well by the laws of nations,

Now, therefore, for the purpose of preventing the carrying on of the unlawful expedition and enterprise aforesaid from the territory and jurisdiction of the United States, and to maintain the public peace as well as the National honor, and enforce obedience and respect to the laws of the United States, I Andrew Johnson, President of the United States, do admonish and warn all good citizens of the United States against taking part, or in any way aiding, countenancing or abetting said unlawful proceedings. And I do expect all judges, magistrates, marshals and officers in the service of the United States to employ all their lawful authority and power to prevent and defeat the aforesaid unlawful proceedings, and to arrest and bring to justice all persons who may be engaged therein, and in pursuance to the act of Congress in such cases made and provided, I do furthermore authorize and empower Major Gen. George G. Meade, Commander of the Military Division of the Atlantic, to employ the land and naval forces of the United States, and the militia thereof, to arrest and prevent the setting on foot and carrying on of the expedition and enterprise aforesaid.

SOUTHERN CONFESSIONS.—If we are to believe certain organs of the South, it is no mystery that the loyal tendencies of the people there have retrograded since the close of the war, for they were only assumed for selfish purposes in the first place. The Richmond Times, for instance, says that for six months the policy of the "dirt-eaters" was fairly tried. It then explains what dirt-eating, in the Southern acceptation is, namely, to elect men to Congress to take the test oath, "which we," it says, "could not and would not swallow;" to decline to elect famous Confederate generals to office; to repress sympathy for "that imprisoned statesman, who is no guiltier than the rest of us;" to "censure our women *for their irrepressible boldness and generous sympathies*," &c., &c., "because the good of the South requires these concessions. But the Times think the system does not pay, and it wants no more of it.

To the same effect, but in a more becoming tone, speaks the Fayetteville (N. C.) News. Dwelling upon the sentiments of the Southern people who have their oaths of allegiance, it says:

"They have no veneration for the Government, no love for the flag, no feeling of security for their interests, no very great desire to continue under the Government than necessarily compelled by coercion. If they had the power to establish a Confederacy before they were whipped they would have established it, and it is reasonable to believe if they could establish it now they would do so but for their oaths of allegiance. These oaths were to the effect that they would support the Constitution; should they ever be required to do more, or should the Constitution be subverted, these oaths are worth nothing."

This is explicit language—quite different from that employed by the Northern political friends of these men. It is well to heed it, and to so arrange our reconstruction plan that time shall fully test the sincerity of the seceded States before they are readmitted to the Union.

Looking at such things as these, caused Gen. Grant to say the war should have lasted another year, i. e. more thoroughly to subdue the rebellious spirit.

Correspondence of the Chronicle.

PORTLAND, June 6.

The Forest City is looking finely. The stately elms which beautify our streets are beginning to look splendid under the influence of the recent copious rains; verdure, trees and vegetation are going grandly ahead. Portland, being nearly an island, is fortunate in having a plenty of fresh air, wafting through and about her territory. The views from Munjoy and Bramhall hills are extensive and grand. With all these natural attractions, we cannot but regret to see so many evidences of antiquity in the feelings of some of the wealthy people of the city. A few enterprising capitalists are at the head of the different new undertakings now being pushed ahead. If all who are able would do their utmost to develope the interest of the place, Portland would be much more of a "town" than she is, or is likely to be.

About 150 Fenians have left here for St. Albans within a day or two,—some of them fine soldiers, recently from the loyal army; and they were commanded by experienced officers, also lately of the U. S. service.

As you are aware, probably, two companies of 3d U. S. Artillery have left Fort Preble for the border, to help preserve neutrality.

The recent laying of the corner stone of the Catholic Cathedral here was imposing and interesting. The cost of the building and lot, it is estimated, will be from $150,000 to $200,000. Large amounts have already been subscribed in the Catholic Churches here and elsewhere; but we learn that Bishop Bacon regards "the influx of greenbacks" as rather slow, and has urged upon the churches and people the importance of a much larger rush of the needful. The Fenians have somewhat exhausted the purses of our Irish friends, and hence such grand enterprises as this Cathedral suffer in consequence. It will be a long time before the edifice is entirely finished, as it is proposed to make it strong, suitable and substantial,—and the inside imposing, costly, and thoroughly symbolical of the ideas of the Catholic Church. It will be one of the few attractive churches of New England.

Rev. Mr. Walton, of the Third Parish, has recalled his consent to remain, and has dissolved his connection with the Society. The parish was for him, but the church was against him, on doctrinal points and ideas of church government. Mr. W. is somewhat of a Beecher Orthodox, and regards all those who believe in the Lord Jesus Christ as the Saviour and Son of God as Christians, whatever may be their differences in other respects. He is an earnest and able man, and the Society lose a worthy pastor.

The Union State Convention, which meets at Bangor on the 21st inst., promises to be an unusually interesting occasion, especially in regard to the platform of the Convention. We have good reasons to know that it will be bold and outspoken—in favor of liberty, equal rights and justice, as maintained by the Congress of the United States. The contest is between Hon. Sam'l Spring of this city, and Gen. J. L. Chamberlain of Brunswick, either of whom would make an excellent Governor. The Portland delegation are an unit in favor of Mr. Spring. Appearances indicate that he is "the coming man." He is a merchant—a self made man—and stands high in the community as a business man, citizen and neighbor—sound on the political goose, and every way a desirable candidate. Gen. Chamberlain is an accomplished scholar and brave soldier, and will receive a handsome vote in the Convention, and possibly be nominated, although Mr. Spring seems ahead now.

One of the best places in Portland to dine, or satisfy the hunger at any hour of the day or evening, is the Temple Street Restaurant. We ask your indulgence in thus referring to it—which we do unsolicited—because it is rare that such an A No. 1 quiet, genteel and well kept place is found anywhere. The rooms are every way metropolitan and attractive. The *cuisine* is excellent. Strangers will find Messrs. Bickford & Henderson (the proprietors) *au fait* in the business.

Foreign exports at this port last week were $64,899.——Imports of Molasses for May were 11,483 hhds; 1120 tierces; 1802 bbls. The increase of receipts of Molasses thus far over last year has been over 30 per cent., averaging the last two months very much in excess of any spring season for several years.——The new Sugar Refineries are progressing, and will be ready for operation the coming Fall, and perhaps before the end of the Summer. Portland will then be ahead of any city in the sugar business—a sweet thing.——A man in this city advertises "Co-Hogs" for sale.——The Continental Theatre Company with Lucille Western, E. L. Davenport, and other eminent talent, begin a short stay here to-night, playing "East Lynne," "Camille" "Stranger," "Honeymoon," &c. They are a talented troupe. SANCHO.

— A good deal is said of worms in pork but one who has been in the army, and who has very vivid recollections to prompt the opinion, thinks that, generally, the worms have the worst of it.

THE FARCE AT RICHMOND.—On the 5th of June the United States Court opened. Messrs. Reed, Brady and Brown, counsel for Jeff. Davis, were present. On calling the jurors, 14 responded, and two more were summoned. One declined to take the oath, and was excused. His place was filled. The panel completed, Judge Underwood delivered his charge to the Grand Jury, saying that their last session was historical, and he trusted that the efforts made to intimidate them would make them more faithful in the discharge of their duties. They ought not to be surprised at the furious rage of the treasonable and licentious press of Richmond—a city which had been the centre of the greatest traffic in human beings that ever disgraced the world. He mentioned the fact that many of the complaints and threats made against the members of the jury had been forwarded to him, and assured them of the firm support of the government, and even of the President, whom the treasonable now flatter and fawn upon, but whom they will probably soon curse as heartily as they did two years ago. He called their attention to the act of Congress of 1861, providing penalties for any one intending to bribe or intimidate jurors. He said they had it in their own power to exert a wholesome restraint upon licentious tongues and pens, and upon a press which had been the cause of the bad eminence of that city, as well as of the unparalleled self-immolation, degradation and suffering of its people.

W. B. Reed presented himself with his colleagues as counsel of Jefferson Davis, a prisoner under indictment for high treason in that Court, and it seemed to them due to their client that they should at the earliest moment ascertain what disposition would be made of the indictment. They were ready to instantly proceed with the trial, if he is to be tried; if it is to be withdrawn, they wished to know it. If it is to be suspended or postponed, they would enter a most earnest protest.

Assistant District Attorney Hennessey responded by stating that a definite answer would be given next day; and it was given, in substance that Jeff. D. has not been in custody of that court—and that it was not expedient to try him now—and the Court adjourned till October 1.

Communication.

SENATOR CLARK.—At the present session of the Legislature, a Senator of the U.S. will undoubtedly be elected as the Senatorial term of the Hon. Daniel Clark will expire. We believe that New Hampshire never had a more faithful, laborious, and able Senator in Congress, or one who performed the highly responsible duties of that office to more general satisfaction than Mr. Clark. He has often been called to the chair, and presided with becoming dignity over the Senate. His long experience as a legislator and Statesman, his efforts to prevent waste of the public money and detect frauds, would render his public services still more valuable to our country. We think his re-election should be made a certainty, and that he ought to receive the support of every republican member of the Legislature. No doubt there are many who would feel highly honored, could they be elected to that high station. But the people of the State desire to be represented in the Senate by a Statesman uniting the most eminent qualifications to promote the public welfare. N. S.

SORROWS come not singly. Hundreds meet with misfortunes at every turn of the great wheel of life. Suffering, sorrow and sickness is the inheritance of man. Dyspepsia has claimed millions as its victims, and for years there has seemed to be no reliable remedy for it. Our readers will rejoice to hear that Coe's Dyspepsia cure will certainly cure it in every instance. All its attendant afflictions, like cramps, colic, indigestion, sickness of stomach, souring and rising of food, sick headache, general debility and want of appetite, are sure to yield to Coe's Dyspepsia Cure. je4—1w

STEAMER MEMPHIS EXPLOSION.—The details of the terrible explosion on board the steamer Memphis, on the 31st ult., while on her passage up from New Orleans to Memphis, whereby sixty persons were killed and wounded, disclose a clear case of negligence, or criminal recklessness, rather One of the passengers stated that he overheard an engineer remark at the table that the boilers would not hold out to Memphis and it is also alleged that a passenger got off at Helena with a presentiment of disaster. It is a great pity that the passenger who overheard that remark of the engineer did not tell his story to his fellow passengers before the catastrophe.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and not to be confounded with Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world. for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions, stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. ONE LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

CALKERS' STRIKE.—The calkers who have been at work on ship Simla in our harbor, struck Thursday for higher wages; and the owners not complying with their demands, the work of calking is suspended for the present. They have been receiving $3.00 per day and struck for $4.00. A committee from the calkers of New York visited our city Thursday, and this the result. We believe the strikers were mostly strangers here.

☞ Two or three days ago we told our distant readers that the "drouth was broke" in Portsmouth;—and we suppose some of them believed it. If they had been here on Thursday afternoon between 3 and 4 o'clock, they would have been sure of it.—The frogs must be having a high time about these days.

☞ Maj. Hackett will sell at auction tomorrow, two valuable pieces of Real Estate—a fine brick House on State street, and a new wooden House on Cabot street—both very desirable residences.

Mr. Morse also announces to sell a large House on Vaughan street. And as the cost of building has not materially decreased, it would seem that there must be plenty of bidders to secure these rare opportunities.

Mr. Wendell and Messrs. Betton & Co. also sell Furniture and Varieties at their Stores, as usual.

☞ Knight's Cornet Band was out on Wednesday, en route for Dover; to go thence to Concord with a military Company, for Election Day.

The Portsmouth (Tompson's) Cornet Band gave the first out-door Concert of their Summer series, (for which the community is indebted to the appreciation and public spirit of Mr. H. M. Clark, in getting up subscriptions, &c.) on Market Square, Thursday evening.

☞ The contract for rebuilding Congress Block in this city, has been awarded to Mr. Isaiah Wilson of this city. We learn there were numerous bids, at home and from abroad. The work will begin forthwith.

PORTLAND AND NEW YORK STEAMSHIP COMPANY.—Of all means of reaching New York from this point, to us the above line of steamships running from Portland is the most agreeable. The ride to Portland by the "Lower Route" is made in cars that are unsurpassed for elegance and comfort by any in New England. The steamship Dirigo, emphatically a Portland boat, engine and hull being built there, is a credit to the Pine Tree State, and worthily wears her motto. Roomy and fast, without ostentation, but tastefully neat, the traveller will find a relief from the dust, noise and fatigue of railroad travel while enjoying her airy staterooms, to say nothing of the beauties unfolded for his inspection during the passage down Portland harbor, through the Vineyard and Long Island sounds. Two nights of slumber "rocked in the cradle of the deep," will give the man new life for business or new zest for pleasure; a bountiful table, pleasant officers and moderate rates are no drawback upon this route. The advertisement of this company may be found elsewhere.

THE N. H. UNITARIAN ASSOCIATION will meet in Convention at the Stone Church in Portsmouth, on Wednesday, the 13th of June, at 10 1-2 o'clock A. M., and continue in session two days. The general Order of Exercises will be as follows:

Wednesday, 13.—1. Business meeting at 10 1-2 A. M., for the choice of officers and to hear reports of churches. 2. Meeting for discussion, at 2 1-2 P. M., of the following question: "What is the true religion for the child?" This discussion will be opened by an essay by Rev. W. Livingston Stone of Charlestown, N. H. 3. Sermon at 7 1-2 P. M., by Rev. Chas. B. Ferry, of Peterboro'.

Thursday, 14.—4. Prayer and Conference meeting at 8 A. M. 5. Meeting for discussion, at 10 1-2 A. M., of the following question: "Is Unitarianism, as a form of Christianity, susceptible of general and popular diffusion?" This discussion will probably be opened by an essay by Rev. James DeNormandie of Portsmouth.

During the session of the Convention, the friends in Portsmouth propose to take the members on an excursion in the harbor, which may somewhat vary the above order of exercises.

FENIAN ITEMS.—There was a report on Wednesday afternoon that the Fenians had re captured Fort Erie; but it wants confirmation.

Gen. Sweeney was arrested by U. S regulars at St. Albans, Vt., early Thursday morning. Gen. Spear had disappeared, but the regulars are after him.

700 Fenians were two miles over the border, into Canada, at a place called Cook's Corner, Thursday. The storm has rather retarded their operations. There are 10,000 Fenians near Canada line.

A warrant has been issued to arrest Pres Roberts.

—The first green corn of the season made its appearance at New Orleans on the 11th. The price paid was two dollars per dozen, and it was served up at the restaurants at twenty five cents per ear.

Splendidly Illustrated with over 100 fine Portraits and Beautiful Engravings.

This work for genial humor, tender pathos, startling interest, and attractive beauty, stands unique and alone among all its competitors. The Valiant and Brave Wented, the Picturesque and Dramatic, the Witty and Marvellous, the Tender and Pathetic: the Roll of Fame and Story, Camp, Picket, Spy, Scout, Bivouac and Siege; Startling Surprises; Wonderful Escapes; Famous Words and Deeds of Woman; and the whole Panorama of the War are here thrillingly and startlingly portrayed in a masterly manner, at once historical and romantic, rendering it the most ample, brilliant, and readable book that the war has called forth. Old agents, teachers, ladies, disabled soldiers, energetic young men, and all in want of profitable employment, will find in this the best chance to make money ever yet offered. Send for circulars and see our terms. Address New England Publishing Co., 14 Phœnix Building, Boston, Mass.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

☞ DR. T. F. WEED still remains with DR. STEVENS as Assistant. my28

Desirable Residence at the West End,
AT AUCTION.
Will be sold at Auction,
on the premises,
On SATURDAY, June 9, at 12 o'clk noon,

The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, in a thorough manner, by the day, of the best materials; contains 10 well-arranged Rooms and 12 Closets. In the yard is a small STABLE. Are sold only because the owner having removed to another house, has no further use for them.

The premises are situated in an excellent neighborhood, where the houses are owned by the occupants;—while far enough from Islington street to be free from dust, a good view of that street is had from the house.

Adjoining is a LOT OF LAND, fronting 39½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " 1865.....3,029,987
Ratio of expenses to premiums rec'd in '64..12.96
" " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....161.85

The inevitable conclusion from these official facts is that the

MUTUAL BENEFIT LIFE
Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide more to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to
HENRY A. YEATON, Agent.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly on ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly impair the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the act of 1837,
78 State Street, opposite Eliot Street, BOSTON.

After an extensive practice of upwards of seven years, continues to prosecute Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, conducted on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished for Ten Dollars. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to those which are offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant testimony to prove, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. I find unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins their mind and body, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, and every description of your cases. Dr. Dow has also for sale the French Capotte, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has for years had greater experience in the treatment of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1866. eod&wly

HIGHLY IMPORTANT —TO— UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Excessive or Scant Menstruation, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Palpitation, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, M. D., No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients from the country, rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 15, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with board and nurses. Charges moderate.

The Old Established Hospital.

QUICK CURES AND LOW PRICES.

Patients Cured Annually

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can. Also, Fistula, Stricture, Piles (being treated without pain or cutting), Stone in the Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are performed with the control of his Celebrated Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN, AND MIDDLE AGED MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, are hereby warned against the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States. Those applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader of course is aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

Impotency, Sterility, or Barrenness.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages so full of plain—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on *Love*, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. J. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

DR. KNIGHTS'
HAIR
DRESSING

A VEGETABLE PREPARATION

For beautifying and promoting the luxuriant growth of the hair.

It prevents the hair from falling off or turning gray.

It removes dandruff, cleanses the scalp, cures nervous headache, and all those distressing affections induced by the use of oily or alcoholic Hair Dressings.

Its invigorating properties insure luxuriant locks, inclined to curl, and by its persistent use the hair is restored to bald heads when such a result is possible.

It is splendidly perfumed, will not stain or soil the skin or any article of apparel, and is universally approved—especially by ladies and children.

CHEROKEE CURE,

THE GREAT
INDIAN MEDICINE,

Cures all diseases caused by self-abuse, viz:—*Spermatorrhœa, Seminal - Weakness, Night - Emissions, Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pale Countenance, Insanity, Consumption*, and all diseases that follow as a sequence of youthful indiscretion.

The Cherokee Cure will restore health and vigor, stop the emissions, and effect a permanent cure after all other medicines have failed. Thirty-cent page pamphlet sent in a sealed envelope, free to any address.

Price $2 per bottle, or three bottles for $5. Sold by all druggists; or will be sent by express to any portion of the world, on receipt of price, by the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

Cherokee Remedy,

Cures all Urinary Complaints, viz: *Gravel, Inflammation of the Bladder and Kidneys, Retention of Urine, Stricture of the Urethra, Dropsical Swellings, Brick Dust Deposits*, and all diseases that require a diuretic, and when used in conjunction with the

CHEROKEE INJECTION,

does not fail to cure *Gonorrhœa, Gleet and all Mucous Discharges* in Male or Female, curing *recent cases in from one to three days*, and is especially recommended in those cases of *Fluor Albus or Whites in Females.* The two medicines used in conjunction will not fail to remove this disagreeable complaint, and in those cases where other medicines have been used without success.

Price, Remedy, One Bottle, $2, Three Bottles, $5.
" Injection, " " $1, " $3.

The Cherokee "Cure," "Remedy," and "Injection" are to be found in all well regulated drug stores, and are recommended by physicians and druggists all over the world, for their intrinsic worth and merit. Some unprincipled dealers, however, try to deceive their customers, by selling cheap and worthless compounds, in order to make money—in place of these. *Be not deceived.* If the druggists will not buy them for you, write to us, and we will send them to you by express, securely packed and free from observation. We treat all diseases to which the human system is subject, and will be pleased to receive full and explicit statements from those who have failed to receive relief heretofore. Ladies or gentlemen can address us in *perfect confidence*. We desire to send our thirty-two page pamphlet free to every lady and gentleman in the land. Address all letters for pamphlets, medicines, or advice, to the sole proprietor,

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an extract of a standard excellence such as no other can be reputed to cure. Such a remedy is surely wanted by those who suffer from strumous complaints, and that one which can accomplish their cure may be regarded as a public benefactor. Such we believe this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do its work, we leave to experiment on many of the worst cases to be found in the following complaints:—

Scrofula, or Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Ulcers, Abscesses, Pains, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—2mMTuaw

DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURANET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, No. 398, 400, and 402 Henry street, N. Y.—Office, 42 Cedar street.

This Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, hospitals, prisons, factories, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, stables, and all other dwellings, and all kinds of manures (*immensily* increasing the value of the latter), and wherever poison or putrid air exists or is feared. These Fluids are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They are not mere deodorizers, but destroy the general principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases, and are the most powerful in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials from Chemists of great discovery, which, with hundreds of others, can be seen at the Company's office

— The Eastern Railroad, for the better accommodation of their sea-side travel, have enlarged their grounds and are about erecting a new station-house at North Hampton, where a large share of the Rye Beach travel takes the cars. The station at Hampton is being removed and the surroundings made more attractive, in anticipation of the increased travel to Boar's Head, which the advent of the illustrious Dumas to that locality would seem to justify.

A LEAP IN THE DARK.—A man leaped from the eleven o'clock outward train of the Boston & Worcester Railroad, on Tuesday night. He took passage intending to stop at Brighton, but neglected to get out when the train stopped there. Discovering his mistake when the cars were passing the Arsenal Station, he leaped out into the dark, the speed at the time being twenty miles an hour,—broke his legs badly, rolled to the foot of a deep embankment, and there remained all night in a pool of water. The engineer of the early morning freight train saw the man lying there and gave notice to the authorities of the road, who sent him to the hospital.—*Boston Traveller.*

Portsmouth N. H.

SATURDAY, JUNE 9, 1866.

☞ Not many days ago a Boston paper, sometimes called democratic, said, reproachfully, that no republican paper said a word for the Fenians, meaning that they did not encourage their attempt in Canada. The Fenians now say, the President has played them *false*, by talking favorably, so that they expected to get Canada by his connivance—but by his action they are now in despair. The Boston Herald's correspondent at St. Albans, June 7, says:

"The bubble must burst—and the question rises how the adventurers are to get home! They have no money, having spent all they had for rations. The solution of this problem rests with the railroads which brought the men there, with the citizens, and with the Government. A few days will probably solve it; and a few hours, the hopelessness of the grand enterprise."

The naturalized Irishmen in the United States may possibly find out, by and by, that the demagogues who have commonly received their votes, and have often flattered and deceived them, are not so good friends as those who tell them the truth.

NEW HAMPSHIRE ITEMS.

—— On Friday, 1st inst., seven female employees were arraigned before the Nashua Police Court, for stealing cloth from the Nashua Manufacturing Co. They pleaded guilty, and were fined $1, and ordered to pay three times the cost of the cloth stolen and not returned, and to pay costs of prosecution.

—— At Concord, on Thursday, it was officially announced from the War Department that our State militia is likely to be summoned into service, for the protection of our frontier and for the vindication of our neutrality laws, in connection with the operations of the Fenians.

—— The Concord correspondent of the Traveller writes that since the liberal rains of last week the fields and pastures are looking finely, and good June butter will soon be cheap (speaking comparatively) for all consumers. The dairies of New Hampshire will exceed in quantity, and it is to be hoped in quality, anything before known.

—— Grosvenor P. Jones, the young man who committed suicide in Pelham a few days since, had been much depressed since last summer, (at which time he joined the Congregational Church in Pelham) on account of religious matters. He wrote a letter the Sunday previous to his death, addressed to his pastor, stating that he could not see his way clear in a religious point of view, and expressing a wish that his example might be a warning to others. So says the Mirror.

—— The Haverhill (Mass.) Banner states that as Mr. John M. Paul, of the late firm of Paul & Farrington, was on his way home from that place, to Salem, N. H., on Thursday evening, he was stopped in Dustin's woods by three men, who demanded his money. He managed to slip his wallet in the bottom of the wagon—when he was dragged from his wagon. His horse kept on and arrived home in safety, and Mr. P. was liberated after a thorough searching. Who is safe without a shooting iron?

☞ By the latest foreign news, it appears the project of European Congress is still doubtful, Austria's consent not yet having been given, and Mr. Gladstone confessing that England's activity in the matter is "without any sanguine hopes." The attitude of Italy is as warlike as ever, and the whole Continental situation is substantially unchanged. The financial depression in England continues, though the panic seems to have subsided.

☞ A New York city dispatch of June 7, midnight, says:—

The arrest of Sweeney and Roberts caused the wildest excitement among the Fenians here to-day. An informal meeting was held in the City Hall Park, and several speakers denounced the authorities at Washington, charging that they would not fight again against rebels.

The Fenian ardor is a good deal dampened, and there were few if any enlistments to-day.

There was a large and enthusiastic Fenian meeting at Cooper Institute to-night. Resolutions were passed denouncing President Johnson and declaring that the Irish population will not support him hereafter.

☞ A St. Albans dispatch of Friday states that Gen. Sweeney's bail is to be $20,000, and Col. Meehan's $5000. The U. S. Government is finding transportation from that point for Fenians returning home; many are thankfully accepting the favor. These men say as soon as those at the front know of this, they will dissolve and come home.—Two Generals, and a dozen other officers of the Fenian army, were arrested at Malone, N. Y., by Maj. Silvey.—A Fenian privateer is said to have gone to sea from New York, to catch a Cunard steamer.—The neutrality law under which the arrests were made was passed in 1818. It is not probable that the Fenian leaders knew anything of it.

— Probst, the murderer of the Deering family, was hanged at Philadelphia on Friday morning.

NOTES OF FORMER DAYS.

Collected and Collated by UNCLE TOBY.

Brick Market—Jefferson Hall—Portsmouth Aqueduct, 1800—*Earthquake*, 1801—*Fire*, 1802.

The reader will consider that in copying old accounts, we do not always change the language, and so speak of things as they were, and not as they are.

The following accounts of the British Market and Aqueduct are from the newspapers of 1800.

The town erected a building for the market, on the lot purchased for that purpose, near the parade. The building is eighty feet long, and two stories high. The lower story, which is designed for the market, is twelve feet high. The upper story, which is fourteen feet high, is designed for public uses, and is called Jefferson Hall. One hundred and forty-five thousand bricks were used in the building, and were laid in thirty-nine days.

A number of persons were incorporated the 19th December, 1797, by the name of the Proprietors of the Portsmouth Aqueduct. The water is conveyed into town by wooden pipes, from a spring, situated in the outskirts of the town, about three miles distant from the Court house. The proprietors began to lay the pipes last year, and have now so far completed it, that two hundred and fourteen houses and stores are supplied with water. It is conveyed into most of the streets in town, and the spring yields great abundance for the supply of all the inhabitants. The water is of an excellent quality.

About half past three o'clock in the afternoon, on Sunday, the first of March, 1801, there was a considerable earthquake. The sound appeared to come from the northwest, and continued about thirty seconds. It resembled the rumbling of a coach, passing moderately over frozen ground; and was attended with a tremulous motion of the earth, which was very perceptible in all parts of this town. Some supposed their chimnies were on fire, until their windows began to rattle. In one house a waiter, which stood edgewise under the table, was thrown down, and in another, the small house bell was rung, and in various instances the crockery on the shelves made great clattering. The shock was perceived on board vessels in the harbor; cattle and fowls discovered marks of fear. The weather was mild and pleasant.

*The denomination of Christians, usually called Free-will Baptists, formed a society in this town, in 1802.

Sunday, December 26, 1802, about four o'clock in the morning, the town was alarmed by the *cry of fire*; which was discovered in the building, occupied by the New Hampshire Bank. Before many of the inhabitants could assemble, the fire burst out through the sides of the house, which was soon enveloped in flames. The fire was communicated to the adjacent buildings with such great rapidity, as to render it impossible to arrest its progress, until a large proportion of the town was laid in ashes. Every building on the parade, except the meeting house and Court house, was destroyed. The upper end of Daniel street was consumed as far as Captain Elijah Hall's on the north side, and Mrs. Hart's on the south, whose houses were preserved.† To the northward the destruction was far more extensive. The buildings on Market street and Fore street, as high as Mrs. Whipple's, those on Bow street, as far as Mr. Cutts' store on Church hill, those on Cross‡ street to the top of Dwyer's hill, and those on Ladd street, except one, fell victims to the devouring flames. The amount of property destroyed was estimated at the sum of two hundred thousand dollars.

The selectmen appointed a committee of five gentlemen to receive such donations as the charitable and benevolent may be disposed to make to those who suffered by the fire, and requested the committee to distribute the same among such of the sufferers as they think proper, and to return an account of their doings to the selectmen.

The donations received by the committee amounted to the sum forty-five thousand four hundred and ten dollars, and forty-three cents. And the committee kept an account of the receipts and distributions, which was open to the inspection of every one, who desired to see it.—*Adams.*

*Not so.—It was a *Baptist* Church.

†It is a curious fact that both these houses are now standing, though fires have burnt close to both of them at least four times since 1812.

‡Now Hanover street.

☞ Among the subjects of interest to come before the Legislature at this session, is the question of division of the town of Strafford. From what we know of the matter, we think the prayer of the Republican petitioners should be granted, and hope it will be. It is probable the subject will thoroughly be discussed, as Judge Fowler and Mr. Wheeler are employed with Geo. C. Peavey, Esq., of Strafford, on one side, and Messrs. Tappan and Mugridge with a host of Democratic lawyers against the petition.

IN CONCORD, on Thursday, the out-door show of the Governor's Inauguration Day was splendid, and the weather was fair and favorable—affording quite a contrast to our abundant rains that day.

Correspondence of the Chronicle.

LEXINGTON, MASS., June 8, 1866.

Dear Chronicle— In our change of base from Florence to Lexington we noticed a number of improvements at the Boston end of the Worcester Railroad. Besides the great change made in their passenger station, rendering it light, airy and convenient, the Company are building a spacious depot on Orange street for the especial accommodation of the great milk traffic of the road.

To-day one of the finest passenger cars ever built in New England, and intended to run between Boston and Portsmouth, went down over the Saugus branch of the Eastern Railroad. This car is elegantly finished inside, with upholstery and paintings in unison.—Determined to maintain their standing as the best equipped road in all this section, the company have three other cars of the same style (one of them a smoking car) well under way, at their shops in East Boston.

The second anniversary exercises of Dr. Dio Lewis's school for young ladies, which occupied Tuesday and Wednesday of this week, proved more potent to attract a crowd to this pleasant village than its historic battle ground. Hundreds of friends and guests found pleasure in witnessing the proficiency which may be obtained in the various departments of intellectual culture, while attaining a most enviable degree of physical development. The easy grace of the large number of pupils, (representing all the loyal States but California,) their bright eyes and ruddy cheeks, showing in a glance the value of the system under which they had been taught, gave even greater satisfaction than the exhibition made of their excellence in ancient and modern languages, dramatic talent, literary and musical ability. This school, which less than two years since was an experiment, has become so favorably known by its desirable results, that we anticipate the Doctor will hardly be able to accommodate the host of applicants for the third school year, which begins in October next. ION.

WASHINGTON ITEMS. — The evidence given before the Reconstruction Committee relative to Louisiana, Texas and the Indian Territory shows that a large portion of the people of Texas look to a future revolution as a remedy for existing evils, and that the Freedmen's Bureau is indispensable. Another portion of the testimony relates to the condition of the Indian tribes.

The fair of the soldiers' and sailors' orphan home was successfully opened Wednesday night. Senator Wilson presided and pertinent speeches were made by President Johnson, Gen. Banks, Senator Lane of Indiana, Gen. Howard and others, all of whom were loudly applauded.

The Union men in Congress, it is evident, will unite in a solid phalanx in support of a proposed amendment to the Constitution.

The counsel for Jeff. Davis have been persistent in urging the Attorney General and the President to parole their client. They are confident of success and are promised an early decision.

The Fenians there are much disheartened at the Presidential proclamation.—Head Centre Stephens regards it as a triumph of his policy. He will speak at a mass meeting at which the Mayor of the city will preside, on Thursday.

CONGRESS.—On Thursday, the correspondent of the Boston Advertiser writes: No progress was made with the Amendment to the Constitution, in the Senate. Garrett Davis talked four long hours to an audience composed chiefly of himself, the presiding officer, and the official reporter. Davis gave a slap at New England, which will not do much damage. [Perley intimates that the President is averse to *any* amendment of the Constitution *now*. Very likely; and so are most of the ex-rebels.]

In the House, the bill to authorize the Secretary of the Navy to accept League Island for naval purposes was debated and passed—71 to 46.

Mr. Pike favored the removal of the Navy Yard from Philadelphia to League Island, but said there were better stations for ironclads in many harbors in Maine.

The concurrent resolution that Congress adjourn on the 28th of June was passed—69 against 39.

A motion to reconsider and to lay that motion on the table was taken, resulting in no quorum voting, when the House, without finally deciding the question, adjourned.

FACT.—As a culinary preparation, Herrick Allen's Gold Medal Saleratus is *infallible*. It has great advantages over yeast fermentation, and will make twenty-five pounds more Bread or Biscuit from the same barrel of flour, and much better. It retains *all* the glutinous starch and sugar that is in the flour, and from two-and-a-half pounds of flour will make three-and-a-half pounds of Bread or Biscuit, while the same quantity by yeast fermentation will make only a *trifle* over three pounds, and require more than twice the quantity of shortening, besides being much more unhealthy. Try it, and be convinced. 97

ORDINATION. — On Wednesday afternoon, June 7, Mr. Charles C. Salter, of the Cambridge Divinity School, was ordained pastor of the Unitarian Church in West Cambridge, Mass. Introductory prayer, Rev. J. Young; reading of Scriptures, Rev. Amos Smith; sermon, Rev. Thomas Hill, D. D.; ordaining prayer, Rev. Wm. Newell, D. D.; charge, Rev. Frederic H. Hedge, D. D.; right hand of fellowship, Rev. James DeNormandie; address to the people, Rev. Rufus P. Stebbins, D. D.

To the Public.

Having thoughtlessly and wrongfully caused to be published in "*The Criminal Log*" of the 9th inst. accusations against two young ladies of this town—N. SANBORN and N. LEWIS—I do now as an act of justice to them, and as a voluntary token of my penitence for the wrong done to Miss Sanborn and Miss Lewis,—state to the public that there was not, and is not, the slightest foundation for said accusation, and that I know nothing to the prejudice of either of the young ladies above named; and I deeply regret that I have done an act calculated to wound their feelings and the feelings of their families and friends.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being in liquid form, is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50. Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Local.

IN BOARD OF ALDERMEN, Thursday evening, June 7, leave was granted to Chas. W. Gerrish to open drain on High and Dear Sts.

The Board of Health presented a list of 32 piggeries, which they declared to be nuisances, and recommended they be abated by the removal of the swine,—and by vote of the Board they were declared nuisances.

Voted, to lease Spring Market to John Marston for five years, at $400 per year.

The Committee on Streets, to whom was recommended the petition of C. H. Mendum and others, recommended "that the petitioners be allowed to straighten their fence by commencing on a line at the northeasterly corner of the land of C. H. Downs, and taking six inches from the street at the southwesterly corner, and run the line straight across the land of Messrs. Drew and C. H. Mendum, until it strikes the street." Adopted.

The Committee on 2d Reading of Bills reported back the ordinance raising the salary of the Clerk of the Common Council to $50 per year. An amendment was adopted raising the salary of the City Messenger from $550 to $650 per annum. The ordinance was read a second time, and passed as amended,—yeas 6, nays 2. The same Committee reported back an ordinance raising the pay of firemen to $15 each per year, and of Assistant Engineers to $20 per year. An amendment was adopted providing that any member of the Fire Department who shall be intoxicated while on duty, shall be discharged and forfeit six months' pay. The bill was read a second time, amended. Yeas—Davis, Hodgdon, Henderson, Martin and Ham—5. Nays—Wilson, Foster and Ayers—3.

Both Boards unanimously passed a joint resolution favoring the construction of a Railroad from Portsmouth to Dover; a similar resolution having passed the City Council of Dover.

☞ Sale of the brick house on State street, opposite the head of Washington street, takes place on *Saturday next*, the 16th, and not to-day, as we inadvertently remarked in our paper of yesterday. The house and land on Cabot street, near the corner of Islington street, recently occupied by Col. Stearns, will be sold by Maj. Hackett to-day,—and some one will get a good establishment, in a fine location, *if* on hand at the sale.

Mr. Morse also announces to sell a large House on Vaughan street. And as the cost of building has not materially decreased, it would seem that there must be plenty of bidders to secure these rare opportunities.

Mr. Wendell and Messrs. Betton & Co. also sell Furniture and Varieties at their Stores, as usual.

☞ Our neighbors of the Journal—the junior editor being a Rep. this year—issued on Friday a very neat Extra, printed in Concord, containing Gov. Smyth's excellent Address (which is too long for their columns, as for ours,) and other readable matters.

☞ There was a slight movement in real estate on Friday, the old one-story wooden building No. 33 Pleasant street being transported from that place to Water street. Its removal will improve the appearance of that portion of Pleasant street.

☞ It will be seen by an advertisement in another column that Mr. Wm. Robinson has prepared his house at Gosport, Isles of Shoals, for the reception of visitors, and will thus in a measure endeavor to supply the accommodations which were lacking since the recent destruction by fire of the hotels at that summer resort.

☞ Our police are engaged in ferreting out the perpetrators of a recent robbery of considerable magnitude, but as yet deem it advisable to withhold the particulars from publication.

☞ Mr. Russell's barge is moored at one of the best fishing grounds in our Lower Harbor, and he advises pleasure seekers of the fact, by a notice elsewhere.

☞ Elder Miles Grant, of Boston, is expected to preach at the Second Advent Chapel, to-morrow, (Sunday), June 10th—morning, afternoon and evening.

Communication.

THE ABSENT ONES.—It is to be hoped that the "Sons of Portsmouth" generally will come home to take part in our approaching Fourth of July celebration. Albeit our city authorities have not deemed it expedient to increase the already burdensome municipal taxation to the amount of $8000 or $10,000, in order that the "Sons" might receive a tribute of welcome commensurate with their merits and the proud regard of the hearts of home friends; nevertheless, each and all will receive a cordial welcome. Let those natives and former residents of beloved "Strawberry Bank," who can make it convenient, come and witness or participate in our celebration, and they will surely enjoy the festive occasion, and enhance the gratification of every citizen. RESIDENT.

☞ At Galveston, Texas, May 26, Gen. Wright ordered ten men out of every infantry company in the State to be mounted and report to Gen. Kiddo, for the protection of the Freedmen's Bureau officers, and for the enforcement of order.

Col. Mason, son of the rebel minister to London, is retained to prosecute Fletcher, the colored soldier who shot Halfartin. A strong effort is being made to have the accused tried by a civil tribunal. General Wright refuses to surrender him, and they threaten to appeal to the President.

Crops were improving. The bottom lands of the more fertile regions are overflowed for many miles. All cotton is washed out. The river is higher than ever known before.

☞ The Alleghanians, lately returned from Europe, have been engaged by the City Government of Boston to give three Concerts on the coming Fourth of July, in connection with the Great Organ. We understand the Alleghanians will appear at Trement Temple nightly during the month of July.

— A dispatch from Richmond, Wednesday, says the case of John C. Breckinridge is before the Grand Jury, and a true bill for treason will be found.

The Pills by purifying the blood considerably expedite the operation. Sold by all Druggists. je9

SORROWS come not singly. Hundreds meet with misfortunes at every turn of the great wheel of life. Suffering, sorrow and sickness is the inheritance of man. Dyspepsia has claimed millions as its victims, and for years there has seemed to be no reliable remedy for it. Our readers will rejoice to hear that Coe's Dyspepsia cure will certainly cure it in every instance. All its attendant afflictions, like cramps, colic, indigestion, sickness of stomach, worrying and rising of food, sick headache, general debility and want of appetite, are sure to yield to Coe's Dyspepsia Cure. je4—1w

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

Desirable Residence at the West End,
AT AUCTION.
Will be sold at Auction,
on the premises,
On SATURDAY, June 9, at 12 o'clk noon,

The HOUSE and LOT on Cabot street, near the corner of Islington street, just vacated by Col. WILLIAM STEARNS. The house was recently built, in a thorough manner, by the day, of the best materials; contains 10 well-arranged Rooms and 12 Closets. In the yard is a small STABLE. *Are sold only* because the owner having removed to another house, has no further use for them.

The premises are situated in an excellent neighborhood, where the houses are owned by the occupants;—while far enough from Islington street to be free from dust, a good view of that street is had from the house.

Adjoining is a LOT OF LAND, fronting 39½ feet on Cabot street and extending back 41 feet, which will be sold at the same time. The terms will be most favorable to the purchaser—a large part of the purchase money may remain on mortgage. May be examined at any time on application to WILLIAM H. HACKETT.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,080,072
" " " " 1865.....3,029,987
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " '65..12.15
Ratio of assets to liabilities, Jan. 1, 1865....161.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY: Will some one inform the public of that mysterious process by which a Company with a surplus proportionably much less, and expenses very much larger than another, can yet divide *more cash* members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done*. Yet we have Agents among us that make this their boast.

Any one disposed, or intending to insure can be enlighted with the requisite information by applying to

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to those of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either, and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for

AMERICAN AND FOREIGN PATENTS

R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers for Patents, or Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents, or to ascertain good legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting Dollar. Assignments recorded in Washington.

The Agency is not only the largest in New England, but through its extensive business, and for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, or more valuable to inventors, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such uninterrupted success of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART

During eight months, the subscriber, by course of his large practice, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the health, and renders the mind unfavorable for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will find his house a pleasant room, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your complaint. Dr. Dow has also for sale French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has so long and so successfully treated cases of disease of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made. Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, Menstrual Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that atients see none but the Doctor himself.

Address Dr. Briscoe, No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients from a distance in rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 18, 1866. TuThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Ayer's Sarsaparilla

Is a concentrated extract of the Chinese root, so combined with other substances of still greater alterative power as to afford an effectual antidote for disease. Such a remedy is needed by those who suffer from Strumous complaints, and that one which will accomplish the work of cure for this class, of immense service to this large class of our afflicted fellow-citizens. How completely this compound meets the requirements of a purifier, many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Humors, Tumors and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Scrofula is the *material disease* to be expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, which it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaints, Jaundice, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Portsmouth N. H.

MONDAY, JUNE 11, 1866.

IN THE U. S. SENATE, Friday afternoon, June 8, the Constitutional Amendment was passed by a three-fourths vote—thirty three Union Senators uniting in the support of it, with a cordial unanimity that shows how powerless is executive influence at the Capitol. There was great inclination on the part of the democrats to postpone the final vote. But Senator Pomeroy was in the chair, and rapidly disposed of amendments which were offered. Mr. Saulsbury desired to speak, and Mr. Davis was ever ready with an amendment, but Pomeroy went straight along, and at 6 o'clock the vote was taken.

Yeas—Anthony, Chandler, Clark, Conness, Cragin, Creswell, Edmunds, Fessenden, Foster, Grimes, Harris, Henderson, Howard, Howe, Kirkwood, Lane of Indiana, Lane of Kansas, Morgan, Morrill, Nye, Poland, Pomeroy, Ramsey, Sherman, Sprague, Stewart, Sumner, Trumbull, Wade, Willey, Williams, Wilson and Yates—33.

Nays—Cowan, Davis, Doolittle, Guthrie, Hendricks, Johnson, McDougall, Norton, Riddle, Saulsbury and VanWinkle—11.

Absent—Buckalew, Brown, Dixon, Nesmith and Wright—5.

The House will probably adopt the Senate resolutions, which will not need the signature of the President, and on which the States can at once take action.

The joint resolution as passed by the Senate reads thus:

Resolved, By the Senate and House of Representatives of the United States of America, in Congress assembled, two thirds of both houses concurring, that the following article be proposed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three-fourths of said Legislatures, shall be valid as part of the Constitution, namely:

ARTICLE FIFTY.

Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and the States wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Section 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons, excluding Indians not taxed. But whenever the right to vote at any election for the choice of electors for President and Vice President, representatives in Congress, executive and judicial officers or members of the legislatures thereof, is denied to any of the male inhabitants of such State, being twenty one years of age and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall be as to the whole number of male citizens twenty-one years of age in such State.

Section 3. That no person shall be a Senator or Representative in Congress, or Elector of President and Vice President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath as a member of Congress or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the laws, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disabilities.

Section 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, will not be questioned; but neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave,—but all such debts, obligations and claims shall be held illegal and void.

Section 5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

Senate adjourned to Monday.

The House, by a vote of 52 to 42, reconsidered the vote for adjournment on the 23th of June, and referred the resolution to the Means Committee.

The Senate amendments to the House bill to amend the postal laws were concurred in. The bill has therefore passed both Houses.

Mr. Blaine, from the Committee on Military Affairs, reported a joint resolution declaring that where any enlisted man has been or may be detailed for duty as clerk, or for other duty, he shall not thereby be deprived of his right to bounty. Passed.

The House proceeded to the consideration of the bill to establish a department of education at Washington. Rejected—59 to 61.

The report from the Reconstruction Committee was presented and ordered to be printed.

The Conference Committee on the Fortification bill recommended an agreement to the appropriation of $50,000 for Fort Popham on the Kennebec river, Me. The amendment was concurred in.

A reconsideration of the vote rejecting the bill to establish a Department of Education was moved. Adjourned.

Correspondence of the Chronicle.

MAORI GULLY, Arnold District,
Westland, New Zealand, Jan. 15, '66.

Dear Chronicle:—Your brilliant correspondent has changed his base from the Province of Otago to this one of Canterbury, and concluded to favor your readers with another letter. And, as a start, let me beg of you not to send me any more copies of the "Stars and Bars," as I have been tired of hearing our country called tyrannical, mean, cowardly, &c., and our President, Senators, Army, Navy, Clergy and people, denounced as blood-thirsty and inhuman, by British sympathizers with Southern efforts to gain "freedom," and don't want to read any more hatred of liberty and democracy, especially in American papers. By the way, I thought a lot of loyal gentlemen had hanged the editor of that Confederate organ, and burned the office, but it seems I was mistaken—more's the pity.

My old friend the "Shenandoah" has been frolicing up the Arctic, as we learn from the papers, and our latest news is that she has reached the Confederate seaport of Liverpool; so that the last Secesh pirate has got safely into the last Secesh port held by the Southern aristocracy.

The imbecile attempt of the Federal States to preserve the Union, although the people of those States are inferior in courage, military ability, humanity, and endurance to the better blooded and warlike chivalry of Secessia, has proved successful. Not so the Maori war in this favored land. That great contest is very much no nearer its close than it was some time ago. British valor, though supporting a just and honorable cause (the driving the Maoris from their lands and homes,) has proved insufficient to conquer a few thousand of savages. England is about tired of a bootless war, in which she expends men and money, and gets no booty or glory, and is calling her troops home. When they are all gone, the colonists will soon make peace, for they don't like to spend money, and havn't got any to spend if they did like to do it.

This place, (Maori Gully,) is a gold diggings; and I propose to give you a slight account of the gold miner's life at the present day, in New Zealand. The first thing to do is to get on the diggins, to do which you must take a passage in a steamer for Hokitika, where you get wrecked on the bar—all vessels get wrecked on the bar, coming in or going out. You then travel in any direction where you can find mud enough to get up to your waist, and in due time you get on the gold field, where you go work, and keep at it for a long time, but get no gold. If you are lucky and *do* get any, you turn savage at once. You get up in the morning, eat ham and bread for breakfast, work till you think 'tis dinner time, eat more ham and bread, work till supper, which consists of ham and bread, and then go to sleep.

On Sunday the programme is altered. The digger gets breakfast, and then commences the exercises of the day. Being a Christian country no work is done: but the gold is sold, "grub" laid in for the ensuing week, clothes washed and mended, and then all hands knock off, and cut firewood enough to last till next Sunday afternoon. After the firewood comes supper, and the evening is spent in devotion to the bottle which has been brought from the store. Next morning go to work again—an intellectual life, truly.

The Western side of New Zealand is heavily wooded, and intersected by a great number of rivers, all running nearly parallel with each other—all rising in the dividing range of mountains, and running westward to the Pacific, and all partaking more of the character of mountain torrents than of civilized rivers, intended for navigation. After a heavy rain, (more or less of which falls every day,) they rise to a great height, and carry huge stones, trees, and every thing else which comes in their way, onward to the ocean, where all the "washing" is deposited, in the form of bars and banks. During these floods they are wholly impassable, either by fording or in boats, and many hundreds of poor fellows have lost their lives in attempting to cross at dangerous periods, since the discovery of gold in this section of the country.

There is but one pass through the mountains which seperate the eastern and western portions of the island discovered, as yet, and the hardships suffered by those who took the overland route from Canterbury, before a road was cut, were terrible. A river (Teremakan,) rises on the top of the "saddle," or highest point of the pass, and the route lay down it course, sometimes on one side, sometimes on the other. The river had to be crossed *forty-three times*, in a journey of sixty miles, as it was impossible to continue on one side, as it flows through a deep gorge, and frequently quite close to either side. While the river was small, (near its source,) the crossing had little difficulty or danger; but lower down to cross alone was a forlorn hope. The method adopted was, to wait on the bank until a large number of men had collected, and then join hands, the tallest and strongest men up stream, and take the ford together. If one lost his footing the other enabled him to regain it, but in crossing alone, if once swept from his foothold, the strongest swimmer had but a faint hope for his life. Sometimes a whole chain would be swept away, and "the body of an unknown man, found drowned," be their last record in this world. Only a few weeks ago four poor fellows, who had evidently lost their lives in attempting a ford, were picked up in the Grey river, still hand in hand—not one of them having a pocket book, nor a scrap of paper, which could lead to identification of the bodies. One of them had writing materials in his blanket, as though he had intended to write to some one, but his friends will probably never learn his fate.

Many lives, too, have been lost by boat accidents. The only method of boating, except within a few miles of the river's mouth, is by "tracking," the boat up and *pulling* her *down*; and some idea of the rapidity of the currents may be formed from the fact that while four days are consumed in getting a light skiff, containing one ton of goods, forty miles up the Arnold river, the down passage occupies but two and a half hours. The rivers are full of snags and rocks; and if a boat strikes one of these, there is but one crash, one cry, and all is over. The bodies are generally carried to sea, and seldom recovered. Boats, too, manned by persons unacquainted with such dangerous navigation, are sometimes overpowered by the current in attempting to cross too near a river's mouth, and swept into the surf. I have seen two boats' crews (one of two men, the other of seven,) drowned in this manner myself; and a number of other cases have occurred. But I think I've written enough to give your readers some idea of what New Zealand rivers are like, so I will now tell them a little bit about the towns.

There are but two towns on the West Coast of any importance, one named Hokitika, and one named Greymouth, on the river Grey. Of the two Hokitika is the largest and most important. The town is built principally on the sea beach, which is composed of a loose shingle and shifts in every gale.—More than one building has been undermined and taken to sea by the river, during heavy freshets. How many people the town contains I don't know—perhaps three thousand, not more; and to accommodate this population there are upwards of 180 hotels, or rum holes—in some of them you can get a meal, in more of them you can get a bed, but you can get as drunk as a lord in every one. Seven or eight banks, a courthouse, a jail, lots of tents, one church, and a number of wrecks, (some of them right up among the houses,) mixed up with merchants, sailors, diggers, loafers, and a few women, (enough of the kind,) complete the picture of a West Coast city. Greymouth is similar to Hokitika, but it is smaller, and the wrecks do not get up into the streets, as the town is built on the river bank instead of the sea beach.

There is one institution in this part of the world which was new to me, and I've no doubt will be new to your readers—the "traveling shanty." This is a big lump of a loafer, who goes about the diggings with a keg of rum or brandy on his back and a glass in his hand, selling "nobblers" at a shilling a drink. Every one despises him, but he makes money and that's all he cares about, having no character to lose. Society is a queer jumble out here, and people are called respectable who wouldn't be allowed to gather rags in America. The mosquitoes are awful—I'll quit.

Yours, ICE.

OFFICIAL HOSPITALITY.—At Concord, on Thursday, immediately after the inauguration of Gov. Smyth, and the reception and reading of his Message, that gentleman entertained the Governors of Massachusetts and Vermont, together with about sixty other guests, at the Eagle Hotel. Amongst the number were Ex-Gov. Goodwin; President Smith, of Dartmouth College; Rev. Dr. Burroughs, of Portsmouth; Dr. Loring, of Salem, Mass.; the Executive Council of Gov. Smyth, several representatives of the press, officers in the now disbanded army, and the State officers. The entertainment was sumptuous and abundant, (says the Statesman,) and the more grateful in that cold water was the only liquid at the feast.

The time was too limited to enable the company to derive all the satisfaction that would otherwise have been experienced in listening to the many gentlemen of speaking talent who surrounded the board. But Gov. Smyth introduced the following guests in the order of their names—Gov. Bullock, Gov. Dillingham, Pres. Smith and Rev. Dr. Burroughs—each of whom replied in a felicitous manner to the call of the presiding genius of the feast—our own Chief Magistrate.

The occasion was one of a highly gratifying character, since the uninterrupted harmony that has ever existed between the three commonwealths whose chief executive officers sat at the head of the table, was one of the topics—rather the chief topic—of the brief remarks of the foregoing gentlemen.

☞ More returning Fenians arrived in Boston on Saturday.——A Fenian council of war at Buffalo has decided it best to order all troops back to their homes. Without arms and without money they think it a useless waste of life to enter Canada.——A fight was expected on Saturday between the British regulars and the Fenians at Pigeon Hill.——A dispatch says the United States troops are thoroughly tainted with Fenianism and can not be relied upon to enforce extreme measures.

NEW HAMPSHIRE ITEMS.

—— It is stated that when Governor Smyth received a message from Secretary Stanton, notifying him that it might become necessary to make requisition upon New Hampshire for troops to go to "the border," he made answer that the men were then in Concord, ready to march.

—— The Brattleboro' Phœnix understands that a petition will be presented to the Legislature for a railroad along the New Hampshire side of the Connecticut river, between Walpole or Westmoreland on the Cheshire road, and Hinsdale on the Ashuelot road.

"A GROUP OF CHICKENS," a very successful production from the press of L. Prang & Co., Boston may be seen in the window of Mr. Foster's book store, among other pretty things. The Boston Transcript gives an interesting article on "Chromo-Lithography," of which this beautiful and life like picture was the text, showing what careful manipulation and artistic skill were essential to its execution. It has, in its careful and harmonious coloring, the effects of an oil painting, and besides being pretty and pleasing in itself, indicates that in America the process of rendering colored prints will soon attain the highest degree of excellence—equalling, if not surpassing anything that has yet been done abroad.

☞ The New York Weekly Magazine, a very excellent periodical, published by Frederic S. Hill, 79 Nassau street, New York, has just commenced a new story by the author of "East Lynne," entitled "Lady Adelaide's Oath." Each number contains popular tales, domestic stories, sketches of travel, papers on popular science, short essays, poems, &c. Besides selections from foreign publications, it contains a great variety of original matter, and has so suited the public taste as to have already acquired a circulation of 20,000 copies. The price is only ten cents a copy or $4 per year. It may be obtained direct from the publisher, or at Batchelder's newsroom in this city.

☞ The Galaxy for the 15th inst. has contributions by Prof. Blot, Bayard Taylor, Theodore Tilton, and numerous other stars in the literary world. Price 25 cents a number, $5 a year, and may be ordered at Batchelder's or direct from the publishers, W. C. & F. P. Church, New York.

— The fine lady, and the good housekeeper, will find the J. Monroe Taylor Soap, one of the most useful and beneficial articles used in the household. It is an article that beautifies everything it comes in contact with, and, in justice to the manufacturer, we take pleasure in saying that we have never, in a single instance, found him to depart from all he promised the public, when first introducing his valuable and indispensable Soap. 98

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiments on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere. my1—2mMTuag

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES.

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy &, Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. ROBBERY AND ARREST.—On the 4th inst. Messrs. Butler, Sise & Co, hardware dealers, 120 Milk street, Boston, were robbed of money and paperr to the value of $10,363.

On Tuesday morning, Officer Johnson while passing up Congress street had his suspicions aroused by the actions of a young man who came out of Mr. Trafton's shop, and watched him until he entered Mr. Bennett's store and was engaged in examining watches. Mr. Johnson then went to the Station House to place another officer on the watch of the suspected man, while he himself should be engaged in another matter. While there, Mr. Webber came in and stated that a party whom he suspected had put a horse up in his stable, and Officer Pickering, in citizen's clothes, went to see if he could buy the team. The person who had brought the team offered to sell, and stated that he came from Salem to bring a man (describing him) to attend the wedding of Col. Ames' daughter at Rye Centre. Knowing that no such personage existed there the officer brought the man to the Station House, where he stated that he came from Ipswich, and a telegraph to that place proved him to be all right.

Officer Johnson then went after the individual who had first excited his suspicions, and despite his "blowing" brought him to the Station House. There he gave his name as Henry H. Wagner, and stated that he came from Boston and was bound to Portland. When about to be searched he was asked what he had about him, to which he answered "I don't know," at the same time handing out a package of money, which proved to contain $6000, which he said he had made gambling. The officers however noticed that it bore the bank date of June 4 on the package. He was then confronted with the man who drove him hither, and after a long examination the detectives succeeded in eliciting from him the facts of the robbery.

His name is Josiah B. Whitney. He was in the employ of the firm named, and on the 4th drew the stolen money from one or more banks, purchased a horse and buggy for $375, and with two accomplices, who are supposed to have induced him to appropriate the money, drove from Boston to Danvers. There, fearing to drive further with three in a buggy, they separated with an agreement to meet in Gardiner, Me. The other two drove back to Boston and took passage on the steamer to Portland, carrying their team with them.

The first intimation Officer Johnson had of the robbery was that he had caught the thief and secured a large portion of the money. Officer Pickering went to Portland and gave the Marshal there information regarding the two rogues expected at Gardiner, and Deputy Marshal Wentworth of Portland arrested them in Gardiner on Friday afternoon. They were young men, named Hollis Chase and —— Weeks.—With them a considerable sum of money was recovered, enough to make the amount regained between $8000 and $9000, and the team was found at the residence of a sister of Weeks, living about five miles from Gardiner. They confessed their guilt and were taken to Boston on Saturday.

Verily, Portsmouth is no place for rogues to seek as a refuge.

A PRECOCIOUS YOUTH.—A lady in the southern part of the city has been losing small sums of money at different times from her house, and on Friday she missed a five dollar bill, but did not inform the Police. The Marshal, however, discovered that a boy whom he has suspected for some time, was spending more money than he thought he came honestly in possession of, and instructed Officer Pickering to arrest him. He was detained in the Station House until night, when he confessed to the Marshal that he had stolen the bill from the lady above mentioned, and went with the Marshal to the foot of Salter street and found stowed away in the wharf $3.55 of the money, where he had placed it for safe keeping. The boy is only ten years of age and has been guilty of several acts of this nature, as appears by his confessions to the Marshal. He will now be taken care of.

☞ We understand that the negotiations for the purchase of Seavey's Island by the United States are nearly completed, and that the necessary papers for its transfer are are being drawn up by Francis Bacon, Esq., who will search the records at Alfred, Me., to substantiate the validity of present titles. The price to be paid amounts to $105,000. To the unremitting exertions of Col. Wentworth is due in a great measure this large addition to our Naval accommodations. Whether the location of a navy yard at this point has proved an aid to our city or not, (and there is considerable room for argument on this point,) so long as we *do* have one here the more extensive the better.

☞ Rev. Dr. Peabody, the esteemed Chaplain of Harvard College, has sailed for Europe to attend the meeting of archæologists at Antwerp this summer, and to make a tour of the continent and pay a visit to the Holy Land.

☞ The elegant new car just completed at the works of the Eastern Railroad Company in East Boston, of which a correspondent made notice on Saturday, will arrive in this city at three o'clock this afternoon, and all who are interested in witnessing the lavish expenditure which the present management of the road are making to insure the comfort of their patrons, are invited to examine this car, which will hereafter be run on Conductor Philbrick's train to and from Boston. That it was constructed under the supervision of Mr. John P. Somerby, a "Portsmouth boy," will not detract from its merits in the eyes of people here, for as we can not keep our "sons" at home we feel a pride in their success elsewhere. The car is fifty feet long and will seat 56 passengers, besides having room for two saloons, conductor's room, &c., and has a monitor roof. The inside finish is mottled maple, ornamented with black walnut and gold mountings. The upholstering is green and crimson plush. The seats are of a new pattern, remarkably roomy and easy. The paintings and decorations are superbly elegant. During the coming month several just such model cars will be placed on the Eastern road.

REAL ESTATE SALES.—On Saturday, William H. Hackett sold at auction the house on Cabot street, near Islington, recently occupied by Col. Wm. Stearns, for $4250. Marcellus Eldredge was the purchaser.

Joseph P. Morse sold at auction the three-story house No. 7 Vaughan street for $3100. Dr. Wm. Laighton was the purchaser.

WASHINGTON ITEMS.—The Soldiers' Rest, at which over one million of Union soldiers were fed as they passed through Washington during the war, is to be abolished and the buildings sold at auction.

The Assistant Commissioner of Freedmen's Affairs in the district of Washington estimates the number of rations which it will be necessary to issue to the freedmen during the month of June, to be six thousand; full rations, payment for which will be secured by liens on the crops to employees and laborers, 350; and rations to dependants, 22,000; total, 28,350. This estimate includes children sick in the hospital, aged and infirm in Alexandria, Fairfax and Loudon counties and Freedmen's village.

The Inspector General of the F. B. states that a report is in circulation and creating considerable excitement among the colored people in St. Mary's county, Maryland, that a number of desperadoes and returned rebel soldiers are organizing and drilling in Calvert county for the purpose of driving the freedmen off the government farms in St. Mary's county.

President Johnson has given Rev. Dr. Porter of South Carolina permission to occupy the Marine Hospital in Charleston for a freedmen's school, under the auspices of American Board of Missions.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or, the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,088,072
" " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " '65..12.18
Ratio of assets to liabilities, Jan. 1, 1866....161.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER *SURPLUS* to divide among its members than any Company in the United States.

QUERY. Will *some* one inform the public of that mysterious process by which a Company with a surplus proportionably much less, and expenses *very much* larger than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it cannot be done. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

From the Portsmouth Journal

OUR HOME SHIPPING—WHY IS SHIP BUILDING AT A STAND?

This is a question of no little importance, one which many are asking,—and one which requires attention in a national point of view. It is well known that the danger of merchantmen in the time of the rebellion led to the sale of many of our ships abroad—and also that the depredations of the Confederate privateers, and the numerous wrecks and disasters, have greatly reduced the number of our ships, and placed the advantages of commerce in the hands of other nations. It was to be hoped that with the change of times our ship yards would again resound with the sound of the hammer, and ships would be seen going up wherever a yard could be found. But it is not so in New England, or elsewhere in our country. The true cause is, that the excessively high duties on the various materials necessary for ship building, and expense of labor as a secondary item, make the cost of our ships so great that they cannot come in competition with the cheaper vessels built elsewhere, and make a living business.

In former times on our river there have been a dozen vessels building at the same time, when the call for them was no greater than at present: but now we have but one, and that in the progress of slow construction. In former times on the shores of the Kennebec, thirty ships might be seen going up at the same time—now probably not half a dozen can be seen in the course of construction. The same remark applies to ship yards every where on our coast.

A Newburyport correspondent says:—Our ship yards continue to show the depressed condition of the merchant service. In one yard a contract for two steamers on the Boston and Liverpool line is being completed—in all the other yards but little activity is to be seen.

While the fact of the hard pressure of duties on our shipping is forbidding their construction, our neighbors down east, just on the line, are reaping a rich harvest. We have before us in a private letter from New Brunswick, a list of seventy-one vessels, measuring 47,578 tons, built this spring and now building there, of which only five are of less than 800 tons—twenty of them are over 1000 tons, and some are up to 1500 and 1600. Of these there were building at

St. John and vicinity,	29 vessels,	tons	25,625
Outports,	8	" "	2,470
North Shore,	21	" "	11,695
Schediac,	13	" "	7,788

On the whole coast of New England, and over our whole country, there are probably not now constructing more ships than in the little British province north of us. Ships of 1300 tons can be built there for between 40 and 50,000 dollars; while at home, under the disadvantages of the times, the cost is nearly double. They are many of them constructed of hackmatac, a cheaper material than we use, but they possess all the advantages for the carrying trade, and enter into it to supply the deficiency in our own mercantile marine, much to their advantage.

What can government do, and what is its duty to do, to change the current, and increase the means of successfully doing our own business in our own vessels? The answer is plain. Give encouragement to the builders by granting drawbacks on the material used—on the copper—the iron—the cordage, and other materials, the duties upon which are now so burdensome as to prevent progress. A change of policy in this respect would so increase the business of ship building, that government would be a gainer instead of a loser by the aid thus afforded. The matter should immediately receive attention by those who have the power to regulate it.

ROCKINGHAM COUNTY CONFERENCE.—The annual meeting of the Rockingham, Co. Conference of Congregational Churches will be held in this city on Tuesday and Wednesday next, June 12th and 13th. There will be public meeting for organization at the North Church on Tuesday at 10 A. M., and sermon at 11. There will also be public services in the Church in the afternoon and evening, at the usual hours. On Wednesday morning at 6 o'clock, a prayer meeting in the Chapel on Fleet street. At 9 o'clock, public services in the Church, and at 11 o'clock, addresses on the Sabbath Schools, and singing by the children. In the afternoon, the closing sermon, and administration of the Lord's Supper.

RAIN.—Our weather record shows that in eleven days up to Thursday last, 6 inches of rain fell. Our record of last year shows, that during the whole of the months of June, July and August the fall of rain was 6¾ inches—or only ⅔ of an inch more than has just fallen.

As Portsmouth contains about 10,000 acres, the six inches of rain gives over 40 millions barrels of water as our portion in the eleven days.

The ground and the springs are now well supplied, much more abundantly than previous to the dry summer months of last year.

At the annual meeting of the Stockholders of the Portland, Saco & Portsmouth Railroad, on Monday, the following Directors were elected:—Ichabod Goodwin, Portsmouth; George M. Brownе, Boston; Francis Cogswell, Andover; Nathaniel Hooper, Boston; Charles E. Barrett, Portland; George W. Burleigh, Great Falls; Stephen H. Ballard, Boston.

The report of the Treasury in reference to the sale of gold will probably be sent to Congress on Monday. It is stated it will show total sales amounting to 35,000,000 at premium since 1st inst. of 30 1-2, also that gold was sold in March and April for less than 27.

The Concord Patriot, referring to the recent trial in the U. S. Circuit Court at Portsmouth, of two or three cases of individuals charged with passing counterfeit script, where the Government failed to convict, speaks of them as having their origin in political malice, and exults that the Government failed to make out its case. As the Patriot appears to know so much about these matters, perhaps it can tell by what or whose management a copperhead jury was drawn to try these cases, and while all the evidence was so plainly on one side and the verdict on the other, that even a good a democrat as Judge Clifford is reported to have expressed his astonishment and grief that the state of public sentiment in New Hampshire, as represented by the jury, was such, that the Government could not protect itself against counterfeiters of its own currency!—*Dover Enquirer.*

the largest Wine Merchants in New England. Their object for this outlay is to

TELL THE PEOPLE

that they have the most extensive variety of

PURE WINES AND SPIRITS

of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—

EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.

EXTRACT OF RYE;

WHAT IS IT?

Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it

The Very Best

and from the best Rye at that.
None of your musty, mouldy, heated stuff, but the

Very Best of Rye

that grows in the Cumberland Valley.

It is enough to do a man's soul good to taste it, and see how different it is from the strong, fiery stuff that people use for Rye Whiskey.

It is Made Different.

It retains, by a peculiar mode of distillation, the very

MEDICINAL QUALITIES

that have made it so popular. If you want to use

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness,* and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions,* and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases,* when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of General Debility, restoring Manliness into the system and full vigor,* thus proving a perfect "*Elixir of Life,*" removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

"As the Phenix rises from the ashes of its fire, animated with new life"—so does this Elixir restore unto the system and full vigor, thus proving a

Price, one bottle $3; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

CHOLERA DISARMED!!!

The Chief Causes of Pestilence Destroyed.

DR. E. R. COURARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 208, 209, and 301 Henry street, N. Y.—Office, 42 Cedar street.

The Company organized on a permanent basis, with Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its Disinfectants for sick rooms, hospitals, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions, of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter), and for other poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the literal scientific meaning of the words. They remove noxious gases and odors by chemical principles—leaving in their places *healthful* ones; they are *destroyers of the cause of offensive exhalations* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

DELAVAN HOUSE, Albany, March 30, 1866.

The Chronicle.

☞ The N. Y. Times has high Fenian authority for stating that a person who went to Washington a short time ago to consult with President Johnson in regard to the present movement, was assured that they need apprehend no trouble on the part of the United States authorities; that it would be necessary to make a show of attempting to prevent a Canadian invasion, but active movements need not be apprehended. In regard to according belligerent rights to the Fenians when they had planted their banner upon British soil, the President is represented as having said that "this Government will recognize accomplished facts—when the Fenians show their ability to become belligerents, they will be accorded the rights of belligerents."

This assurance, or this reported assurance, is said to have had great weight in determining the leaders to undertake the present invasion. Much surprise and chagrin is manifested at the prompt and energetic manner in which the U. S. Government has interfered for the prevention of the Fenian schemes. Without such interference, it is said that Canada would surely have fallen a prey to the invaders, so comprehensive were the plans of Gen. Sweeney. Attempts will be made, so it is affirmed, to evade the United States forces, and effect a lodgement of Fenians on the Canadian shore. Assertions are made to the effect that all the Irish in Canada, and one-half of the British troops there, are ready to take up arms and fight in the Fenian cause.

GOV. SMYTH speaks very briefly on Restoration or Reconstruction,—and speaks to the purpose. He says:

That the progress toward a restored and harmonious country should be unattended by grave difficulties was not expected; that loyal men should differ upon the details by which desired results were to be obtained was unavoidable, and the earnestness with which conflicting views have been asserted could not well have been less forcible, when all the circumstances of our great contest are considered. If our principles are true, they will bear discussion and opposition; if not, they deserve to fall. I am sure you will agree with me that there can be no lasting settlement of the questions now pending before the national councils, except upon the broad platform of impartial and universal justice. Let us hope that whatever remains to be done to give solidity and harmony to national unity will be wisely and speedily accomplished.

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.
Sold by all Druggists in Portsmouth and elsewhere. lysndao—oct19

Portsmouth N. H.

TUESDAY, JUNE 12, 1866.

☞ The N. Y. Tribune's Richmond Correspondent says:

We are credibly informed that the President has expressed his confidence in a jury of Virginia gentlemen, even on a question of treason. It is believed that Davis will not be brought to trial, but will be bailed, or paroled.

In another part of the same letter, the writer says:

Judge Underwood's charge is considered highly offensive by the citizens, but it was undoubtedly brave and bold; its delivery was quiet and firm spite of threats against his personal safety. The Judge, on his arrival in town, was conducted to Gen. Terry's headquarters instead of to the hotel.

Putting these two things together, makes this odd jumble, viz. that while the President confides in Virginia gentlemen to try a criminal,—the judge who dares to speak a word in favor of his trial, is not safe in a hotel, but gets protection in a military post.

WASHINGTON ITEMS.—A dispatch from Oregon states that a Republican Congressman has been elected for the fortieth Congress. This is the first election for that Congress.

The Constitutional Amendment will be taken up in the House on Wednesday and pressed to a vote without debate. There is no disposition to debate the question.

Orders for the new five cent pieces can be filled the coming week at the Philadelphia mint.

It is believed by well-informed persons in Washington that Jeff. Davis will shortly be released on bail from Fortress Monroe.—Among those who have offered themselves as bondsmen for Mr. Davis are Horace Greeley, Commodore Vanderbilt, and other well-known Republicans.

Edward Long, the negro rioter, charged with atrociously murdering Mr. Whitehurst during the negro celebration of the passage of the Civil Rights bill, was found guilty in the Circuit Court of Norfolk yesterday and sentenced to 18 years imprisonment.

The rebel privateer Chicamauga, which was sunk in Cape Fear river and subsequently raised, was sold at auction for $15,000.

The Fenians at Washington who have advocated the invasion of Canada denounce Secretary Seward bitterly, and say that as he was cognizant of their movements, he should have arrested them before any one went into the gap.

THE FENIAN WAR.—Parts of New York look like the times of the rebellion. Opposite the St. Nicholas Roberts has his headquarters. Crowds of Irishmen and laborers hang round the doorways and line the passageways and stairs. Roberts is an Irishman, and keeps a dry goods store on the Bowery. He is a man of wealth, owns a great deal of real estate, of decided talent and greatly respected. He is under arrest, and refuses to give bail to keep the peace. He will give bail for the past, but no pledge for the future. He is under the charge of an officer. Burleigh says, under date of June 9:

The authorities have handled this Fenian matter very gingerly. Gen. Meade with his 1000 men were for some time without instructions from headquarters. Telegraphs availed nothing, and he was left to his own judgment; and it was not until the President's proclamation appeared that United States officers were guided by instructions from Washington. The Fenians are howling out their curses on the President and his officials. They laugh at the Canadian volunteers. The regulars could not stand a moment before the impetuous charge of the boys in blue, and but for the interference of the United States government, Canada would have been theirs, they say. And they promise to remember it at the ballot-box.

☞ The Fenian invasion of Canada has closed,—leaving some prisoners behind, in British and Canadian hands.

☞ A fire in Charlestown, Mass., Saturday night, destroyed a number of workshops, and turned about 50 poor families out of doors.

GEN. SHERMAN BECOMING POLITIC.—Gen. Sherman, in a recent visit to Minneapolis, made a pleasant little speech, and was about to retire, when cries of "go on" resounded from all sides. The General added: "I have studied politicians, and have learned by imitating them to talk a few minutes without saying anything at all." The statement was received with great laughter and cheering.

— The Wesleyan Methodists, some time ago, built a hall in Bishopsgate street, London, a freehold, which cost them £35,000. They have been recently offered £157,000 for the property. In the course of evidence given recently before the Deputy Recorder of London, it was stated that land near St. Paul's Churchyard was worth £1,000,000 per acre.

— The Davenports have been outdone by a prisoner named Boone in Mobile, upon whom it has been found impossible to keep irons or shackles of any description.

NEW HAMPSHIRE ITEMS.

—— Rev. Dr. Barstow of Keene has been chosen Chaplain of the House.

—— Horace H. Danforth is Captain of the Gilmore Rifles, and not Horace H. Danford, as heretofore announced.

—— Captain L. W. Fogg, of Dover, late of the 8th N. H. Vols., was last week appointed 2d Lieut. in the 12th Infantry, U. S. A. now doing duty in Washington.

—— Mr. Jesse Murphy, the owner of a pail factory in Unionville, Swanzey, had his left had so badly cut to pieces with a circular saw on the 30th ult., that immediate amputation was necessary.

—— Rev. Roland Connor, pastor of the Universalist Society in Concord, has accepted a call from the Society of Rev. Dr. Miner, in Boston, to become his colleague at a salary of $3000.

—— Lieut. Col. W. H. D. Cochrane, of this State, who was in the army of the Potomac, and has since been in Texas in the Quartermaster's Department, has arrived at Washington from the Rio Grande, and is about to leave the service.

—— Mr. Paran Stevens of New York, has proffered the town of Claremont a donation of 10,000 for the establishment of a high school, provided the town will raise an equal sum for the same purpose. A town meeting has been called to take action in the matter.

—— A young man in Orange, the other day, offering insulting language to a widow lady, who was crossing a pasture by a foot-path, she promptly seized a stake from a fence near by, and stood upon the defensive in so earnest a manner that he thought it prudent to beat a retreat, and has not since been heard from.—*Lebanon Free Press.*

—— The people of Wolfeborough Precinct have bought a fire engine of the city of Dover, for $400, and five hundred feet of new hose, at $1.35 per foot. They are going with this apparatus to extinguish fire in buildings, and hope to extinguish rum-fire in men by a combined movement against liquor dealers.—*Statesman.*

—— The Coos Republican, in a weather item, says: "Deceived probably by the warm weather of April, troops of birds unusual to the climate have appeared among us, chief among which were the Baltimore orioles, and other birds of brilliant plumage. Scores of dead birds, chilled by the frosty air, have been picked up in all directions."

—— According to a report of Dr. Hayes, State Assayer of Massachusetts, who has recently annalysed specimens of rock from the gold mines of Lyman, the owners thereof are likely to realize handsomely. The red quartz has been found to yield, per ton, $867 in gold; the mixed quartz, talcose slate, gozzan, pyrites, &c., yield, upon analysis, $310.42 per ton.

☞ At a special meeting of the City Council, of Dover held on the 4th inst., the following resolutions were passed:

Resolved, That the Boston & Maine Railroad have and do, in the tariffs of their road so discriminate against the City of Dover, as to operate with great injustice and oppression to our citizens, and not only have they prevented capital from accumulating, but have actually driven it from us and from our State, and have thereby impaired the growth and prosperity of our City and State.

Resolved, That our self preservation, and especially our future prosperity and growth require that we seek some new channel of communication so that our transportation may be had upon terms of equality with other towns and cities.

Resolved, That the interests of the City of Dover and of the community require that a Railroad be immediately constructed and opened between Dover and Portsmouth, and that the members of the City Council of Dover, both officially and individually do request and pray the Legislature to grant a charter authorizing the building of such road.

An additional resolution was adopted to make application to the Legislature for the necessary charter at the present session.

— Somebody in Boston sent a letter to the Secretary of the Treasury, last Wednesday, asking him to place an enclosure of $2500 to the credit of the nation. The package only contained $1500, and the Treasurer thinks it has been opened and robbed of the missing $1000.

— The Galveston News learns that cotton is now generally knee high, but in many instances the grass and weeds are still higher. Corn is said to be generally in silk, and is probably to far advanced to be seriously injured by the grass.

— The Adams Transcript says: "The rock on the west end of the Hoosac tunnel, which inspired so much confidence in its friends, lasted only sixty feet, and the same quicksands are now encountered as before.

— Gov. Fenton, of New York has been so much blamed for pardoning Zeno Burnham, the mock-auctioneer swindler, that he now gives notice that applicants for pardons must publish their applications, in a prominent news paper, so that the public can state their objections.

— An eight hour ordinance has been passed by the Detroit Common Council. The scale of prices for labor is as follows: Street laborers working ten hours a day get $1.65 per day, while those working eight hours get only $1.35. Man and team working ten hours get $3.75; eight hours, $3.

STATEN ISLAND.—The most intense opposition is still manifested against the establishment of a Quarantine at Staten Island. The people in the vicinity of Seguin's point refuse to board or entertain any of the hands employed on the buildings, and not a few threats are used against all those employed there. Among the oystermen at Tottenville and Pleasant Plains there is a great deal of indignation, and public meetings are being called to express their opposition to the measure. But, notwithstanding the state of public feeling, the Board of Health are making rapid progress in fitting up the necessary buildings. Meanwhile, the gunboat Cuyahoga, with her shotted guns run out and pointing toward the refractory island, seems to inspire a wholesome dread among the Staten Island "Sepoys," as they are called.

☞ A merchant gives the Boston Journal the following account of a piece of cool rascality which took place in New York on Tuesday last:

"Col. John Goddard of Portland, Maine, was robbed in a horse car, in New York city, by a party of four professional pick-pockets, of his pocket-book, containing two thousand dollars in bills, drafts amounting to ten thousand dollars, and other valuable papers, while passing through the city on Tuesday, the 5th inst. On reporting the matter to the police in New York they at once recognized the party of thieves, one of whom recently robbed a man in State street Boston, of a valuable gold watch, and was arrested but allowed to go New York after pleading guilty. The police offered to return to Col. Goddard the papers by paying two hundred dollars, one of which would go to the thieves, and the other to themselves. Query? Who is really the guilty party, the judge who let the thief go clear or the police of New York, who knew the rascals and allow them to proceed in their business?

NEW HAMPSHIRE HORSES.—A great trotting match for $6000 has been made between the stallion Fearnaught, (raised in Stratham,) now in Hiram Woodruff's stable, New York, and the chestnut gelding Dan Mace, in that of James Turner, at Boston. It is to be mile heats, three in five, to go as they please. It is to come off on the Mystic Park, Boston, in July.

The beautiful and speedy trotting mare Lady Shaw, of Concord, has been sold to Mr. Maynard of Boston for $5000.

☞ From L. Scott & Co., New York, we have the London Quarterly Review for April, and Blackwood's Magazine for May. They republish the four leading British Quarterlies and Blackwood, at $4 per annum for any one, or $15 for all five.

☞ Sheldon & Co., New York, have just published a manual on "Croquet, as played by the Newport Club," which is more explicit in all directions than any heretofore published in this country.—Messrs. Whipple & Smith, Salem, Mass., furnish this popular game in all styles, at the lowest rates.

— A beautiful young trotting mare, daughter of Ethan Allen and Pocahontas, has recently been sold in Boston to go New York, for $20,000!

— A Portland dispatch states that returns from the Oregon election have not been received from many precincts, but the Union men have a majority of from 700 to 1000.

— Semmes, the pirate, and Scovell of N. Jersey have had interviews with the President. The Albany Journal says the one represented the Probates and the other the Reprobates.

— The Rev. Mr. Witherspoon of Memphis lately made an *aute-da-fe* of two volumes issued by a Northern publishing house, because one treated of the iniquity of slavery, and the other of the iniquity of the rebellion.

— On Tuesday, Judge Underwood, of the United States Court at Richmond, declined to give a decision on the question as to the right of lawyers to practice in that Court without taking the oath prescribed by Congress.

— About 400 sail will leave Gloucester for the Bay the present season. Some of the vessels will probably make three trips if they are fortunate enough to find mackerel plenty, and are not molested by English cruisers.

— The excise law operates healthfully and beautifully with New York city, but is most damaging to the suburban villages. "R. S. I.," the New York correspondent of the Providence Journal, avers that last Sunday it sent a hundred thousand people who could not afford to make it "too long between drinks," to the shores of New Jersey and the fields and plantations of Westchester.

— Perfection has been obtained, through art, science and experience, in the manufacture of Herrick Allen's Gold Medal Saleratus, as every lady who has tested it universally exclaims, "There is nothing like it!" Don't fail to test a paper, and you will never use any other. Call on your Grocer for it, and do not be put off with any other. All the Grocers sell it. Depot 112 Liberty Street, New York. 98

THE NERVE OF THE POCKET is sometimes as sensitive as the nerve of the tooth. The universal demand for the fragrant SOZODONT, in preference to all other dentrifices, is swamping all tooth powders and tooth washes of the experimental class of Dentists. Hence they denounce it. 18

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the relief of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Each bottle producing effects contrary to nature's choicest laws will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

Ayer's Sarsaparilla

Is a concentrated extract of the choice root, so combined with other substances of still greater alterative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula, Scrofulous Swellings and Sores, Skin Diseases, Pimples, Pustules, Blotches, Eruptions, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, &c.

Syphilis or Venerial Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.

Female Diseases are caused by Scrofula in the blood, and are often cured by this EXTRACT OF SARSAPARILLA.

Do not discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, when it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Headache, Piles, Rheumatism, Heartburn arising from Disordered Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Liver Complaint, Dropsy, Worms, Gout, Neuralgia, and for a Dinner Pill.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best Aperient in the world for all the purposes of a family physic.

Prepared by J. C. AYER & CO., Lowell, Mass, and sold by all Druggists and Dealers in Medicine everywhere.

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES,

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without disfiguring the trade mark or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any other pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection, by their occasional use to prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. THE "GLORIOUS FOURTH" IN PORTSMOUTH.—We deem it safe to predict that the coming celebration of independence in this city will far surpass any public observance of the day in Portsmouth since the memorable reception of the "Sons" in 1853.

There appears to be no doubt concerning a grand turnout of the firemen in full force, with their engines handsomely decorated,—and several companies are expected from abroad. It is to be hoped that the ladies, with their accustomed liberality, enterprise and patriotism, will assist in preparing a bountiful collation for the brave men who are ever ready to imperil their lives and health for the preservation of our homes from the devouring element.

The procession, of which Col. John H. Jackson has been appointed Chief Marshal, will be very extensive and imposing, consisting of from four to six large divisions. The military escort will comprise several companies of infantry and artillery, including a new company recently formed here, styled the "Portsmouth Zouaves," and, it is thought, a number of fine military organizations from Dover and elsewhere.

The schools will undoubtedly appear in the procession, many of the scholars in floral vehicles, symbolizing the thirty-six States, the Return of Peace, the Land of the Free, Justice, Truth, and other attractive representations. It is gratifying to learn that the teachers of our public schools are deeply interested in this praiseworthy object.

Our manufacturers, mechanics and tradesmen have it in contemplation to swell the procession by a magnificent industrial display. This would prove one of the finest features of the procession. Let all interest themselves in this movement, and the result can but be beneficent to our manufacturing enterprises and highly creditable to our city. It is desirable that those who feel disposed to increase the proportions of the industrial division, as well as all military and fire companies that vote to parade here on the Fourth, should report as early as possible to the committee of arrangements, in order that the programme of the procession may be duly completed. This course should also be adopted by all other societies, lodges, etc. It is understood that the truckmen will join the procession.

Correspondence is being held with aeronauts, which will soon result in satisfactory arrangements for an exciting balloon ascension.—Extra trains will probably run on all the railroads leading into Portsmouth at half fare.

Our excellent musical organization, the Portsmouth Philharmonic Society, Prof. W. K. Day, Musical Director, will sing patriotic odes, &c., at the Temple, before and after the delivery of the Oration and Poem.

The exhibition of fireworks will be exceedingly beautiful, embracing several designs gotten up especially for this occasion.

Messrs. E. A. Tilton, J. E. Townsend, G. W. Marston, W. O. Head and G. J. Goodrich have been added to the Committee of Arrangements.

The Rochester Courier, in alluding to our preparations for the Fourth, states that if the plans are carried into effect,—and it will be admitted that the right persons have the matter in charge,—we shall have the best celebration this side of Boston.

☞ Our vigilant police, in their endeavors to ferret out all evil doers, sometimes get hold of the wrong customer. While in pursuit of some offenders against good morals, a few evenings since, one of the detectives was informed that a suspicious personage had put his team up at a stable and wished to have it in readiness to leave the city a little before midnight. Accordingly the "P. P." stationed himself on the premises and watched for his man. Midnight came but no rogue. Slowly the time passed, until it seemed almost an age between the ticks of the clock, yet still the officer persevered, and at 3 o'clock the coming man was announced, but lo! instead of being a criminal he proved to be a resident of a neighboring town who had come hither on a visit to his true love in whose presence (we risk nothing in the statement) time had flown more swiftly than with the chagrined conservator of the peace.

☞ On Saturday evening, at about 7 o'clock, as Mr. J. Towle and wife, of Newington, were riding through Congress street, their horse took fright at the sight of an outspread carpet. Mr. T. leaped from his wagon and seized his horse by the head, when the animal began to kick in a furious manner, breaking the shafts, dasher, &c. On witnessing the imminent danger in which Mrs. Towle was placed, Mr. A. J. Sides sprang forward and speedily bore the lady from her perilous situation, and in another instant the horse's heels were crashing through the very position just before occupied by Mrs. T. It was a hair-breadth escape from serious if not fatal injury, and Mr. Sides deserves commendation for his presence of mind and prompt action.

NAVAL.—Carpenter Wm. M. Laighton, of this city, has been ordered to take charge of naval property at the Pensacola Navy Yard.

POLICE COURT, June 11.—Pat Hebeir was drunk on Dover street, and when the officers essayed to arrest him cast stones at them. For such ungentlemanly proceedings he was compelled to disburse $6.86.

The continued case of John Keefe, charged with violation of the Sunday ordinance, was settled by that gentleman paying a fine of $5, and $5.87 costs.

One or two minor cases, of truancy, &c., were hardly worth reporting.

☞ It is reported that a meeting of parties interested in a new aqueduct company was held at the Franklin House on Monday, and Messrs. Wm. H. Rollins and Geo. W. Tucker appointed a committee to draft the necessary documents for the business transaction of the body. This is the company organized under the act of the last Legislature, and we hear that they propose the immediate introduction of water from the long contested spring on the line of the Concord road.

☞ This morning at 10 o'clock, the Rockingham Conference of Congregational Churches will meet at the North Church in this city; and after organization, viz. at 11, there is to be a Sermon. Services also in the afternoon and evening. The meetings will be continued to-morrow.

☞ By an advertisement in another column it will be seen that Mr. Edward Rand, late with C. E. Myers & Co., has opened a clothing store on Penhallow street, where he will be pleased to wait upon his old friends and the public generally.

☞ On the 4th page this morning, we re-publish the Sales of Real Estate in all the neighboring towns, with the *prices* (the most important item) annexed.

— James Littleworth of Tennessee, now seventy-eight years old, is the father of 31 children, the oldest of whom is fifty years and the youngest four months. He is living with his fourth wife, whom he married at the age of 59, she being then a little Indian squaw of fourteen.

— The Bath, Me., Sentinel states that on the Calais and Baring Railroad, last week, two young men from Alexander had their feet crushed by the breaking of an axle of a lumber car. If they had remained in their seats in the passenger car, they would not have been injured.

— Franz Joseph Christ was killed by injuring his spine, while attempting to turn a summersault, in Pittsburg, Penn., on Monday of last week. He fell upon his head, and lay senseless, with his lower extremities paralyzed, for forty-eight hours, when he expired.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, mediocrity considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

WHICH IS THE
Leading Life Insurance Company
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to *Liabilities*," or the *security* furnished to its members, the *largest* of any life institution in the country.

Premiums received in 1864.....$2,089,072
" " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..19.96
" " " " " '65..16.16
Ratio of assets to liabilities, Jan. 1, 1865...121.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably much less, and expenses very much larger than another, can yet divide more to its members, and insure them at less cost? How is it done? Where does the money come from?

Every intelligent man will see at once that it cannot be done. Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!

DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use.

Patients arranged with separate apartments, so that attents see none but the Doctor himself.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired. Charges moderate in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care for a few days, can be furnished with kind nurses. Charges moderate.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those diseases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who have consulted other Dr. Dows' treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

CHEROKEE PILLS,
Or Female Regulator,

Cure *Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness*, and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases, when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,

Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course through the veins, restoring the *Organs of Generation, removing Impotency and Sterility, restoring Manliness and and full vigor*, thus proving a perfect *"Elixir of Life,"* removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

"As the Phœnix rises from the ashes of its fire, animated with new life"—so does this Elixir rejuvenate the feeble system and fill it with new life.

Price, one bottle $3; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,

LIGHT WANTED IN THE SOUTH.—A correspondent of the Lynn Reporter, writing from Savannah, Ga., gives the following specimen of Southern intelligence:

"A man in Florida capped the climax for ignorance the other day, when he came into Lake City from the woods. He had just heard some one speak of Lee's surrender, but could no be made to believe it. 'No,' said he; 'I hears tell, a right smart spell ago, that the Yanks had got Richmond, but as for old Bob Lee's surrendering, he haint done no such thing. He haint the boy for that, for I've been in his army once myself, and I know him. He won't do it.'"

— The police jury of Algiers, La., which has refused to appoint on the police force any person unable to read and write English, has the following in its printed minutes:

Be it resolved that the one who shall be elected Syndic of this Parish, shall be bound to keep constantly on hand, for his own use as Syndic, to deserve this Parish, one horse at his own expense, with a salary of Ninety Dollars per month.

THE NEXT ELECTIONS will show that Secessionists and Copperheads, even with the President to help them, will not be able to put the Government into the hands of traitors and sympathizers with traitors. The almost universal popular demand is, that the leaders of the conspiracy at the South, the men who insulted and fired upon the nation's banner, shall have no part or lot in the ruling of the United States, which are united only by their overthrow.

This is the first demand. The second is like unto it. The people of the North will have left not a shred of slavery, or its malignant, disorganizing, anti-republican influence, to breed future trouble and impede the growth of a true civilization. On these points the public mind is made up.—*Boston Transcript.*

— The cranberry vines on Cape Cod, which were flooded the past winter, are now looking remarkably well, but those that were not, are very much winter killed.

— A somewhat notorious character in Fall River, known as "Dustor Lang," was burnt in effigy Monday night by a crowd of people who were desirous of getting rid of him. He took the illuminated hint, and left the next day.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

FENIANISM STILL ALIVE. — We learn from the New York Sunday papers that one thousand Fenians left that city on Saturday for the front, wherever that may be. It appears that enlistments are still going on, but more slowly than has hitherto been the rule. Roberts, it appears, has begun to think bail would not be a bad thing, after he has had some taste of the jail. To a gentleman who visited him on Saturday he stated that the movement would still prove a success. He expressed his indignation against the *government officials*, but stated his desire was to comply with the requirements of the *constitution*, which he holds has has not been compromised by any action of the Fenians.

Some people have queer ideas of our Constitution; and Presidents as queer as any. Here in this country at this time we have four or five Presidents, viz. Roberts, O'Mahony, Head Centre Stevens, Jeff. Davis, and last but not least, Andrew Johnson,—all with ideas more or less crude on the *Constitution*. Then the illustrious XXXs, Fillmore, who approved the fugitive slave bill, Pierce who approved the Kansas Nebraska bill,—and Buchanan, who said we had no right to coerce a State:—what a set Solons and Solomons they are! Was ever a country so favored?

MR. STEPHENS' SPEECH.—Chief Organizer Stephens of the Irish Republic addressed some hundreds of his countrymen Friday afternoon at the Park Grove, north of the city of Washington. Mayor Wallack introduced Mr. Stephens, who spoke for nearly two hours. He denounced the invasion of Canada without stint, and vindicated the honesty of John O'Mahony, although Irishmen cannot forgive him until they can find him fighting for liberty on the soil of Ireland. Toward the close of his speech, he said:

All we wanted in Ireland was a certain amount of war material; and at a certain period last year, if the members of the Fenian Brotherhood of this country had simply said—"We cannot do what you expect; we are rent asunder; we cannot become reunited in time to do service; if you are equal to the fight, go into it;" if we had been told that last year, we could have got all we wanted for the fight, and as sure as there is a God above us, we would have been a free people to-day. We had organized in Ireland over 200,000 sworn men; it was simply an oath of allegiance, an oath similar to that which you poor Irish exiles are compelled to take when you wish to become citizens of the United States, and although that may be a glorious thing for Americans, I have a notion it is by no means a glorious thing for Irishmen; and I shall ask on some future occasion what is meant by this American citizenship; what good it does to an Irishman, especially when he sets foot on English territory; it will be necessary that some man of charity should explain to the Irish people what they gain by this American citizenship.

Mr. Head Centre Stephens has the same right to express his opinions in this country as any other foreigner has. But his latter remarks about American citizenship show him to be either grossly ignorant of the subject, or else a turbulent demagogue, desiring to make mischief, he cares not how much. In either case, the sooner he stops talking, the better for all Irish Americans. They have all the privileges of American citizens, which any reasonable people could desire. But it is impossible for anybody to be a citizen of the United States, and at the same time a citizen of Ireland. The Boston Herald's Washington correspondent says:

Head Centre Stephens' speech displeased the Fenians here. He declared that Roberts and Sweeney, and those who acted with them, had betrayed Ireland. The attendance to hear him did not exceed three hundred.

☞ A St. Albans dispatch of Monday, to the Boston Journal, says:

Thus far no positive evidence has been given that the British troops invaded Vermont. Col. Livingston, in command along the line, reports that they charged down to it and captured some of the Fenians, who probably were shot. The other stories are doubtless exaggerated rumors. General Meade has ordered a full investigation of all the facts. He does not think that there has been any invasion of American territory. Some of the straggling Fenians who were plundering the citizens of Franklin were arrested by Col. Livingston, and will be handed over to the civil authorities.

— The bark Sicilian arrived at Boston Monday from Messina, with 2000 boxes oranges and 1500 boxes lemons.

— The head and arms of Clara Matthews were torn from the body by the machinery of a sash and blind mill at Augusta, Me.

— An old colored man who used to sell pies and pancakes near the Treasury building in New Orleans, having accumulated a fortune of $25,000, has gone to enjoy a summer vacation.

— From the first of next month the Boston banks will receive none but United States notes or bills of national banks on deposit. The bills of State banks will therefore become "uncurrent," and will only be redeemed at the counters of the banks by which they were issued.

PRESIDENT ROBERTS, of the N. Y. Fenians, said to a reporter who visited him:

The proclamation of President Johnson was not only a surprise, but a piece of consummate duplicity. Ten days before a Fenian delegation had called on him, and he expressed himself as sympathizing strongly with the Irish race, and said that a liberal interpretation of the laws should be made in their favor. He accused Mr. Seward of playing into the hands of Sir Frederick Brace, and Johnson was a tool of his Secretary.

This looks a little as if the Johnson party had fished for the Fenian vote; but finally lost it. Then, looking into Congress, we see Mr. Ancona, the alphabetical leader of the pro-slavery and pro rebel members of the House, offering some wonderful resolutions not only in favor of the Fenian effort, but also of plunging into war with Great Britain on that account. This looks like a desire to keep the *Fenian* vote for the Democratic party. And these two things put together, look as if the Johnson plank and the Fenian plank would not hold together very well in one platform.

A MAN KILLED BY A STATE CONSTABLE.—Deputy State Constable George H. Morse, of East Bridgewater, Mass., was called upon, about midnight of Sunday, to quell a disturbance in the house of a man named Conness in West Bridgewater. He proceeded to the scene of the trouble, and arested two men who came out of the house. While taking them to the lock-up they called for help, and a crowd of their companions rushed out of the house to rescue them, attacked the constable with sticks, stones, and other missiles. Mr. Morse discharged his pistol in the air, at the same time warning them that if they continued to molest him he should fire at them. Conness then came up and struck him on the head with a stick of wood, when the constable fired at random among his assailants, and Conness received the ball, killing him almost instantly. Subsequently Mr. Morse, on learning that the man was dead, went to the house of District Attorney Harris of Norfolk County and delivered himself up. Mr. Harris told him he was justified in what he had done, and his arrest would not be ordered. The constable was severely beaten, but his wounds were not considered dangerous.

THE SHIPWRIGHTS' STRIKE.—In New York, matters connected with this strike, probably in consequence of the action of the shipbuilders, are apparently tending towards an arrangement. At a meeting held on Saturday a letter was read stating that a committee of the strikers had been appointed to confer with the bosses for a settlement by mutual concession and compromise. A meeting of ship joiners was also held at which the chairman said the bosses were about to enter into a compromise in consequence of a large number of caulkers having been put to work on the eight hour system at Hunter's Point, and the caulkers were, they said, going to work on the ship Isaac Webb on Monday next, at eight hours per day.

☞ The Travellor says a young man, clerk in a Boston wholesale store, was afflicted with a painful breaking out of the neck, which he at first attributed to boils, but the matter getting serious, he applied to a physician, who informed his patient that he was suffering from the poisonous properties of articles used in the preparation of his enamelled paper collars, which by the sweating process or otherwise, was absorbed into the system; that he had another similar case, &c. Upon inquiring, it was found that about a half dozen other clerks, all of whom wore these collars, were affected in a similar manner.

— Seventeen vessels were built last year within the Collection District of Kennebunk, equaling 3451 tons.

— The Memphis riot investigating committee have returned to Washington. They report that the facts elicited by them are important and horrible.

— Portland burglars are becoming enterprising. They entered three places on Sunday night, but obtained no booty from two of them.

— It is said that Gustave Dore, the great French artist, never read the Bible, until he agreed to furnish some illustrations for a large folio edition.

— San Francisco is going to be supplied with water from a lake in the Sierra Nevada mountain by an aqueduct two hundred miles long.

— White paper skirts are now manufactured in Springfield, Mass. They will be light, airy and cheap, and obviate the necessity of having the skirts washed.

— A recently published popular English novel speaks of the director of the operations at the gathering of a Burgundian vintage as "toiling and sweating like an overseer on a Massachusetts cotton plantation."

— Mrs. Dr. Mary Walker, formerly an assistant surgeon in the Army of the Cumberland, was arrested on Saturday in New York, for disorderly conduct in appearing on the streets in partially male attire. She was required to give bail in $300 to keep the peace.

IN THE U. S. SENATE, June 11, Mr. Wilson, from the Military Committee, reported the bill to continue in force the Freedmen's Bureau, with amendments. The section confirming the titles to Sea Island lands under Gen. Sherman's order is stricken out, and in lieu of it there is a provision by which, under certain circumstances, these lands can be recovered for the former owners. Such of the lands as were forfeited for non-payment of taxes are reserved by government, and are to be distributed among the colored occupants in 16 acre lots.

The bill previously passed by the House, providing for the safe keeping of the public monies entrusted to disbursing officers, was reported and passed.

A bill to reimburse Massachusetts for war expenses was reported.

Leave of absence was granted to Messrs. Lane of Kansas, and Sumner.

In the House, Mr. Ancona offered a long Preamble to please and cajole the Fenians, ending with this Resolution:

Resolved, That the Committee on Foreign Affairs be instructed to report a bill repealing an act approved April 10th, 1818, it being the neutrality law, under the terms of which the President's proclamation against the Fenians was issued.

After debate, Mr. A. modified his resolution so as to make it read that "the Committee on Foreign Affairs be instructed to inquire into the expediency of reporting such bill."

The House refused to lay the resolution on the table by a vote of 4 yeas to 113 nays.

Mr. Schenck offered a resolution as a substitute, that the President ought to reconsider the policy adopted by him as between the British Government and the Fenians, and requesting him to adopt the same proceeding as was pursued by Great Britain in the late war, recognizing both as lawful belligerents, etc.

The question was taken on referring the original resolution and Mr. Schenck's substitute to the Committee on Foreign Affairs and carried—91 to 34.

A resolution was adopted, that in the opinion of the House, Jeff. Davis should be held in custody as a prisoner, and subjected to the laws of the land. The rules were suspended for the resolution, and the vote on its adoption stood 105 against 19.

A SHAKER ARRESTED FOR EMBEZZLEMENT.—Charles S. Vining, General Agent of the New Gloucester Society of Shakers, was brought to Portland on Friday and committed to jail upon two writs, one of trover, the other of assumpsit, for misappropriating or retaining funds belonging to the Society. The amount of *ad damnum* of both writs is $15,000. The arrest caused considerable excitement, though Vining has been held in suspicion by the Elders, who, a few days since, summarily stripped and searched him to discover if he had any money or bonds about him—it having been reported that he was about to leave the Society and take unto himself a wife.

THE TEST OATH AT THE SOUTH.—The Secretary of the Treasury is now sending notices to the officers in the South who have been unable or unwilling to take the test oath, that they will be required immediately to vacate their several offices.

— The Gold Medal Soap, like Widow Bedott, needs no introduction to our readers. It is an old friend—a welcome visitor on washing days, and will save more than one-half the labor, and make your clothes look much better. It will not rot or injure the best of fabrics, as most soaps do. It removes grease spots, paint, tar, oils, &c. It will not chap your hands, but make them soft and white. The rich and poor can share alike its benefits and good results. 99

NEW COUNTY BUILDING AT NASHUA. The Judges of the Supreme Judicial Court of New Hampshire, have examined the new and elegant building, erected by the city of Nashua for the use of the Hillsboro' County Records, and approved of the same. The Records of the Courts, Registry of Deeds, County Treasurer's office, &c., will be shortly removed from Amherst. The building is fire proof, two stories high, with French roof, built with brick, and finished both outside and in, in elegant style, at a cost of nearly $40,000. The city of Nashua furnishes the structure for the use of the county without expense.

☞ Eating unripe cucumbers and fruits often produces sudden turns of colic and cholera morbus. More especially amongst children, where it is often attended with violent vomiting and great distress. It is also a sure cure for indigestion and dyspepsia.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the skin or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION. Sold by all Druggists in Portsmouth and elsewhere. lyandao—oct19

REDUCTION IN PRICE

OF THE

AMERICAN WATCHES,

MADE AT WALTHAM, MASS.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our price to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches,

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings, until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "T. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price,

ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham are for sale by dealers generally throughout the country, we do not solicit order for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Perry Davis' Vegetable Pain Killer.

The Great Family Medicine of the Age!

Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

☞ We clip the following anecdote from Harper's Monthly of a recent date, the subject of which will be readily recognized as one of Portsmouth's sons:

Every one who has ever served in the Old Tenth Army Corps will remember that accomplished soldier, Col. George F. Towle, so long the Inspector-General of the Corps. The Colonel, under a very quiet exterior, concealed a most determined character, and in the performance of his official duties was especially intolerant of all who evinced any disposition to shirk their work. While the Tenth Corps was encamped at Bermuda Hundred, in the summer of 1864, he had occasion to inspect a brigade of "100 days' men" doing duty on the line of intrenchments, which he did in his usual thorough manner.

During the inspection the brigade commander was continual in his complaints about the hard nature of the duty required of them. "They did not enlist for the front, but to guard fortifications at the rear." "They did not like fatigue duty—the slovels blistered their hands." "Nor to go on picket; for some of his men were worth twenty thousand dollars, and were not used to sleeping out of a night." "They could not get any butter, and the hard tack hurt their teeth." "He himself had been in service six weeks, and never had a furlough," etc., etc.; all of which the Colonel heard in grim silence. Finally, as he was mounting his horse to depart, the General, surrounded by a group of his officers and men, anxious to show them his zeal in making their hardships known at headquarters, appealingly said: "Now, Colonel, you have seen our condition, and I ask you if you really believe we can be of the least service to the country here up to the front?"

"Well, General," was the cool reply, "since you ask me, I will say that I *do* believe you can be of some service here; and in proof of the possibility, I would remind you that the cackling of geese saved Rome when the Gauls assaulted the Capitol, and should Beauregard assault these lines, I am of opinion you are well qualified to do us a like service in the same way!"

Col. Towle has recently received an appointment of 1st Lieut. in the U. S. Army, and been ordered to report for duty to Maj. Gen. Reynolds at Little Rock, Arkansas.

☞ The Rockingham Conference of Presbyterian and Congregational Churches assembled at the North Meeting House in Portsmouth, on Tuesday morning, when the Conference was organized by electing the following officers:

Rev. Mr. Parsons of Derry, Moderator;
Rev. J. H. Stearns, Epping, Secretary;
Rev. A. Armsby, Candia, Asst. Sec'y.

Rev. Mr. Tomlinson, of Chester, preached the Occasional Sermon,—on the earnest, active, Christian Life.

In the afternoon, the Pastoral Letter was read, and accounts of the several churches were given. In the evening, there was an essay on Family Religion and Worship, followed by a discussion of the same subject.

The meeting will be continued to-day, closing with the Communion this afternoon.

AUCTION SALE OF VALUABLE OIL PAINTINGS.—H. F. Wendell has on exhibition at his salesrooms, 70 State street, a collection of Oil Paintings, which he will offer for sale at auction to the highest bidder, on Thursday and Friday of this week, commencing at 2 o'clock each day and 7 o'clock in the evening. Catalogues are now ready, and the citizens of Portsmouth are invited to visit the collection previous to the sale, and examine for themselves. The Paintings are all mounted in heavy gold gilt frames, and will be sold together. This sale will afford an excellent opportunity to admirers of artistic works to purchase to advantage. Open for exhibition from 9 o'clock A. M. to 9 P. M., with catalogue.

☞ A Committee, consisting of Cap'. M. T. Betton and Lieut. E. A. Tilton, was appointed, at the meeting on Monday evening, to confer with the officers, soldiers and sailors who took part in the late war, that they may be prevailed on to appear in a body in the procession on the Fourth.

☞ The statement of our 4th of July reporter, that the Philharmonic Society are to sing at the Temple—was not authorized by the publisher of the Chronicle, and is premature, at any rate, the Society having taken no action upon the matter as yet.

☞ Messrs. Seaver and Starkweather, of Boston, have been engaged to make a balloon ascension in this city, July 4.

☞ Remember this is the last day of Mr. Wendell's great sale of cloths, linens, &c.

POLICE COURT, June 12.—John Harvey, fined $6.86 for being drunk. Arrested by Officer Tucker.

James Barr, a fisherman, charged with representing himself as a Branch Pilot to the captain of a schooner and bringing her into the harbor, charging therefor $15—was discharged, the complaint not being sustained.

Mr. Patrick Heleir wishes us to state that it was not he, but *James* Heheir, who was before the Court on Monday.

GOLD, Tuesday, 143.—The speculative jump up 4 per cent., is occasioned by the news from England, of the decline of our securities there, caused by English financial troubles.

— It costs more to travel and lodge in the United States than in Europe even with gold at a premium.

HONOR TO WHOM HONOR IS DUE.—The Boston Herald states that the two persons, Hollis Chase and Elisha L. Week, accomplices of Whitney, who robbed Butler, Sise & Co. of $10,000, were arrested in Gardiner, Me., from "handbills plentifully distributed in the towns on the Eastern coast." If we understand the matter correctly, Marshal Kent of this city induced Whitney to confess and make a clean breast of the affair. Whitney posted Kent as to the other parties intending to go to Gardiner, and he sent Officer Pickering at once to Portland to confer with Deputy Marshal Wentworth relative thereto.—Wentworth proceeded to Gardiner and Pickering returned here, in accordance with instructions. The consequence was the arrest of Chase and Weeks by the City Marshal of Gardiner and Deputy Marshal Wentworth. The first trace of Chase and Weeks' whereabouts was commenced in this city by the Marshal, and for fear that Whitney had not told the truth, Officer Johnson was dispatched in another direction and had an unsuccessful chase. We are informed that the Chief of Police in Boston sent to New York instead of the East for the man, and he first knew they were East from a dispatch sent from Portsmouth. Detective Leeds of Boston did plentifully distribute handbills, but the principal was arrested previously, and officers were already in pursuit of accomplices.

THE N. H. UNITARIAN ASSOCIATION will meet in Convention at the Stone Church, This Morning, at 10 1-2 o'clock, and continue in session two days. The general Order of Exercises will be as follows:

Wednesday, 13.—1. Business meeting at 10 1 2 A. M., for the choice of officers and to hear reports of churches. 2. Meeting for discussion, at 2 1-2 P. M, of the following question: "What is the true religion for the child?" This discussion will be opened by an essay by Rev. Livingston Stone of Charlestown, N. H. 3. Sermon at 7 1-2 P. M., by Rev. Chas. B. Ferry, of Peterboro'.

Thursday, 14.—4. Prayer and Conference meeting at 8 A. M. 5. Meeting for discussion, at 10 1-2 A. M., of the following question: "Is Unitarianism, as a form of Christianity, susceptible of general and popular diffusion?" This discussion will probably be opened by an essay by Rev. James DeNormandie of Portsmouth.

During the session of the Convention, the friends in Portsmouth propose to take the members on an excursion in the harbor, which may somewhat vary the above order of exercises.

State of New Hampshire.

EXECUTIVE DEPARTMENT,
Concord, June 9, 1866.

To the Disabled Soldiers of New Hampshire:

The Board of the National Asylum for Disabled Soldiers have made application to the Governors of the several States to furnish them with reliable statistics of the number in each State entitled to receive assistance from this Institution. The information is sought to aid them in determining the number, capacity and locations of the Asylums it may be deemed expedient to establish.

The subjoined "memorandum" will indicate, with sufficient accuracy for present purposes, who are entitled to the benefits of the proposed Asylums.

To enable me to give the information thus sought, all such disabled officers and soldiers are respectfully invited to furnish me, prior to the first day of July, with their names, residence, regiment and company in which they served, nature of disability, and when and where incurred.

Upon this information the Managers will largely depend in carrying into effect this most worthy object of the Government.

As an additional means of arriving at a reliable estimate, I will thank regimental and company officers to furnish me, prior to the above date, with an estimate based upon the best information they can obtain, of the number belonging to the organization commanded by them, who are entitled to assistance from this source.

FREDERICK SMYTH, GOVERNOR.

Memorandum.—Diseases and injuries entitling admission into the National Military Asylum, if actually incurred in the service and in the line of duty, and *disqualifying for procuring their own maintenance and support*:—Mental Imbecility; Epilepsy; Paralysis; Organic diseases of Internal Organs; Chronic Rheumatism, with impaired motion, change of structure, and distortion of joints; loss of sight of both eyes; loss of right hand; loss of both feet; incurable deformities, rendering the sufferer repulsive, resulting from wounds or injuries; general debility, or premature old age, resulting from hardship, imprisonment or exposure. Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64...12.96
" " " " " " '65...12.16
Ratio of assets to liabilities, Jan. 1, 1865....151.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious influence by which a Company with a surplus proportionably *much less*, and expenses *very much* larger than another, can yet divide more to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.

NIGHT.

O Night! How black you are!
Specially when the moon don't shine, and there
Ain't wha the stars! How you make folks play
Billiards, and sleep, and go to concerts and such.
You are the coffin of the day, you are.
Which like a pall makes it a dark color.
Also, you are the time when the watchmen go to
Sleep and the burglars are round drunk. And you
Are the time for benders and busts, and getting
Drunk and took up, and getting fined by a justice.
Yes! You are some—about 12 o'clock—
What the rooster birds get a calling to one
Another, and make you hideous, and feel bad.
The day is pretty good for doing business in,
But you, night, are a beast, because you don't
Got no bizness but fun. Hail! O Night!

☞ The following laughable incident occurred in the recent Fenian advance on Canada:

After a halt of only an hour at Franklin, the order of on to Canada was given, and the column set off in close order. The glittering of bayonets being visible at some distance on the road, a rumor of the approach of United States troops was started, and the officers, Spear and Mahan, and their staffs, in two double wagons, galloped off at a rattling pace to escape the anticipated arrest. The new comers were only an unusually well armed company of Fenians, however, and the invasion was not interfered with in any way.

THE PRESIDENT'S SPEECHES.—In his address at the opening of the National Fair at Washington for the benefit of orphans of deceased soldiers, President Johnson said:

"Under no circumstances have I been in the habit of preparing written addresses; and without any intention either one way or the other on this occasion, I am here. I have thrown off these expressions without any sort of preparation. It never has been my habit to make what is called the rounding, bounding sort of *ad captandum* kind of address. (Laughter.) I have always tried to address myself to the brain, to the sense of those to whom I speak, and not their fancy or caprice."

We call this a rich extract.

"Oh wad some power the giftie gie us,
To see ourselves as others see us."

☞ A dispatch from St. Louis says: last week, just a few miles out of the city, a mare, owned by one Thomas Lucas, a frugal farmer, introduced to the stern realities of horse life a strange being, more more like a Centaur than any other object. It has the body and legs of the horse, and the head of a man. It has chin whiskers, and its mouth moves precisely like the mouth of a human being. But, strange to tell, like Cyclops of old, it has only one eye, and that in the centre of its forehead; the centre or pupil of which is perfectly black, and the rest spotless white. The object is daily visited by thousands. So says an exchange,—but the story reads like a falsehood.

The Use of this Column
Has been bought and paid for for three months, by
C. A. RICHARDS & CO.,
99 Washington Street, - - Boston,
the largest Wine Merchants in New England. Their object for this outlay is to
TELL THE PEOPLE
that they have the most extensive variety of
PURE WINES AND SPIRITS
of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these:—
EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.

EXTRACT OF RYE;
WHAT IS IT!
Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it
The Very Best
OLD RYE BEVERAGE
THEY EVER TASTED.
Perhaps they are right. Try it and see.
IT IS MADE FROM
RYE,
AND NOTHING ELSE,
and from the best Rye at that.
None of your musty, mouldy, heated stuff, but the
Very Best of Rye
that grows in the Cumberland Valley.
It is enough to do a man's soul good to taste it, and see how different it is from the strong, ill fry stuff that people use for Rye Whiskey.
It is Made Different.
It retains, by a peculiar mode of distillation, the very
MEDICINAL QUALITIES
that have made it so popular. If you want to ure
A Pure, Genuine Article of Spirit,
to stimulate a Weak stomach, or to give you renewed health and long life, use the
EXTRACT OF RYE.
It is put up in large square bottles, which contain the name of

DUNSTER'S
London Cordial Gin.
THE
GREAT DIURETIC REMEDY
OF THE AGE,
An Effective Medicine
AND
A PLEASANT BEVERAGE.
Celebrated in England for half a century,—spreading its popularity all over America.
DISTILLED FROM
Malted Grain and Juniper Berries.
FLAVORED WITH
Aromatic Seeds and Perfumed Flowers.
Health giving and pungent with its delicious cordial flavor.
IT ACTS DIRECTLY ON THE KIDNEYS,
Removing disorder and imparting
HEALTH AND VIGOR.
EXCELLENT AS A
Household Medicine.
Aged people, or those with weak constitutions find it a blessing.
Put up full strength, in all its natural purity, in large square bottles, with the name of

Banishing and driving away all the worthless deceptions which have stolen his name, and ruling alone, the
Purest, Oldest, Mildest,
—and—
BEST BOURBON
That ever could date back to a Grain-field.
Go where you will, in any city, town or village, and you will find somebody that has got a little of the
GOLDEN SHEAF WHISKEY,
that they keep for the stomach's sake, and the reason is because it is
PURE AND GOOD.
It is not sold everywhere where spirits are retailed, but openly and fairly by the most respectable
Druggists, Town Agents and Grocers,
ALL OVER THE COUNTRY.
It is put up in large bottles, and its
PURITY IS GUARANTEED
By the Sole Proprietors and their Agents everywhere.

CHEROKEE PILLS,
Or Female Regulator,
Cure Suppressed, Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness, and all diseases that spring from irregularity, you can use them at any time and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions*, and are easy to administer, as they are nicely *sugar coated*. They should be in the hands of every Maiden, Wife, and Mother in the land.
Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.
The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.
N. B.—Cherokee Pills No. 2 are prepared for *special cases*, when other medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,
Cures *General Debility, Weakness, Hysterics in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, removing Impotency and* perfect "*Elixir of Love*," removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.
"As the Phœnix rises from the ashes of its parent, so spring the Organs of Generation, animated with new life, from the use of this Elixir rejuvenated. Debility, restoring Manliness to the system and full vigor. Thus enabling the aged to overcome disease.
Price, one bottle $2; three bottles $5; sent by express to any address.
Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease with which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
Dr. W. R. MERWIN, 37 Walker St., N. Y.

The Chronicle.

THE LARGEST HORSE IN CONNECTICUT. Richard T. Merwin of New Haven, has a horse that weighs 1720 pounds. Its shoes appear as though one would cover a peck measure, and her strength is in proportion to her size. She is about eight years old, and has gained two hundred pounds in the year and a half that Mr. M. has owned her.

—— The surviving officers and members of the late Twelfth New Hampshire Volunteers, to the number of about six hundred men, in command of Col. T. E. Barker, of Barnstead, propose to observe the coming Fourth of July with a celebration on "Diamond Island," in Lake Winnipisiogee.

— Jay Cook obtained his wealth by advertising. During the time of the sale of the National bonds, which would have been unsold to this day but for the newspapers, he was the greatest advertiser in the world.

— A youngster who cut a belt in one of the Taunton mills in order to stop it, so he could have time to visit the circus, has had twenty days imprisonment for his pains.

— So large have been the shipments of cotton by one merchant in Bombay, that a decline of a penny a pound represents a loss to him of three hundred thousand pounds.

— The Cleveland (Ohio) Herald asserts that the lake steamboats now use fish for fuel. Huge sixty pound sturgeon are flung head-foremost into the furnace. The oil assists the combustion of the wood, twenty sturgeon being equal to a cord of wood in the production of heat.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Claims, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services as moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

Portsmouth N. H.

THURSDAY, JUNE 14, 1866.

☞ The 21st Annual Session of the N. E. Christian Convention was held in Wolfeboro', on the 5th, 6th and 7th inst. It was voted to raise $10,000 for a permanent endowment of the school at Wolfeboro', $5000 to build a boarding-house and $2000 for the necessary repairs upon the buildings and the grounds. Abel Haley was appointed agent to solicit the above funds. A subscription was opened upon the spot and about one-third of the $17,000 is already pledged.

The Sabbath School Association held its anniversary on Thursday. Rev. Mr. Gordon of Fall River, was chosen President, and Wm. C. Hatch of this city Vice President.

The number of ministers and delegates present was about 200.

Rev. I. F. Waterhouse of Portsmouth was appointed to preach the next annual sermon.

Mr. W. was appointed missionary agent by the Convention, at a salary of $1000 with expenses paid.

☞ Generals Steedman and Fullerton have reported on the operations of the Freedmen's Bureau in South Carolina and Florida. They commend Assistant Commissioner Scott in South Carolina, recommend the discontinuance of employment of citizens in the Bureau, and instance several cases of the evils of agents working plantations. They finally recommend the return of the Sea Islands to their former owners, provided they pay the freedmen for all improvements made by the latter while in possession.

The Assistant of the Freedmen's Bureau, in a tour through South Carolina, finds in some districts the supply of provisions nearly exhausted, and great suffering will be the result unless they are speedily relieved by the Government. Nine thousand bushels corn and one hundred thousand pounds bacon are required to feed the laborers until the coming in of the next crop, and unless it is furnished, the laborers will have to abandon the plantations and go where they can get food.

TERRIBLE CATASTROPHE.—*Seven Children Killed and Nine Others Wounded.*—One of the most heart-rending and appalling catastrophes which we have ever been called upon to record, occurred at the village of Bamberg, on the Augusta branch of the South Carolina Railroad, seventy-six miles from Charleston, between three and four o'clock Tuesday afternoon, by which nearly every family of that village has been thrown into the deepest gloom and mourning.—The scene of this distressing occurrence was about three hundred yards from the depot, in a two-story frame building, known as Allen Lodge of Freemasons, used as a school-house by Mr. Robert Seabrook and his sister. Into this building some eighteen of the scholars, boys and girls, had assembled about 3 o'clock for the purpose of joining in a festive party given by the young misses to their youthful male friends. While in the act of spreading a table with refreshments, candies, cakes, &c., the building was struck by a powerful gale of wind or tornado from the west, which passed over the village, taking a northeasterly direction, sweeping trees, fences and everthing else before it. The chimney was carried away at the same time that the roof was rent asunder.

An attempt was made by George W. Patrick, one of the older boys, to open the door, but that was found to be so jammed as to defy removal. Another of the youths, Charles Stewart, then proposed to escape by the window, and jumped out for the purpose of assisting the others, when the whole building fell, killing young Stewart and five others instantly, and wounding ten others, one of whom expired shortly after reaching home.

Most of those who were saved were found where they had crept under the school benches upon which the timbers had rested after the falling of the building. But a few moments sufficed to spread the news of this awful catastrophe in the village, and the whole community soon gathered round the place. The bodies of both the living and dead were either covered or wedged in between the heavy timbers, and required the use of axes to release them.—*Charleston Courier, 7th.*

☞ A case was tried a few days at the Circuit Court, Poughkeepsie, New York, where the plaintiff claimed that the defendant—a substitute broker during the war—enticed his son, only seventeen years of age, away from his home and took him to New York, and from there to Syracuse, N. Y., and there enlisted him into the military service of the United States as a substitute, for $1200, appropriating the money to his own use. The first intelligence had by the father of his son, after his disappearance from home, was a letter from an officer in the army stating that his son was dead, and had died near City Point, Va. The defendant had induced the son of the plaintiff, by threats and otherwise, to keep the knowledge of his whereabouts from his relatives. Verdict for the plaintiff for $1500.

— Mr. A. J. Davis, the writer on Spiritualism, says that "the spiritual world is made from life-points, sent out from the chemical coalition of the planets." We are glad the question is settled.

NEW HAMPSHIRE ITEMS.

—— In New Boston, early on Sunday morning last, two brothers, named Solomon and Moses Towns, while in their usual drunken state, got into dispute with each other, a fight ensued, and in the melee Moses received three severe stabs with a knife in the head and breast. Medical assistance was immediately obtained and the wounds dressed, but it is thought the injured man will not recover. After stabbing his brother Solomon left for the woods, but was pursued and arrested.

—— Levi Fickitt who escaped from jail at Concord, on Monday afternoon, coolly walked down Main street at eight o'clock in the evening, undetected, and finding his lawyer told him he had been released on bail, settled up his accounts and immediately afterward disappeared.

THE MASONS IN COUNCIL.—In New York City, the Grand Lodge of the State of New York is in session. There are sixty thousand active Masons in the State. Their decorum in their deliberations might be imitated by many religious bodies. They open their deliberations with prayer. A rap from the presiding officer brings every person to his feet, and no one sits till the concluding rap releases the company. The Masons have a project in hand that promises to be a noble monument to their liberality and beneficence. It is the rearing in the city of New York of an asylum for the aged, the indigent, and the orphan of the Masons. The building is to cost $300,000, and to be located in a central position. This plan originated with a poor laboring Mason. Tired of hearing so much talk about rearing an appropriate institution, he arose in the Lodge one night and said he was ready to do something. He had laid up a little money, he said, and he was going to devote it to the cause of widows and orphans. He laid on the desk one silver dollar. That small sum has increased to $150,000. A grand Masonic fair is to be inaugurated in September, by which it is hoped the full sum will be secured. Each Lodge is to have a table and a generous rivalry seems to [illegible] Order.

THE U. S. SENATE, June 12, passed the Fortification bill, and then went to work on the Legislative, Executive and Judicial Appropriation bill. Generally speaking, the recommendations of the Committee of Finance were adopted, until one was reached which virtually gives the Secretary of the Treasury power to distribute $160,000 among his employees, according to his will and pleasure. Now Mr. McCulloch is not a favorite of the more radical Republicans, and they opposed investing him with this power, partly because of his late speech, and partly because he might use all this great sum in Johnsonizing his clerks. It was passed, however, 18 to 17, but will probably be reconsidered.

On Wednesday the House was to vote on the Senate's proposed amendment to the Constitution, and a poll of the House by leading members on both sides indicated 117 ayes to 26 nays. There are rumors that Mr. Thad. Stevens and his friends may be willing to let drop the proposed bills which were to have accompanied the proposed amendment, in which case it will not be so unacceptable to President Johnson, and it will certainly be accepted by several Southern States immediately.

WEST POINT APPOINTMENTS.—The Senate and House have not only agreed to Senator Anthony's amendment to the West Point resolution, establishing competitive examination in the congressional districts, but they have extended the principle to the Presidential appointments there, and in like manner the President of the United States shall be authorized hereafter to nominate fifty at large each year, instead of ten, as now provided by law, who shall be examined under like regulations, and of whom the ten who may be reported as most meritorious and best qualified shall be appointed; provided, however, that not more than two of these shall be appointed in any year from one State.

☞ A Washington special says information from Mexico received by the French Legation states that General Bazeine had received positive orders from Napoleon to concentrate the French troops at Puebla and Orizaba, and to make no more hostile demonstrations; 75 per cent. of the troops will go to France in October, and the remainder next year. Maximilian is reported out of money, and that he made a raid, under the sanction of Gen. Bastine, upon the chest of the French Paymaster General. There are also indications that Napoleon desires to cultivate the most friendly relations with the United States.

— A gentleman who has been traveling extensively through West Tennessee, reports that he found many late slaveholders in favor of granting negro suffrage.

— The board of officers appointed to inspect the proposed site near Portland for a basin for iron clads, is Brig. Gen. B. S. Alexander of the Army Engineer Corps, Chief Engineer J. W. King and Capt. Melancthon Smith of the Navy. They will leave for Portland at once.

THE FENIAN MOVEMENT.—The Boston Post says, in reference to the irregular and irresponsible military movements which have engrossed public attention for a week past, that so far as they are intended to represent the feeling of Irish nationality, with which all genuine lovers of liberty have a profound sympathy, they were entitled to respect; but in their entire disregard of the neutral obligations of the United States, and of the right of every nation to decide so momentous a question as that of peace or war for itself, it has been condemned by the public press and public men of the whole country. We cannot preserve peace for ourselves if any organization that chooses is to be allowed to make an irruption at its own pleasure into the territory of a peaceful neighbor. The established laws of the land must be respected by all alike. The people themselves have lodged the war-making power with Congress, and no other body, let the pretext or pretence be as plausible or urgent as it may, has a right to usurp that authority. So long as we profess peace with other nations, we mean only peace. Our conduct should answer in full to our words, and our words are supposed to be none but those of truth and honor.

ROW IN A JEWISH SYNAGOGUE.—Mr. Ellsnow Herzman, the Rabbi of a Brooklyn Synagogue, has brought an action for damages against several of his congregation for interfering with his official duties, committing an assault upon him, and tearing his clothes. For the last six months there has been a difficulty between him and many of the prominent members of his congregation, large numbers of them claiming that he was altogether too liberal in his views, and accordingly attempted to prevent his election for the coming year, but were unsuccessful. On the day of the commencement of the last Passover, the Rabbi went into the Synagogue for the purpose of performing his official duties, and was much surprised to find the dais occupied by several of his congregation, who prevented him from taking his place. Quite a scuffle ensued, in which the Rabbi's clothes were badly torn, and his gold spectacles destroyed. After hearing the case, the jury returned a verdict of damages for $800.

FATAL ACCIDENT IN GRAFTON, MS.—On Brigham Hill, near New England Village, Friday morning, Mr. H. K. Potter, a gentleman well known to many citizens of Worcester as an active member of the Horticultural Society, lost his life. He had been for some time engaged in sinking large stones that lay around on his farm, and had finally come to the last one, a huge boulder, weighing perhaps two tons or more. He was engaged all the morning of Friday in digging a large hole by the side of it and partially under it, when the rock fell, crushing him against the side of the cavity, and probably causing instant death. He was thus found at about 12 o'clock, with life extinct. It required more than an hour's time, with the assistance of twelve men and a yoke of oxen, to remove the stone sufficiently to take away the body.—*Worcester Spy.*

A MURDERER TWENTY-EIGHT DAYS UNDER GROUND.—Early in the month of May measures were taken in Brownsville, Texas, to inflict the death penalty upon one Rodgers, who had killed the Assistant Surgeon of his regiment (the 77th Ohio). The gallows was erected, all due preparations made, the prisoner received religious consolation, and expressed his willingness to die. On the morning of the intended execution, he was found to have suddenly disappeared. Search was at once made, but the utmost diligence failed to discover any trace of the missing criminal. It was generally supposed that he had escaped into Mexico, and the pursuit was accordingly abandoned.—The New Orleans Times now publishes a letter from Brownsville, by which it appears that Rodgers had all this time been concealed in a hole under ground, which he had hollowed out with his own hands. He had lived for twenty-eight days within easy hearing distance of the guard, and only hunger would have led to his recapture.

SUFFERING IN SOUTH CAROLINA.—South Carolinians are on their knees, begging food from the Yankees. In the district of Chesterfield the supply of provisions is nearly exhausted, and great suffering will come upon all classes unless speedily relieved by the government. It is estimated that 9000 bushels of corn and 100,000 pounds of bacon, provisions for three months, in addition to that now in the hands of the planters, will be required to supply the necessary labor until the harvesting of the crops. These supplies the planters have neither the cash nor the credit to purchase, and unless relief comes from the government many of the plantations will be abandoned by the freedmen, who will go in search of employment where they can get sufficient food.

— Among the many written applications for office received by the new Collector of New York is the following: "Sir, I am twenty-five years of age. I served eight years in the United States army. I am willing to do anything; I am married; in the field I assisted to support the Union and the Constitution; at home I would like to support my wife and Andy Johnson."

☞ It came out a few days ago, in the course of a criminal investigation in New York, that there are regular manufactories of Havana cigars in that city, the raw material being the commonest and cheapest weed, but so mixed with a chemical compound as to make it difficult to distinguish it from the genuine article. In order the better to impose upon the verdant, these bogus cigars are sold with government stamps on.

For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.
It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOSEPH L. LYON, without which none are genuine. **Price $1.50.**
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Ct., to whom he can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weak nesses. **Price $1.50 per bottle.**
Sold by Druggists everywhere.

Perry's Moth and Freckle Lotion.
☞ Chloasma, or Mothpatch, (also called Liver-spot,) and Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face, of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.
Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price 50 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawlm

If Fair Weather,
THE SECOND PUBLIC CONCERT
—BY THE—
PORTSMOUTH CORNET BAND,
will be given
ON THE "PARADE,"
THIS (THURSDAY) EVE'G, June 14,
commencing at 8 o'clock.

THE N. H. UNITARIAN ASSOCIATION commenced its Annual Meeting on Wednesday, June 13, at the Sunday School Room of the Unitarian Society in Portsmouth.

The Convention was organized by choosing President, Ex-Governor Goodwin,—and Rev. A. W. Stevens, Secretary.

Pastors and delegates were present from most of the Churches; and, with the city attendance, filled the Chapel in the afternoon with an audience who listened to interesting statements of the condition of the several societies. In almost every instance an increase of attendance on public worship, of interest in Sabbath-school instruction, and general prosperity, were reported.

In the evening, there were public services in the Stone Church.

The Convention continues and closes to-day.

☞ The first great auction sale of Oil Paintings takes place this afternoon, at half-past two o'clock, and in the evening at 8, at H. F. Wendell's Salesrooms, 70 State St. We would recommend our citizens to attend this sale, as it really is the largest and best collection of Paintings ever brought to this city for sale. The sale will be continued to-morrow afternoon and evening, at the same time.

POLICE COURT, June 13.—The case of Wm. Norton, charged with creating brawl and tumult on Court street, was continued to Saturday morning.

John Fritz, for violation of Sunday ordinance, was fined $10, and costs, $4.63, from which decision he appealed.

☞ The Committee of Arrangements upon the Fourth of July celebration, are urgently requested to meet at the City Rooms this (Thursday) evening, at 1 4 before 8 o'clock, as important business is to come before the meeting. Come one! come all!!

☞ By a notice elsewhere, it will be seen information is wanted of the whereabouts of Lawrence Gould, an insane man, who escaped from a cell at the City Farm, on Tuesday evening, in an almost nude state.

☞ The contract for the fireworks to be displayed in this city on the Fourth of July has been awarded to S. W. Creech, of Boston.

☞ Mr. Wendell will continue his extensive sale of cloths, linens, &c., every day and evening this week.

☞ The shipwrights of New York, who have been on a strike for the eight hour system, held a meeting on Tuesday, and *unanimously resolved* to go to work again at 10 hours per day, as before. They say that some of their caulkers have played false; that they have lost $150,000 in wages by laying idle; and that vessels are being built and repaired out of the country,—because the merchants could not get their work done in the United States. Of course, the ships now in Boston, Portsmouth and elsewhere, will be repaired without any further hindrance from that cause.

☞ The Belfast Age states that the City Marshal of Salem, Mass., arrived in that city last week with a requisition from the Governor of that State for C. A. Mealy. Mealy is one of the most reckless and vicious characters in the country. He is a notorious bounty jumper, having deserted several times during the war. He murdered one of his comrades while in the army, by stabbing him through the heart with a bayonet, on account of some trivial difficulty, and was sentenced to be shot, but escaped from the guard.

NEW ENGLAND MAIL MATTERS.—The Postmaster General will not advance the rates or compensation paid to the New England railroads for carrying the mails, which are now larger than is paid for similar service in other sections.

GOLD, Wednesday, 144 1-3. Sent to Europe, $3,500,000.

— The yearly meeting of the Society of Friends, the opening meeting of which was held in Newport on Sunday, was one of the most numerously attended of all the meetings that have been held there. There were more people, both morning and afternoon, than the spacious house could entertain, and hundreds remained outside.

— It is rumored that a proposition will be introduced into Congress in a few days providing that, instead of $3000 per annum and mileage, each member shall have $10,000 per Congress. Under the present rates some members receive over $18,000 pay and mileage each Congress, while others only receive a few hundreds over $6000.

— The city of New York has received $1,200,000 for liquor taxes, under the new excise or license law. The expenses have been about $10,000, and the amount of drunkenness has been diminished.

— It appears that the difficulties connected with the coal transportation on the Erie road have been settled, and that on the 15th inst. this important branch of traffic will be resumed.

— All the slaughter houses within the limits of New York are to be closed within sixty days, by order of the Board of Health of that city. A large establishment for the butchers will be provided by the city at 106th street.

— It is stated that the expense incurred by Canada, in consequence of the Fenian invasion, up to this time, may be estimated at a sum not far short of $1,500,000, and that sum will be largely increased before the matter subsides into quietness.

— Moses Strauss, of Brooklyn, N. Y., Monday morning forgot his pistol, which he usually keeps under the head of his bed at night, and his wife on making the bed tossed the pistol on the floor, causing it to explode and instantly killing their little child, who was sitting near at the time.

— The work of rebuilding the Academy of Music in New York has commenced. The old walls will be used for the new building, after being reduced in height about 15 feet. The Academy is to be ready by the 1st of November next, and is to cost about $250,000, exclusive of scenery.

— A lady in Brooklyn wouldn't get married because she was not able to support a husband.

— An old lady, hearing somebody say the mails were very irregular, said: It was just so in my young days—no trusting any of 'em."

— "Sonny, does your father take a paper?" "Yes sir, two of 'em. One of 'em belongs to Mr. Smith and the other to Mr. Thompson. I hooks 'em both off the steps as regular as can be."

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

Painful Teeth treated and cured.

Ulcerated Teeth treated and saved to a life of usefulness.

Badly decayed and broken Teeth restored to usefulness and beauty.

Charges always reasonable for the quality of work performed, but no *Cheap Work* (so called) done at this office.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest*, the "expenses of management" the *smallest*, the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *largest* of any like institution in the country.

Premiums received in 1864	$2,089,072
" " " " 1865	3,029,087
Ratio of expenses to premiums rec'd in '64	12.36
" " " " " " " '65	12.16
Ratio of assets to liabilities, Jan. 1, 1865	151.85

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE
Insurance Company
IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less*, and expenses *very much larger* than another, can yet divide *more* to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed or intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent.
Portsmouth, March 27, 1866.—3mdaw

Morning Chronicle.

A SINGULAR CHAPTER in the History of the Fenian enterprise, was written in New York city last Friday, when President Roberts was called into the Marshal's office. We have room for only a few verses:

Deputy District Attorney—Mr. Roberts, we sent for you in order that you might give your bond of ten thousand dollars to appear for trial on next Monday, the 11th inst.

Mr. Roberts—I do not want to be arrested again for the same thing. I want to attend to this business and not to be a second time interrupted until trial.

Attorney—Then you intend to proceed in this business?

Mr. R.—Certainly. Our business will go on. The Washington officials and others must understand that our people will be made no catspaw of.

Attorney—But, I understand General Sweeny has also been arrested; will not that injure your undertaking?

Mr. R.—No. There are as good men as Gen. Sweeny left and perhaps better. Our work will go on and must succeed; other wise the officers will be at fault.

Dep. Att.—But why do you apprehend being arrested again should you give a bond to answer the charges now made against you?

Mr. R.—Because I intend doing a great deal more than that which I have done.—The urgency of the times require it.

Attorney (to Marshal Murray)—He now says he will still persevere in this business. What can be done in the matter?

Mr. R.—The work goes on in any case. I want our boys to understand that.

I desire no legal advice. I know perfectly well how to act in this matter. I will again say that I will give a bond in the amount for my appearance when called on, but will give no guarantee for the future.

Mr. R. stated that the organization was proof against anything which the *officials* at Washington might do. It was true that their action in the premises was more to contend against than anything which might come against them from Canada and England combined, but that the Irish people and their friends were now in a position to baffle all the cunning of those who, against the *popular desire*, choose to compromise the dignity of the great and generous people of the United States, who were never forgetful of past favors and who desire to give the Irish citizens the poor privilege of shedding their blood for their native country. He knew well that this duplicity of men in high places would not tend much to their advantage in the end. They are now politically dead, and they would in due time have a chance of knowing it.

Mr. Allen—I don't object to the sufficiency of the bond, because I am aware that Colonel Roberts is good for a large amount; but I object to it on the ground that he says he will repeat the offence with which he is charged. I have telegraphed to Washington for instructions, and perhaps I may be overruled by my superiors.

Many of Mr. Roberts's *friends* became highly irate at what they term his obstinacy. Persuasion was out of the question, so he was sent to Ludlow street jail,—and he has issued the following appeal:

To the Fenian Brotherhood:—Brothers: Remember that we have undertaken a great and holy work, and we must not falter now. Public sentiment is with us, humanity justifies us, and Irish freedom calls us on.

Stand by your brothers in the front row in the hour of their sore need. Press forward with your means, it is the great want. Let all your proceedings show how highly you respect the laws, and let *political jugglers* take the responsibility of prostrating the pride of a great nation at the feet of despotism.

If some of your leaders are removed there are others to take their place, and the movement can cease only through your own want of determination. W. R. ROBERTS,
President F. B.

HIGHLY IMPORTANT

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, Green Sickness, Debility, &c., and suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Stomach, Nervous Debility, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1865. ThSly

DR. M. BRISCOE still continues his successful treatment of Private Diseases, and also Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE or DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1, and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all disease incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1835, having confined his whole attention to his office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, Two for $1 and a red stamp.

"THROW PHYSIC TO THE DOGS"—If this is not an age of miracles, it is not the fault of some people as the following item from a Worcester exchange will bear witness:

"Dr. Manning of Palmer, Mass., has brought a suit against W. S. Nichols of Monson, to recover $200 for medical attendance upon his daughter, who for several years has been unable to walk or talk. Dr. Manning says he commenced treating her in January last, and agreed to charge nothing for his services unless he could make her walk and talk before the first of May. The young lady did recover previous to that time, and her friends decline paying the doctor's bill, claiming that her remarkable cure was effected by the prayers of the church, and not by any medicine of the doctor's."

A PRAYER FOR JEFF. DAVIS.—A Memphis correspondent of the Atlanta (Ga.) Intelligencer says that an Episcopal minister of that city has issued a Whit-Sunday pastoral letter to his flock, in which he exhorts his congregation to offer the following prayer "every night when you go to bed, and every morning as soon as you rise:"

O God, whose mercies are everlasting and whose power is infinite, look down with pity and compassion upon Thy servant, whom Thou hast laid in a place of darkness and the deep. Give him always a sorrowful sense of his sins and of Thy fatherly love and correction. Give to his judges tenderness and compassion, and to him a meek and forgiving spirit toward all those who have confined him. Raise up friends to pity and relieve him. Give him the continual comfort of Thy Holy Spirit, and so sanctify his afflictions that they may work for him an eternal weight of glory, through the merits of Jesus Christ our Lord.

Very good petitions are all these for this particular prisoner,—and just as good for *all* prisoners, captives and slaves.

Portsmouth N. H.

FRIDAY, JUNE 15, 1866.

A FALSE PROPHET.—A regular Washington correspondent of the Portland Argus wrote, June 11th, about the Constitutional Amendment having passed the Senate,—and then said:

Its fate in the House is not so certain, although the probabilities are in favor of its passage there too. It will be opposed there, however, by Thaddeus Stevens and all the Republicans whom he can rally around him, on the ground that it is too lenient towards the South!

This item happened to appear in the Advertiser of June 14:—and in the same paper appears the statement that on the 13th Mr. Stevens spoke in favor of the measure, and moved the previous question, when it passed, 120 to 32,—every radical voting for it.

CONCORD ITEMS.—At the Republican caucus Wednesday evening the following incumbents of State offices were unanimously renominated by acclamation: For Secretary of State, General Walter Harriman; for Treasurer, Colonel Peter Sanborn; for Auditor, David D. Ranlett; for State Printer, George E. Jenks; for Warden of the Prison, Joseph Mayo; and for Commissary General, Newell Clifford of Portsmouth. [Mr. Clifford has deceased.]

Gen. Robert N. Corning, who died at Concord, Wednesday, after a long illness, was a native of Hopkinton, this State, and about forty-seven years of age. He was at successive periods, a Stage driver, Railroad Conductor, keeper of Phenix Hotel, and Postmaster of Concord.

☞ The report that John C. Breckinridge was indicted by the grand jury at Richmond, gives the Richmond papers an opportunity for publishing some very eulogistic notices of the rebel general. The Times calls him "one of the most eminent Americans living," and says:—

Of him that great lawyer and good man, Chief Justice Taney, once said, "he never knew a purer public man." Those qualities of heart and soul that excited the admiration of and called forth that remark from Judge Taney, are well known to and find response in Andrew Johnson. It is this fact which excites the apprehension of the radicals, and renders them clamorous for his outlawry and exile. They well know that in John C. Breckinridge the President would find a fast friend and firm supporter in the wise and statesmanlike policy he is pursuing for the restoration of the country.

Well, well:—says Uncle Toby,—Judge Taney, Breckinridge, and Andrew Johnson, put together as above, form a trio such as we should never have devised. But as our Richmond brother has put them together, we will not quarrel with the arrangement.

☞ A Washington correspondent of a New England paper, calling itself Democratic, has this item:

As I have before intimated, the trial of Jefferson Davis has been postponed, nominally till October, really till December. There has never been any purpose on the part of the radicals who rule matters here, or on the part of the Chief Justice, or on the part the Attorney General, to have Mr. Davis tried in a civil court. His counsel were not only ready, but they almost implored that the trial might take place. But a trial was not on the cards. The radicals do not wish Mr. Davis to be acquitted, and therefore they do not wish to have him tried. He is now, if they can have their way, to be compelled to *languish in prison* during the intense heat of the four summer months. I do not believe he can survive such confinement. I do not believe President Johnson will permit him to *die in prison*; and therefore I have strong hopes that he will soon be released on parole.

Per contra, Wednesday's Washington Republican asserts on authority, that the President does not intend to interfere with Jeff. Davis.

Let the reader take this latter statement for what it is worth:—but let no one be frightened because the chosen leader of the rebels happen to be in prison. Thousands of better men than he is, and loyal men too, languished and died in *his* prisons and prison-pens, or those of his Confederacy. Should he happen to die at Fortress Monroe this Summer, the world could spare him very well. The President undoubtedly has power to pardon him,—and will do so—if he thinks it best. But the Republican, speaking it appears by his authority, says he don't intend to interfere.

— At a printers' festival lately, the following toast was offered: "Woman—second only to the press in the dissemination of news!"

— A new invention is being tested in Paris. An iron tube is being run up the side of those trees in public gardens which require constant watering in summer. Up this tube water is to be forced, so as to produce an artificial shower when needed.

— It is stated that Gen. Steedman, who is so exercised about the cultivation of plantations by army officers in North Carolina and elsewhere in the south, is largely interested in a plantation in Arkansas which is worked by negroes. A letter from that section says his crops look well, and the place is under the general supervision of the Freedmen's Bureau.

THE CONGRESS NEWS of Wednesday, June 13, is important. The House finally passed the Constitutional Amendment just as it came from the Senate. The thirty-two votes in the negative were cast entirely by the Democratic members, and there was not a Union man of any shade who did not, as his name was called, vote Aye. There was a fuller house than had been expected, and when at last the vote was declared, it showed ayes 120; nays 32; absent 32. Eldridge endeavored, while the voting was going on, to attract attention by saying that "if Brooks and Voorhees were here, they would vote 'No.'" "Yes," said General Schenck, "and so would Jeff. Davis."

Ten of the absentees were of the democratic party, so that if the House had been full, the proportion of votes would have been about the same as it is now. The Amendment has received 3-4ths of the vote in both Houses of Congress. The President has no voice in this matter, except as any other citizen.

Certified copies of the amendment will be sent to the Governors of the several States for ratification by their Legislatures. It now remains to be seen how soon the States will ratify this proposed amendment to the Constitution.

The Senate completed the consideration of the legislative, executive and judicial appropriation bill, and passed it, without reconsidering the vote giving Secretary McCulloch the right to distribute $160,000, rewarding his clerks as he may see fit.

Several officials had their salaries raised, among them Major B. B. French, Commissioner of Public Buildings, who will henceforth receive $2500 per annum. The President is henceforth to have a private secretary, at a salary of $3500, an assistant private secretary, at $2500, a short hand writer at $2500, a clerk of pardons at $2000, and three clerks at $1800 each. This will facilitate the transaction of business at the Executive Mansion, where for some years past it has been necessary to detail clerks from the Departments.

INSURANCE CASE.—A case has been decided in Missouri. The question arose upon the following facts proved: A building is insured against loss by fire. It falls down, being heavily overloaded with merchandise; the fall occasions a fire, which destroys the fallen material. Query—is the insurance company liable? The court decided that the building insured having fallen, ceased to exist as such, and that it ceased to exist by reason of a peril not insured against, and hence that the company was not liable.

— On account of recent bank failures in London, over four hundred clerks have been thrown out of employment.

SHENANDOAH VALLEY.—A person who has recently visited the Shenandoah Valley says it is wonderful to see the profusion of cattle and poultry in this "denuded" valley after the devastation it was said to have suffered. Except the absence of fences in some places, now used for fortification or a burnt barn, no one would suppose an army had been in the valley. One or two years' crops will replace all the destruction that has been made, except loss of life.

SICKNESS AND MORTALITY IN THE UNITED STATES.—The census returns show approximately the ratio of death, in different parts of the country, from consumption. It is as follows: Eastern States, 24.9; Middle States, 18.4; Western States, 11.4; Southern States, 7.4. From fevers it is as follows: Eastern States, 6.2; Middle States, 5.0; Western States, 10.0; Southern States, 15.4. In 1860 the deaths by consumption were 13.79 per cent. of the whole number of deaths, and of fevers, 9.79—making 23 58 per cent. of deaths caused by the above diseases. The total of deaths by consumption, 49,118; from fevers, 35,893. Grand total of deaths in the United States, 394,159; being supposed much less than the actual number, owing to errors in the enumeration.

— The hay crop this year will be good, and the fruit crop, so far as appearances now justify opinion, will be immense.

— Belle Boyd, who published a fearful book giving her experience during the rebellion, made her debut as an actress at Manchester, England, on the 1st of June. She appeared as Pauline in the "Lady of Lyons," and was styled in the playbills "the celebrated Confederate heroine." She made a lamentable failure.

— Hon. Henry J. Raymond writes a long letter from Washington, in which he says the political tone has greatly improved within a few weeks. The conviction is increasing that the differences between Congress and the President are such as can be reconciled or else waived without injury to the country. A small majority has decided in favor of making a State of Nebraska.

— The oldest house in the United States now standing as it was originally built is the Rev. Dr. Whitefield's, at Guilford, Ct. It was built in 1639; the walls are of stone and the woodwork is of oak. The diamond shaped windows were removed about sixty or seventy years ago, but in other respects the venerable mansion remains in its original state.

BURNING OF A COOLIE SHIP AND 672 EMIGRANTS.—The Italian ship Napoleon Canovero, which sailed from Macao March 8th, had a crew of 40 men, 663 Chinese Coolie emigrants, and 8000 boxes of fire crackers. An attempt was made by some of the Coolies to poison the ship's officers, and the ringleaders were punished by flogging. 200 joined in a conspiracy to destroy the officers and capture the ship. On the 9th of March a rush was made by the Coolies to get possession of the vessel, but they were fired upon by the officers and crew, and about thirty of them shot, but they refused to surrender, declaring they would capture the vessel or die. They made another rush to get possession of the deck, when the crew fired down the hatches. A cry of fire was raised and smoke seen to issue from several parts of the vessel aft. The fire engine was at once got ready for work, but while the deck lights were lifted for the purpose of putting down the hose where the fire was, one of the coolies severed the wrist of the seaman engaged in handing the hose—the consequence of which was that the man, in less than twenty minutes, died from loss of blood. To all appearance, the object of the Coolies in setting fire to the ship was for the purpose of getting the crew below, they thinking the fire a more serious occurrence than the revolt, and that the crew would at once go below and endeavor to prevent the fire making any further progress; but in this they were disappointed. A second time they were asked to surrender, and replied they would not. The fire rapidly increasing, the captain ordered bread and water to be placed in the boats, and after much difficulty, 31 of the ship's company were saved in boats, 9 being drowned,—but of the poor Coolies, every one perished. The crew on board the boats was rescued by Hamburg bark Madeira, bound to Saigon, China.

☞ Frank Moore's "Anecdotes, Poetry and incidents of the war, North and South," a handsome octavo of 560 pages and embellished with portraits of Lincoln, Grant, Sheridan, Farragut, Sedgwick, Logan, Commodore Rogers, &c., &c., as also of Lee, Stonewall Jackson, J. E. Stuart, &c., has just appeared. The New York Tribune says: "It does not pretend to be a history of the war; but it is an exceedingly rich book, containing more matter of interest than all the novels that have been issued for the last six years, or that will be for the next six. It gives the best things said, done or written by rebels as well as Unionists, most judiciously selected, compactly put together, and handsomely printed. It is sold only by subscription; but those who have a chance to subscribe and don't, will make a blunder."

MORMONS.—The Mormon missionaries are meeting with much success in England and Wales in obtaining converts and emigrants to Utah. The London Spectator calls attention to the fact that the Mormons have mapped out Europe and Great Britain into dioceses; and apostles, elders and missionaries are laboring with a zeal and success worthy of a better cause. Their converts are all from the Protestant communities, a Mormon from the Catholic church being unknown. They are chiefly from the illiterate classes, though occasionally a person of refinement and learning joins them. They most prosper in Wales and some counties in England, in Denmark, Norway and Sweden.

INLAND SALT BEDS.—In a recent volume of Transactions of the Academy of Science of St. Louis, Prof. Owen gives the following explanation of the method by which the great inland salt beds of Louisiana are deposited:

Sea-beach ridges on the Gulf, after being thrown up some hight, permitted the high waters to flow round and into the basin-shaped depression left on the landward side, but impeded the return of the waters thus arrested. The heat of the sun would be sufficient to evaporate the water, leaving the saline deposit; and thus, through a succession of ages, a repetition of like causes and results might readily give rise to the deposit. We have vegetable deposits which formed coal at various geological periods, although chiefly in the true carboniferous era; and so we may also have saline deposits, greatest, as in Europe, during the new red sand-stone or saliferous period, yet taking place also during the quarternary epoch.

☞ The New York Evening Post, commenting upon the not very creditable demonstration elicited in the House of Representatives by Mr. Ancona's and General Schenck's Fenian resolutions, says:

"There are many 'votes' which politicians are tempted to court; the 'Irish vote,' the 'liquor-drinking vote,' the 'Southern vote;' but it will be found, in the long run, that the heaviest vote in this country is that of the people who desire their country to deal fairly and honestly with all nations, and who love liberty and equal rights, and support law and order at home."

— The sitting member from Banbury, in the present Parliament of Great Britain, is Bernhard Samuelson, a native of Virginia. He is the second American who has had a seat in Parliament, the other being John Singleton Copley, afterwards Lord Lyndhurst.

— The last joke on bonnets—the latest style of bonnet that has turned up turns down.

— During the reign of Bonaparte, when the arrogant soldatery affected to despise all civilians, whom they, in their barrack-room slang, termed Pekins, Talleyrand, one day, asked a general officer, "What is the meaning of the word, 'Pekin?'" "Oh," replied the general, "we call all those Pekins who are not military." "Exactly," said Talleyrand; "just as we call all people military who are not civil!"

— The J. Monroe Taylor Gold Medal Soap will sustain the reputation that it has nobly won, having long been ranked the Queen of Soaps. We have known and praised this Soap since its first appearance in the market, and find all who have used it agree with us in saying, that if we had to give double the price, we would not do without it. It has no equal. Most of the merchants sell it. 100

To the Public.

Having thoughtlessly and wrongfully caused to be published in "*The Criminal Life*" of the 9th inst. accusations against two young ladies of this town—N. SANBORN and N. LEWIS—I do now as an act of justice to them, and as a voluntary token of my penitence for the wrong done to Miss Sanborn and Miss Lewis,—state to the public that there was not, and is not, the slightest foundation for said accusation, and that I know nothing to the prejudice of either of the young ladies above named; and I deeply regret that I have done an act calculated to wound their feelings and the feelings of their families and friends.

Perry Davis' Vegetable Pain Killer.

The Great Family Medicine of the Age!

Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.

It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. jel-dawlm

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction that for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Single Box of BRANDRETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continued sickness will be of the past. Let those who know them speak out in their favor. It is a duty which will save life.

Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heartburn, Pain in the Breast-bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines. my29dawim

☞ The N. H. Unitarian Association held a public meeting at the Stone Church on Thursday forenoon, when Rev. Mr. De-Normandie read an able essay on the question, "Is Unitarianism, as a form of Christianity, susceptible of general and popular diffusion?" This was followed by a further discussion of the question by several gentlemen, clerical and lay. This was the closing public exercises of a series, all of which were well attended and satisfactory to the Convention and the Society most interested. The excursion in the harbor, and the visit to the hospitable mansion on the shore, were greatly enjoyed by the distinguished guests, who will remember the whole occasion with much pleasure.

☞ The sale of Oil Paintings at H. F. Wendell's Sales Room, 70 State street, commenced yesterday afternoon, and drew out a large collection of our picture loving people. Some thirty pictures were sold at prices ranging from twelve to forty dollars, hardly being sufficient to cover the cost of the elegant gold gilt frames. The last sales of these paintings comes off this afternoon at 2 1-2 o'clock and this evening at 8. It will be noticed in this sale that the pictures and frames are sold together.

☞ Boston and some other cities have provided Free Public Bathing Establishments, to be open during the warm months. Why cannot we have one here? The cost of construction would be slight, and the sanitary benefit great. Now we have no suitable place for a swimming bath unless we go a mile or more from the city, although we are so favored by our propinquity to the water itself.

☞ The yacht Alice, recently launched by Mr. Townsend, is nearly rigged, and rapidly approaching completion in the fitting of her cabin. Her appointments throughout will be in excellent keeping with her beautiful hull, and it is expected that during the coming week she will make a trial trip to the eastward.

☞ Our sweetest acknowledgment to our old friend and subscriber, Mr. Langdon M. Perkins, of West Hartford, Vt., for a sample of nice Maple Syrup from his farm.

☞ Mr. Wendell continues his sale of dry goods this day and evening.

☞ Some papers in New England wonder that the Canadians are not grateful to the U. S. for putting a stop on the Fenian invasion;—and it is wonderful. But query, whether they ought not rather to be very thankful that the people of this country suffered the Fenians to gather arms, enlist and train soldiers, press over the border, and bring the horrors and alarms of war on the whole province.

We remember very well how thankful *we* were, when our territory was invaded over the same border, our banks robbed, &c. &c.

SANTA ANNA'S ADDRESS TO THE MEXICANS.—Santa Anna has published an address to the people of Mexico, in which he declares he never, in any manner, compromised himself with the Empire of Maximilian. He says he belongs entirely to the Mexican Republic, and expects all the Mexicans to unite and drive the usurpers from their soil, to which cause he offers his own services. A monarchy in Mexico he declares an impossibility, and the restoration of the Republic is the height of his ambition.

Mexican correspondence says the Imperial government will not be abandoned without a severe struggle—the French element in the army being so small that its withdrawal will not leave the Republicans any better off than they were before.

LIQUOR CASES.—Last Monday a hearing was had, in Boston, in the United States Circuit Court, on a motion of Attorney General Reed to dismiss from that court all the liquor cases, amounting to over seven hundred, which had been brought before it, by a writ of habeas corpus. On Thursday morning Judge Clifford granted the motion, and rendered his decision that the United States Court had no jurisdiction over them. This returns them to the decisions of the Superior Court of the State of Massachusetts.

GOLD, Thursday, 147.

☞ The Fenian prisoners in Canada, it is now said, are not to be tried till the excitement subsides somewhat.

— It was nearly a century after a printing press had been set up in New England before one could be tolerated in Virginia. The Southern colonists had no printing done among them till 1727.

— Statistics of 500 Congregational churches at the West show that more than one-quarter of the whole number of male members served in the Union army during the war, including one hundred and fifty-eight church officers and sixty-one ministers. About one in six of those in the service lost their lives.

— A girl that has lost her beau may as well hang up her fiddle.

— Western papers assert that what were vast treeless prairies in Illinois twelve years ago, are now covered with a dense growth of thrifty young forest trees, comprising various species of oaks, hickory, cottonwood, ash, &c.

— The case of George W. Gale, who proposed to raise $1,000,000 to pay for the assassination of Lincoln and Seward, and published a card to that effect in the Selma Dispatch, came up at Montgomery, Ala., 4th inst. He pleaded not guilty, and was allowed to give bail in $15,000.

— The cargo of the well-known privateer Shenandoah was sold at auction in New York last Tuesday. It consisted principally of boxes of plug tobacco, muskets, swords, pistols, revolvers, rebel cloth, etc. The sale attracted a large number of persons, most of whom came out of curiosity.

☞ Eating unripe cucumbers and fruits often produces sudden turns of colic and cholera morbus. More especially amongst children, where it is often attended with violent vomiting and great distress. Coe's Dyspepsia Cure will immediately relieve the pains, stop the vomiting, and cure cholera morbus without fail, if taken promptly and according to directions. It is also a sure cure for indigestion and dyspepsia.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also called *Liver-spot,*) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than of a brunette; but they greatly mar the beauty of either and any preparation that will effectually remove them, *without injuring the texture or color of the skin,* is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

Prepared by B. C. PERRY, Dermatologist, No. 49 Bond street, New York, and for sale by all druggists; price $2 per bottle. Call for PERRY'S MOTH & FRECKLE LOTION.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, renering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Some of the Advantages of Consulting Dr. Stevens.

Patients having Artificial Teeth fitted at this office always have the advantage of a large assortment of A No. 1 Teeth to select from.

They always, if they choose, have the privilege of selecting size and color of tooth to suit themselves.

The patient alone always has the matter of decision as to whether the case is a "fit" or not, as no Set of Teeth is ever considered satisfactory to the proprietor of this office, unless they are entirely so to the patient.

DR. STEVENS *never* uses articles of an inferior quality (although they plentifully abound in the Profession,) in his business.

Dentistry, medically considered, is a speciality at this office.

WHICH IS THE
Leading Life Insurance Comp'y
IN THE UNITED STATES?
Which is the Safest and the Cheapest?

The following figures are from the later Reports of the New York Insurance Commissioner, showing the "amount of business" of the

MUTUAL BENEFIT
LIFE INSURANCE COMPANY,

to be the *largest,* the "expenses of management" the *smallest,* the "ratio of Assets to Liabilities," or the *security* furnished to its members, the *argest* of any like institution in the country.

Premiums received in 1864.....$2,089,072
" " " " 1865.....3,029,087
Ratio of expenses to premiums rec'd in '64..12.96
" " " " " " '65..12.16
Ratio of assets to liabilities, Jan. 1, 1865....151.55

The inevitable conclusion from these official facts, is that the

MUTUAL BENEFIT LIFE Insurance Company

IS THE BEST AND THE CHEAPEST.

Because its NET ASSETS are proportionably LARGER than those of any other Life Insurance Company in the United States.

Because its "Managing Expenses" are LESS, and it has a LARGER SURPLUS to divide among its members than any Company in the United States.

QUERY. Will some one inform the public of that mysterious process by which a Company with a surplus proportionably *much less,* and expenses *very much larger* than another, can yet divide more to its members, and insure them at *less cost?* How is it done? Where does the money come from?

Every intelligent man will see at once that it *cannot be done.* Yet we have Agents among us that make this their boast.

Any one disposed on intending to insure can be furnished with the requisite information by applying to

HENRY A. YEATON, Agent,
Portsmouth, March 27, 1866.—3mdaw

Morning Chronicle.

WITNESSES IN THE CASE OF JEFF. DAVIS.—Messrs. George P. Scarburgh and John Goode, Jr., of Norfolk, Va., have written a letter stating the circumstances under which they appeared as witnesses before the grand jury which indicted Jefferson Davis for treason. They say:

"We went most unwillingly, in obedience to a peremptory order of the court, served upon us by the United States Marshal. We declined to answer many questions propounded to us by the grand jury on the ground that if the crime of treason has been committed, the answer to those questions would tend to criminate ourselves equally with Mr. Davis; and we were surprised to find our names published at the foot of the indictment, in the list of witnesses upon whose testimony the indictment was found."

TOO DULL.—The Bishop of Oxford England, has made a protest against the prevalent dullness of religious tract literature. At a recent meeting of the Society for Promoting Christian Knowledge the Bishop said, "It is more difficult to get tracts read than to get them written. We can forgive almost anything in a man who comes to talk with us if he avoids that one unpardonable offense of dullness." The Bishop was also of the opinion that books suited to all shades of opinion should be admitted to the Society's depot, or, said he, "they would very soon reduce all their publications to one delicious shade of drabness."

THE WEST INDIA SUGAR CROP.—The Department of State has been informed by the United States Consul at St. Croix, West Indies, that the sugar crop this year will probably reach 12,000 hogsheads, with a corresponding quantity of molasses and rum—say from 5000 to 8000 hogsheads of molasses, and 3000 of rum. This will be fifty per cent. more than the crop of 1865, and fully double that of the preceding year.

— Late returns indicate that the majority for the rebel distranchising amendment in West Virginia will be cut down from ten thousand, the figures at first reported, to six or seven thousand.

— The Democratic Executive Committee of Michigan have decided not to call a State Convention for the present. The party is so small that it is thought best to wait for accessions.

DR. SIMEON SWETT

the largest Wine Merchants in New England. Their object for this outlay is to

TELL THE PEOPLE

that they have the most extensive variety of

PURE WINES AND SPIRITS

of all kinds, which they sell in any required quantity, and warrant them to be just as represented,—and also to *arouse public attention to the fact* that the three great leading articles in their business are these,—

EXTRACT OF RYE,
DUNSTER'S LONDON CORDIAL GIN,
GOLDEN SHEAF WHISKEY.

EXTRACT OF RYE;
WHAT IS IT?

Ask the thousands who are using it. Make the enquiry anywhere from one end of this glorious country to the other. Some people call it

The Very Best
OLD RYE BEVERAGE
THEY EVER TASTED.

Perhaps they are right. Try it and see.

IT IS MADE FROM

RYE,

AND NOTHING ELSE,

and from the best Rye at that.

None of your musty, mouldy, heated stuff, but the

Very Best of Rye

that grows in the Cumberland Valley.

It is enough to do a man's soul good to taste it, and see how different it is from the strong, dirty stuff that people use for Rye Whiskey.

It is Made Different.

It retains, by a peculiar mode of distillation, the very

MEDICINAL QUALITIES

that have made it so popular. If you want to use

A Pure, Genuine Article of Spirits,

to stimulate a Weak stomach, or to give you renewed health and long life, use the

EXTRACT OF RYE.

It is put up in large square bottles, which contain the name of

CHEROKEE PILLS,

Or Female Regulator,

Cure *Suppressed; Excessive and Painful Menstruation, Green Sickness, Nervous and Spinal Affections, Pains in the Back, Sick-Headache, Giddiness,* and all diseases that spring from irregularity, by removing the cause and all the effects that arise from it. They are perfectly safe in all cases, *except when forbidden by directions,* and are easy to administer, as they are nicely *sugar coated.* They should be in the hands of every Maiden, Wife, and Mother in the land.

Ladies can address us in perfect confidence, and state their complaints in full, as we treat all Female Complaints, and prepare Medicines suitable for all diseases to which they are subject.—Thirty-two page pamphlet, in a sealed envelope, free.

The Cherokee Pills are sold by all druggists at $1 per box, or six boxes for $5; or they are sent by mail, free of postage, in an ordinary letter, free from observation, by addressing the sole proprietor,

Dr. W. R. MERWIN, 37 Walker St., N. Y.

N. B.—Cherokee Pills No. 2 are prepared for *special cases,* when milder medicines fail; these are sent by mail, free of postage, on receipt of $5, *the price of each box.*

DR. WRIGHT'S
REJUVENATING ELIXIR,
Or, Essence of Life,

Cures *General Debility, Weakness, Hysteria in Females, Palpitation of the Heart and all Nervous Diseases.* It restores new life and vigor to the aged, causing the hot blood of youth to course the veins, restoring the *Organs of Generation, accompanied with Nervousness, removing Impotency and Debility, restoring Manliness and full vigor,* thus proving a perfect "*Elixir of Life,*" removing *Sterility* and Barrenness in both sexes. To the young, middle-aged, and aged, there is no greater boon than this "Elixir of Life." It gives a new lease of life, causing the weak and debilitated to have renewed strength and vigor, and the entire system to thrill with joy and pleasure.

Price, one bottle $3; three bottles $5; sent by express to any address.

Our medicines are sold and recommended by all respectable druggists in every part of the civilized globe; some unprincipled dealers, however, try to deceive their customers by selling cheap and worthless compounds in order to make money. Be not deceived—ask for these medicines and take no others. If the druggist does not keep them, write to us, and we will send them by express, carefully packed, free from observation. We will be pleased to receive letters with full statements in regard to any disease which ladies or gentlemen are afflicted. Address all letters for medicines, pamphlets, or advice, to the sole proprietor,
